

**SERMON TOPICS**

Giving brief report of Sunday sermons at Louisburg churches past Sunday.

**Methodist Church**  
 "SAVING OUR CIVILIZATION" was the message delivered by the pastor at the Methodist Church Sunday morning. Speaking from the text John 15:7. "If ye abide in me, and my words abide in you, ye shall ask what ye will, and it shall be done unto you." The minister said that "Few things affect humanity like a spectacular crushing misfortune." That nothing touched this country like the great war. People, regardless of faith or creed went to prayer in behalf of their loved ones in France. Every county court house had a prayer meeting. Every church had its assembly for a distressed people pleading for divine help. America was torn by turbulent emotions, hate for the enemy and love for their own. When the war ended, our people plunged themselves into a program of forgetfulness.

Dr. FitzGerald claimed that America had become a Prodigal Nation. Like the prodigal son of Biblical fame that son had long before been living in the far country before his feet took him there. He had spent his weekly allowance in extravagance before his father ever divided the family fortune with him. His dreaming and thinking had been along the line of sinful, personal gratification. The departure from home was but the inevitable outcome of the heart to wander from the things the father wanted him to love and live for. The swine-trough was the goal of it all. He had long sought the swine-trough; now he was destitute before the swine feed. Sin always gets us in the end, unless we turn back to our father's house. America lost her sense of values. She has sought the end of wealth. Relied and depended upon material resources to advance her. Now these have failed. The minister said that America must have a renaissance in values. Moral values must be above material values. He said that this country stood before two great issues. One was ultra-conservatism with all its retrenchments, eliminations, and abandonments of many of the vital possessions we now possess. It would revere our land far back into the yester-years. Hysteria and confusion would throw this country into a tragical panic. On the other hand many minds would launch out upon reckless radicalism. Brushing aside the sacred heritage of our civilization and plunging us into the twilight of a fallen nation.

The minister appealed to his congregation to hold fast the faith. The message of the text was spoken by the Man of faith to a people well nigh in despair. He reminded his hearers that there is safety and security for all that good in the leadership of God. These are the times for loyal devotion, undivided allegiance, the spirit of sacrifice to hold as eternal a civilization builded upon the teachings, life, and death of Jesus Christ.

**Chevrolets Produced in February**

Detroit, Mich., March 13.—Total production of Chevrolet cars and trucks in February was 45,077 new units, a gain of 7.3 per cent over the 42,098 units built in the corresponding month of 1932. W. S. Knudsen, president and general manager of the Chevrolet Motor company, announced here today.

February production brings the total number of new 1933 models—shown publicly for the first time on December 17—manufactured to date to 150,000 new cars and trucks, Mr. Knudsen said. Since the first of this year to the close of February 15,200 more units had been built than in the first two months of 1932, he stated.

Of February's total production, domestic dealers took 39,200 models for delivery to consumers as compared with 36,000 in the same month of 1932. Retail deliveries to consumers for the first twenty days of the month, already reported by dealers, reflect this increase in the gain scored over the corresponding days of last year, Mr. Knudsen said.

Shipments of Broccoli are going forward from Scotland County by express until the crop matures to the extent that carlot shipments can be made.

**Earthquake Does Big Damage In California**

Los Angeles, March 11.—Violent earthquakes spread death, injury and destruction over a path some 200 miles long and 30 miles wide in Southern California last night.

Eighty were known dead and more than 2,500 injured on incomplete reports from the stricken cities and countryside.

Long Beach reported 22 dead, Los Angeles 12, Compton, 13, Huntington Park 12, Santa Ana 3, Watts 4, San Pedro 2, Hermosa 1 and Garden Grove 1, Wilmington, Bellflower 3, Artesia 4, Walnut Park 1, Norwalk 1. Los Angeles report 1,500 injured and the Long Beach injured role was put at 1,000.

From State and city police authorities in the stricken cities came reports others were feared buried beneath wreckage. Hospitals were filled. Fires raged by the dozens.

Governor James Rolph, of California, was considered declaring a state of emergency. In Washington, President Franklin Roosevelt extended the facilities of the government to Governor Rolph to relieve distress.

The Red Cross in Washington awaited word from its regional headquarters in San Francisco before swinging its huge resources of relief into action.

As the stricken area, famed for its playgrounds and film studios, worked feverishly to dig out its dead, minister to its injured, and restore order out of chaotic crowds, the earthquakes continued their devastation.

