J. B. Yarborough Dead

Funeral Services Held at St. Paul's Episcopal Church Monday Afternoon

The announcement of the death of John B. Yarborough late Saturday afternoon came as a severe shock to his many friends in Franklin County.

The body was brought to Louisburg Sunday and the funeral was held at St. Paul's Episcopal church at 3:30 Monday afternoon conducted by Rev. Frank Pulley, rector, and Rev. Leon Malone, of Gatesville, and the body was laid to rest in Oaklawn cemetery. The little church was filled to overflowing with sorrowing friends and relatives, most of whom attended the final rites at the cemetery. The floral tribute was especially pretty and immense.

The active pallbearers were F. H. Allen, E. H. Malone, F. R. White, D. F. McKinnis, R. C. Beck, M. S. Clifton, W. D. Egorson, and D. S. McGilvery, of Durham.

The list of honorary pallbearers was as follows: Vestry of St. Paul's church composed of R. H. Davis, L. L. Joyner, J. B. King, W. J. Shearin, W. W. Neal, Kemp P. Yarborough, L. E. Scoggin, J. W. King, Dr. R. F. Yarborough, and W. A. Graham, of Raleigh. J. H. Kerr, of Warrenton, T. L. Smith, of Wilmington, L. S. Harris, C. R. Warrick, K. P. Hill, H. A. Hobbs, of Raleigh, Hon. F. S. Spruill, of Rocky Mount, Dr. S. P. Burt, Dr. H. H. Johnson, F. J. Beasley, M. S. Davis, S. T. Wilder, J. L. Palmer, Dr. D. T. Smithwick, Major S. P. Boddie, S. J. Parham.

Surviving Mr. Yarborough, are the widow, four children, R. F. Yarborough of Louisburg, John B. Yarborough, Jr., of Durham, Mrs. John Glenn and Mrs. William Cross of Gatesville; one brother and four sisters, W. H. Yarborough, Miss Mary Yarborough and Miss Edith Yarborough of Louisburg, and Mrs. J. R. Cotter of Raleigh.

Mr. Yarborough was popular among his home people having occupied many positions of trust, having served a number of terms as mayor of Louisburg to which office he was re-elected until he declined to accept another nomination. He also was Register of Deeds for Franklin County for four terms.

Yarborough was a traveling representative of the American Agricultural Chemical Company and for a number of years was a field man for the State Department of Agriculture.

The body was recovered from Haw River, into which he jumped late Saturday afternoon, early Sunday morning.

Coroner George B. Brooks officially termed the death a suicide.

Yarborough, who was 65 years old, jumped into the river after telling William Davis, Chesterfield, S. C. hitch-hiker, that "I can't face the music" and asking him to take his car to a hotel in Sanford and tell Mrs. Yarborough what had happened.

Members of the Yarborough family could assign no reason for the suicide.

Will Collie, of Raleigh, a nephew of Yarborough, found the body Sunday morning just after dawn. Hundreds of persons searched the vicinity for hours late Saturday and Saturday night without success.

Coroner L. M. Waring, of Raleigh, was called to aid in the search for the body.

The public is invited to be present for this contest.

Bonds Selling Well

A. F. Johnson, Secretary-Treasurer of the Franklin national farm loan association of Louisburg recently received word from the Governor of the Farm Credit Administration, Wm. I. Myers, telling him of the ready reception which farmers and their creditors are giving to the bonds of the Federal Farm Mortgage Corporation which are now being tendered by the Federal Land Bank of Columbia, S. C., in place of cash in settlement of farmers' debts.

"These bonds have been selling in the large markets at a little above par, indicating a ready market for them. Just a week after the banks began using bonds instead of cash, the first bonds to be sold on the New York market were purchased at 100%. We anticipated these bonds which bear 3 1/2 per cent interest per annum would sell at par or above at the time we set the interest rate, for Government bonds maturing in 1941, bearing the same rate were selling above par."

