

WE BRING BACK POWER IGNITION . . VALVES . . TUNING

Perhaps you are planning on using your car another year—like many another of us. But does the car pull the way it used to? How about those hills you used to try? And the pickup? . . . It's surprising how much power you can gain by a few simple adjustments of your ignition system—or by installing a new set of plugs. And it's good economy too. . . . Drive in for a free inspection.

ECONOMY IN BUILDING

When you are ready to buy the lumber that goes into your home, bear in mind that often better lumber at the start will avoid extra construction costs and expensive repairs later.

Inferior lumber put into your home may mean many repair bills in the future.

A leaky roof, a sagging floor, cracked plaster, a window that will not shut easily—these are often the results of buying inferior lumber. They mean costly repairs.

These can be avoided if you buy dependable, uniform lumber, such as we have for sale.

It will mean a home that is built permanently, without all the annoying and costly repairs.

Use This Laxative made from plants

Theodor's BLACK-DRAUGHT is made from plants that grow in the ground, like the garden vegetables you eat at every meal. NATURE has put into these plants an active medicine that stimulates the bowels to act—just as Nature put the materials that sustain your body into the vegetable foods you eat.

In Black-Draught you have a natural laxative, free from synthetic drugs. Its use does not make you have to depend on cathartic chemical drugs to get the bowels to act daily. Now you can get Black-Draught in the form of a SYRUP, for Children.
