

Loses Coal Mining Job

CADIZ, Ohio: ... Ida Mae Stull (above) has worked in coal mines here since she was 12 years old. Now Ida is mad because an Ohio Mines Inspector says it is against state laws for women to work in mines ... and at 34 she has to look for another job. Ida can mine and load an average of 5 tons of coal a day.

A great boon to safety would be the invention of automobile brakes that would get tight with the driver.

By the time a man has learned how to handle money, he's lost it all.

Before you can discipline others successfully you must discipline yourself.

HOME DEMONSTRATION DEPARTMENT

Anne Benson Priest, Home Demonstration Agent

Itinerary
 March 5—Older 4-H Club Girls at Epsom.
 March 6—Centerville Woman's Club.
 March 7—Pilot 4-H Club; Pilot Woman's Club.

The March meeting of all clubs will be devoted to clothing. All clothing leaders are requested to bring any patterns or suggestions that they might have.

THANKS

I wish to extend my heartfelt thanks for the many expressions of sympathy and deeds of kindness extended me during my recent sickness.

LEON SPENCER.

There are more than 600 varieties of wild flowers and plants in Mt. Ranier national park.

Approximately 20,000 people are killed yearly in India by the bites of cobras and other venomous snakes.

Nitroglycerol may be made to explode by hitting it with a hammer.

Hanging Her "Duty"

PADUCAH, Ky.: ... Miss Lurline Humphries, 32, sheriff of Trigg County, Ky., announces "she will do her duty" in the possible hanging of two men for whom the death penalty has been asked, charged with assault on a 9 year old girl.

Most of us talk, not because we have anything to say, but because silence is embarrassing.

If a man smiles at home somebody is sure to ask him for money.

Everything that we have has a tendency to wear out unless it is taken care of—and that applies to our reputation.

X-ray tubes running on 900,000 volts are being made and bid fair to become part of cancer hospital equipment.

A Spring Coiffure

NEW YORK: ... An inspiring Spring season ahead, bringing with it many new bonnets which include those off-the-face models, comes feminine thoughts to turn to attractive coiffures. The beautiful Elizabeth Allen, screen favorite, is now sponsoring this entrancing and blown wave.

He Whipped Schmelz

PHILADELPHIA: ... A ring-side picture of Steve Hannas, New Jersey heavyweight, who upset the static cart of the German former World Champion, Max Schmeling, in a 12 round decision bout here. Hannas now ranks third in heavy ranks, say critics.

Everybody has big ideas, but only the man who masters the details can translate a big idea into a reality.

Hints for the Home
 by Nancy Hart

In entertaining, allow one quart of ice cream to serve six persons, and one pound of cake to serve fifteen.

To stop the smarting from a burn, coat it immediately with mucilage. If the burn is quite deep, cover it with a paste of cold water and flour and keep moist until the smarting has stopped.

A small bottle of ammonia on the desk is excellent for cleaning a pen point, even for use from one color of ink to another. One ammonia dip makes it like new.

Wine Gravy for Game: To one quart of stock add a half pint of cooking wine. Flavor with nutmeg, powdered cloves, butter, and sugar. Thicken with browned flour. Strain. Salt to taste when ready to serve.

Left-over vegetables may be served in an oven meal by combining them in a buttered baking dish—peas, diced carrots, limas, corn—add milk, sprinkle with buttered crumbs and set in the oven.

Very good cranberry sauce can be bought by the can, but to bring out the best flavor it should be set in the ice-box over night before using in order to chill thoroughly. It is most attractive turned from the can in one long roll and served in thin—not too thin if you are fond of it—slices.

Proper Dressing for Ducks: Pick ducks, dry, before removing head and legs. Then remove head, cut off legs and wings at second joint—that is underlined so it must be important. Roll the duck in melted paraffine. When paraffine is cold scrape it off with a dull knife. All the nasty little pinfeathers and down come off with the paraffine and your bird is immaculate.

If you do not like the rare, wild taste of duck, place an onion in the roaster. The onion is not to be eaten, even by the most avid onion fan. It is used purely as an absorbent, and is to be discarded when the ducks are done.

Grouse: Pick and dress. Boil for thirty minutes to take out the strong taste. Stuff with regular turkey or chicken dressing; lard well, or, better still, put strips of salt pork over them. They require half an hour to roast. Serve with wine gravy. Grouse are also good made into a pot pie.

TONKEL'S DEPT. STORE, INC.

—OFFER FOR—
FRIDAY AND SATURDAY

THE FOLLOWING SPECIALS

When fledglings fired with ambition,
 Hurl loud defies at competition;
 The owl makes this wise observation:
 "First—better get a reputation!"

A SMALL FARMER POINTS THE WAY OVERSIZE FERTILIZERS

"BEST IN THE FIELD"

The following letter was recently received by SAPONA MILLS, INC., Makers of OVERSIZE FERTILIZERS from Mr. T. V. Kelly, at Moncure, N. C.

"I feel like I want to say something in regards to your Guano I used in the 1933 crop. I had three acres in cotton and used 300 lbs. of your Guano and fifty pounds of your soda and made on the three acres 1522 lbs. of lint cotton.

I am highly pleased with it and if I can get any for my 1934 crop I sure do want it as I never had better cotton anywhere. The land was not improved by any means."

Now if you were making fertilizer wouldn't a letter like the above right from the heart make you feel good. It effects us that way too and it points the way to better crops by using OVERSIZE FERTILIZERS.

We ask that you place your orders in Franklin County with our agents