The seventh, at 7:55 p. m. (Pacific Coast time), showed a diminishing in force. But it was false prophecy. The eighth, an hour later, rocked up with greater strength, adding to the wreckage and casualty list.

Then two more—at 9:10 and 9:19 (Pacific Coast time)—after which buildings swayed at intervals, another shaking Los Angeles at 12:12 p. m.

**Enlistment In Marine Corps**

For the first time since last fall the acceptance of applicants for original enlistment in the Marine Corps has been resumed according to an announcement made by Major E. M. Reno, Officer in Charge, Marine Corps Recruiting Station, Post Office Building, Savannah, Ga.

During the lull in recruiting a number of vacancies in the Corps have occurred and the Savannah District which comprises the states of Virginia, North and South Carolina, Florida, and the eastern part of Georgia has been assigned a limited number of these vacancies.

Young men in this vicinity between the ages of 18 and 30 who are at least 68 inches in height and have completed high school who desire service in the Marine Corps should apply or write to the above address.

**Autos For State Officials**

To the Editor: Why does the State furnish autos for State employees who get large salaries? If a man works for the State and can't furnish his auto to ride in and can't buy gas and oil to operate it on, he ought to resign and not be a burden on the taxpayers. Why don't our law makers pass laws that will stop wasting people's money? Watch out, Mr. Legislator. We know that you can stop such waste as that and the time has come to cut to the bone. If you can't do what you were sent up there to do, you won't get back any more. You saw most of the 1932 legislators go down in defeat and you are headed for the same defeat if you don't get busy and stay on the job. We don't need a sales tax and it looks like anybody could see that. We need less tax instead of more. Abolish the highway patrol. Let the sheriffs and deputies do highway work and then cut every State employ down to where the laboring man has been cut and you won't have to have a sales tax. If a man can't live on \$125 per month, let him resign.

L. A. TEW,  
 Selma, N. C.

The above was taken from the News-Observer by Mr. James J. Lancaster, who requested the Times to publish same adding his endorsement.

Among the pigmy Uegritoes of the Philippines, a man may not own property until he is married.

**ADMINISTRATRIX NOTICE**  
 Having qualified as Administratrix of the estate of W. E. Rowe, deceased, late of Franklin County, North Carolina, this is to notify all persons having claims against the estate of said deceased to exhibit them to the undersigned on or before 17th day of March, 1934, or this notice will be pleaded in bar of their recovery. All persons indebted to said estate will please make immediate payment.  
 This 16th day of March, 1933.

 Admrx.

**POISON in Your bowels!**

Poisons absorbed into the system from souring waste in the bowels, cause that dull, headachy, sluggish, bilious condition; coat the tongue; foul the breath; sap energy, strength and nerve-force. A little of Dr. Caldwell's Syrup Pepsin will clear up trouble like that, gently, harmlessly, in a hurry. The difference it will make in your feelings over night will prove its merit to you.

Dr. Caldwell studied constipation for over forty-seven years. This long experience enabled him to make his prescription just what men, women, old people and children need to make their bowels help themselves. Its natural, mild, thorough action and its pleasant taste commend it to everyone. That's why "Dr. Caldwell's Syrup Pepsin," as it is called, is the most popular laxative drugstore sell.

**MR. L. H. COTTRELL DEAD**

Mr. L. H. Cottrell, one of Franklin County's prominent farmers died at his home two miles north east of Louisburg, Wednesday morning, March 1st, in his forty-ninth year. He had not been in good health for some time, but he kept going on and appeared in his usual spirit until his recent illness about three weeks ago.

Mr. Cottrell was a man of high Christian character and integrity. He was noted for his kindness and hospitality. He had a kind heart and generous impulse and loved his fellowmen. He had the faculty of making and retaining friends. He was a kind and devoted husband and father.

Mr. Cottrell was the son of Thomas and Mary Thompson Cottrell. He was born in Granville County, but his family moved to this County when he was a small child. He had a large family connection in this section.

His wife, who survives him, was Miss Mattie Tharrington, daughter of the late J. C. Tharrington. He leaves seven children besides his wife: Messrs. Joseph, Bryant, Sterling, Walter David, and Stuart Cottrell; and Misses Mary Helen and Edith Cottrell; also, four grand-children, and three brothers and two sisters, Messrs. O. S. and Lonnie Cottrell of Franklin County, Mr. Edward Cottrell of Creedmoor, Mrs. Lena Hight of Franklin and Mrs. J. M. Pleasant of Durham.

