\$25,000 VERDICT

Franklin Superior Court Adjourned Monday

One of the largest, if not the largest, award of damages ever made in a Superior Court in Franklin County was granted during the present term when James Monroe Privett was given a verdict of \$25,000 damages against the defendant T. J. Burgess, et als, the case growing out of an accident to Privett caused by the exploding of dynamite caps in his hand, which the plaintiff's claim were negligently left about the new State Highway by Bunn when under construction by agents of the defendant.

Quite a number of other cases were tried and disposed of at this session which was presided over by Hon. Henry A. Grady, in a most business like manner. The term came to a close Monday afternoon.

He is installing equipment for handling gas and oils in addition to his other lines of parts and accessories of all kinds and hopes to give you full service any hour you need it at the lowest possible price. Ginners Code

The Ginners Marketing agreement is now in the hands of the Ginners for their signature and is being signed up at a rapid rate and mailed to the president of the Association.

The President, Dr. F. V. Taylor, wishes to remind the ginners that this is their golden opportunity to accept an agreement in which the ginners had a voice in framing and one that will be fair to both ginner and farmer and eliminate unfair cut-throat competition and is in harmony with the spirit of the new deal and if the ginners do not accept it they will be given one which may not be so acceptable to the ginner.

Many ginners are overlooking some of the blanks that are to be signed, please read your instructions and sign the three blank spaces in the agreement, pages 14-16-17 and mail the agreement signed.

The Machinery clause and price figures will be changed to meet the new conditions as compared to last year. We want the percentage of ginners to be as good or better as any of the other states and I urge all ginners to sign the blank properly and mail it at once.

When adopted the agreement applies to all ginners in the United States whether he be a signer or not, but the government is desirous to have three-fourths of the balage ginner over a period to sign the Agreement.

Nursery Schools

By Mrs. J. Henry Highsmith
A project of the ERE—Emergency Relief Education—program that seems to be meeting an acute need and proving a blessing to the communities in which they are established is the Nursery school. At first this project was looked at askance because to conduct one successfully required a combination of efforts on the part of at least three federal agencies. The teacher even if she succeeded in organizing a class of ten children from two to six years of age whose parents were on relief or unemployed had to be paid from the ERE funds; she had to have the hearty support of the CWA worker in securing a place for her school and for proper equipment, and also of the local director of relief in order to get food for the children. But the plan works. Already more than 100 nursery schools have been organized in the state and there is a demand for more. They have not only been found practical in their operations but they are also serving a group that otherwise probably would not be reached.

American Legion Auxiliary Meets

The American Legion Auxiliary met Tuesday afternoon, Feb. 20th, at the Welcome Inn with Mrs. W. H. White, Mrs. R. A. Pearce and Mrs. C. R. Sykes as hostesses. In the absence of the president, Mrs. J. E. Malone, Mrs. A. W. Alston presided. The meeting was opened with the Lord's Prayer and the Preamble to the Constitution repeated in unison.

The roll call showed 17 members present. Mrs. William Andrews was welcomed as a new member of the unit. The minutes were read and approved. A letter of appreciation from Mrs. D. T. Smithwick was read. The program consisted of a five minute address on the Rehabilitation Program read by Mrs. G. M. Beam and Miss Joyce Price of Louisburg College gave two interesting readings. The Auxiliary then gave Mrs. J. W. Mann a rising vote of thanks for the Auxiliary Year books just completed. The meeting was turned over to the hostesses who served sandwiches and coffee.

Louisburg and vicinity are to be congratulated in having one of these Nursery Schools in its midst. It is under the management of Mrs. E. W. Furgurson, assisted by Miss Mary Eleanor Jones, whose experience and training for this work qualifies them to render this community valuable aid in this phase of child welfare.

HEAVY SLEET DAMAGE HERE

Possibly the heaviest sleet that has visited this section in ten years or more was in evidence Sunday and Monday. The trees, fences, wires and ground were covered with heavy layers of ice following a slow freezing rain almost all day Sunday and a heavy rain Sunday night. The rain Sunday night brought with it a heavy thunder and electrical storm, such as is heard during the spring and summer months. The heavy sleet caused a big damage to telephone, telegraph and electric lines as well as to growing timber. Reports of heavy damage to trees in timber and wood tracts was reported from many sections. Telephone and electric light crews were busy Sunday and Monday repairing their lines and communications and service was badly hampered. The electric current was off all day Monday, shutting down all business dependent upon it for lights and power. Service was resumed Monday night and practically all damage has been repaired.