Mr. Myers pointed out that these bonds were not only exempt from local, State and Federal taxation with the exception of surtaxes, inheritance and gift taxes, but that they are as readily salable as Government securities. He said they are being quoted in the metropolitan papers but if such quotations are not available readily to farmers that they will be given the quotations if they will write to the Federal land bank of their district.

Plymouth Salesrooms

Mr. W. N. Fuller local Plymouth dealer has leased the building on Main Street formerly occupied by Phillips - Hilton Wholesale Co., and has rearranged the front and converted it into a nice salesroom in which he will display the Plymouth automobiles. The rear of the building will be converted into a garage in charge of Mr. E. H. McFarland.

PLAY AT JUSTICE

"Aunt Jerushy on the Warpath," a humorous three-act play, will be presented by the seventh grade of Justice School assisted by a group of chorus girls from the sixth grade on Friday night, April 13th at 8:00 o'clock in the school auditorium. A small admission fee will be charged.

Recorder's Court

Only a very small docket was before Judge J. E. Malone in Tuesday's session of Franklin Recorder's Court and was disposed of as follows:

Will Ward was found guilty of unlawful possession of whiskey. Sidney Collins plead guilty to unlawful possession of whiskey; prayer for judgment, continued for two weeks.

Jim Mitchell was found guilty of unlawful possession of whiskey and given 6 months on roads. Eva Davis, found guilty of assault with deadly weapon, 90 days in jail; Commissioners to hire out.

Relief Activity

The following article was given out by C. W. E. Pittman, Director of Relief for Franklin County:

Food for every tenth person in Franklin County for four winter months; warm new clothing for the ragged two or three years; reestablishment of credit with land-lords and grocers; renewal of self-respect and self-confidence because of a real job at real wages; sixty-thousand dollars pumped into the tills of county merchants to start the first evidence of business recovery seen in these parts—these are the accomplishments of CWA in Franklin County—these were the purposes for which CWA was organized and these it attained. The building of privies and remodeling of school buildings, and the laying of sewers were no part of its purpose. These were purely incidental to the creating of jobs and the pumping of money into circulation. They are by-products and not the measure of accomplishment.

CWA was set up in the County on November 20th, 1933 with instructions to put five hundred men at work at once on projects of enduring social benefit, if possible, but put them to work regardless. Projects of enduring social and economic good involved the purchase of materials in considerable quantities and, not many projects were of such a nature as to permit CWA to buy the whole of what was needed. Local Units of Government were, for the most part, unable to buy materials and none of them were prepared to buy early in the program. Curtailment of CWA activities began on January 18th and actual demobilization got under way February 17th. Since the whole CWA program from November 19th to the end on April 1st was the equivalent of only forty-two, ten hour working days, it is perfectly evident that only these Units of Government that were prepared to cooperate at the very beginning could possibly derive much benefit in so far as permanent improvements on construction is concerned.

Despite this unreadiness of local Units of Government to avail themselves of the fleeting possibilities of the CWA program, most of the money spent, brought real values to the County. The serving of a warm, substantial noon meal daily to over four hundred school children of relief families; the construction of more than three hundred sanitary privies, the draining of mosquito breeding ponds, and the laying of water and sewer lines were activities of real worth.

By far the greater part of the \$60,000 spent by CWA went into the hands of laborers. Some however, was spent for materials for use on schools and municipal projects. An incomplete summary taken from office records show that the following were the chief avenues of expenditures and the relative costs as borne by CWA and local Governmental Units.

\$22,000 was spent on schools and school property. Of this total \$4,500 was for materials of which CWA furnished \$3,500 and the schools \$1,000. On these school projects CWA put up \$21,000 and the schools \$1,000. \$20,000 was spent in the towns. Of this amount the towns put up \$1,500 for materials and CWA \$500.00. \$9,000 was spent on health and sanitation projects; all of which was furnished by CWA.

Father's Night

GETTING READY FOR RENTAL PAYMENTS

The adjustment of cotton reduction contracts to make the claims of past acreage and poundage conform to the known figures for the production in each county should be completed within the next few weeks, according to Dean I. O. Schaub of State College.