The funeral services were conducted at home by his pastor, Rev. A. J. Parker, and Rev. A. L. Thompson, a former pastor and friend of the family. The interment was made at Oaklawn cemetery. Large crowds attended both services. The floral tribute was beautiful, showing the esteem in which he was held.

The pall bearers were as follows: Active, W. D. Rowe, Ollie Fisher, Spencer Matthews, An-

**HUMOROUS PARAGRAPHS**

By O. P. FitzGerald  
 "Nation in Sportive Vein, Accepts Scrip and I. O. U.s", says news. No wonder. A debtor says to his creditor, "Here's my I. O. U."

This bank holiday may cause

many a president say to his hired help this summer, "You've had your vacation."

If the State Legislature can't balance the budget, it might try budgeting the balance.

Anyway, we hope prosperity will be alive and kicking when it does come back.

Now scrip has come to cramp the style of check flashers. Something is always happening to bother the old boys.

Well, anyhow, no need to worry now. We are all on Roosevelt.

During the month of February, Columbus County poultry growers sold their surplus stock in the amount of 37,000 pounds receiving cash at the car door.

**Nature's Own Secret of Health Revealed**

Science Discovers That Good Health Depends on Supplying the System with Necessary Minerals and Vitamins.

Medical Science has discovered that the human body is made up of a very limited number of essential elements. All of these are found in the Mineral kingdom and in foods in their natural state. To be exact, the healthy human body is composed of eleven Minerals and when these are present, in balanced proportion, we enjoy good health.

**PROPER FOODS ESSENTIAL**  
 Unfortunately, few of us give any thought to balancing our diets, according to their Mineral content, and therefore we must pay the penalty. A deficiency of these elements brings on Indigestion, Gas, Bloating, Constipation, Headaches, Nervousness and a host of other ills. We soon lose strength, go from bad to worse and become disgusted with life itself.

**NEW WAY TO HEALTH**  
 For many long years, Physicians and Chemists have been trying to combine, in proper proportion, the eleven essential Minerals with necessary Vitamins. They realized that the preparation must be easily assimilated and supply the system with these elements so necessary to health.

**SCIENCE TRIUMPHS AGAIN**  
 Fortunately, for all mankind, this tremendous undertaking has met with suc-

cess! Science has perfected a most remarkable formula, known as LEE'S MINERAL COMPOUND. This preparation supplies the system with the eleven essential Minerals, in combination with Vitamins. It is not, in any sense of the word, a "patent" medicine but is more in the nature of a FOOD VITALIZER. It assists Nature, by restoring a proper balance of the Mineral Content of the body and good health follows as a natural result.

**BIG SURPRISE AWAITS YOU**  
 You who are blue, down cast and depressed over your loss of health. You who have tried many medicines and treatments with little or no relief—take new heart and cheer! Prepare yourselves for the most joyous surprise of your lives.

**MAKE THIS 10 DAY TEST**  
 Convince Yourself!

Stop doing yourself with "patent medicines," harsh purgatives, oils and cathartics for just 10 days. Go to your nearest Drugist and secure a bottle of LEE'S MINERAL COMPOUND. Take it regularly, and watch the results. You'll be amazed at the feeling of renewed strength and vigor that soon "soothes you up" but a natural method of restoring health and energy.

**For Sale by** SCOGGIN'S DRUG STORE, LOUISBURG, AND GOOD DEALERS EVERYWHERE, or send \$1.25 to Lee's Laboratories, 365 Peachtree Arcade Bldg., Atlanta, Ga., for large bottle, postage paid.

There never have been and never will be two qualities of

**ROYSTER FERTILIZERS**

It has always been our policy to seek out the best materials and use them. We have put our whole soul into making the very best fertilizer that can be produced. We have spent a lifetime in the study of feeding the tobacco crop, from the time plant beds are sown until the tobacco is put in the barn.

Our research men are always on the job, creating and testing new developments, both in materials and methods of feeding the tobacco plant.

Tests in our laboratories and actual field tests must prove the value of new developments, before they are given our O. K. and passed on to those who use our goods.

By always being up-to-date, scientifically and practically, we keep Royster fertilizers at the top of the list. WE WILL NEVER HAVE TWO QUALITIES. That is why there are more Royster tobacco fertilizers used in North Carolina and Virginia than any other brand.

Why experiment when you can get ROYSTER?