Efforts are being made to start the rental payments by the latter part of April, so that the money may be available to the farmers for use in the cultivation of the present crop.

The checks will be sent out from Washington, headquarters of the AAA, as fast as the revised contracts are accepted there. Tabulators at State College have finished the checking of original contracts in 24 of the 67 cotton growing counties. There is some overstatement in the claims of past production, but little difficulty is anticipated in adjusting the figures, Schaub said.

IMPORTANCE OF CROP SURVEY

Meeting in the Wake County Court House were the township tax listing officials for 1934. Talking to them was the representative of the State Department of Agriculture. His subject was The Farm Census Survey.

In previous years it had been difficult to arouse in these listers appreciable interest in this work. This year, they asked many questions—indicating interest. The County Commissioners here, as well as in ninety-one other counties, passed a resolution, calling on the listers to get complete crop acreage reports.

The Agricultural Adjustment Administration programs for Cotton, Tobacco, Wheat, Peanuts, Corn and Hogs necessitate county basic facts. Both contracting farmers and county-paid tax listers are now aware of the importance of these records.

It is known that several counties have been the losers of thousands of dollars because of careless and incomplete township farm reports. Instead of these reports affecting taxes or reaching speculators, it is realized that this is solely a protected farmer-benefit acreage survey.

The public is invited. Application papers for emergency crop production loans have been received in Burke County. R. L. Sloan, farm agent, has given considerable time assisting farmers interested in the loans.

Exposition And Automobile Show

Rocky Mount, April 12.—One of the attractions in the coming Rocky Mount Merchants and Manufacturers Exposition and Automobile Show, beginning April 16th and continuing throughout the week, will be the sensational fan dance, popularized in the Chicago world fair by the lovely Sally Rand.

Miss Corrine Reynolds, headline attraction of Charlie Mack's "Rhapsody in Fun", a nightly attraction of the exposition, will execute the difficulty dance in precisely the same costume and with fans similar to those behind which Miss Rand performed the dance in Chicago, on the New York stage and later for the movies in Hollywood.

No one of the scores of attractions scheduled for the exposition has occasioned quite the discussion and interest that has resulted from the booking of this novel feature.

Merchants have planned to make the show one of the biggest in the city's history and the success in securing attractions, costing more than attractions for any two previous exhibitions, presages the outcome of the annual event. Profits from the exposition will be divided between the Merchants Association and the Chamber of Commerce and will be expended in helping to attract business to Eastern Carolina.

Other events on the program are nightly dances, music from two stage bands, a midway with scores of entertaining features, and a variety of exhibits of automobiles, the latest improvements in virtually every sort of merchandise offered in modern stores, and added entertainment to please fastidious people.

The exposition will be held in Mangum's Warehouse beginning on Monday, April 16, and lasting through out the week.

Farmers Are Still Talking About Those Big Crops

The tobacco growers in Halifax County have discovered a new kind of fertilizer. Last year Swift & Company made the Pool fertilizer and the results obtained from the use of this fertilizer were outstanding. One of the reasons for this was that this fertilizer was made physiologically neutral (non-acid forming). Physiologically neutral means that it cannot leave harmful acid residue in the soil, which endangers the quality and yield of the tobacco.

We are told that acid injury has caused many growers to lose hundreds of dollars and we are sure that the farmers in this section will be glad to know that they can now get a fertilizer which is sold with the assurance that it is non-acid forming. This new type of fertilizer, which is a result of several years study by scientists, is rich and full strength, yet it never changes the pH of the soil.

This fertilizer this year is again manufactured by Swift & Company Fertilizer Works and put out under the brand names of Red Steer and Pioneer. Undoubtedly the farmers in this section will want to investigate the merits of this fertilizer when buying fertilizer this year as the fertilizer that does not subject your crop to acid injury is a safe fertilizer to use.

In addition to making a non-acid forming fertilizer Swift & Company Fertilizer Works still attach a Certificate of Quality to all fertilizers manufactured by them which assures best materials, double mixed and triple tested.
