

OAKLAND, Calif. . . . Interest in the Army "mystery plane" became intense as prolonged test flights of the radio compass robot-controlled craft indicated a 2400 mile hop to Hawaii might soon be made. Photos above show the Department of Commerce chiefs in charge of the tests. They are, left to right, Eugene Vidal, Clayton Bissell, Chester Snow and Capt. Alfred Hegenberger, Below, the "mystery plane."

Community progress is synony-nous with community effort.

Too many people regard with blase indifference all but what effects their own personal comfort and convenience and give little thought to those factors that make them possible.

When business is lagging is the time to spend more money for ad-vertising. Business men who ad-vertise feel a depression much less than those who cut down expenses by cutting down advertising.

"While the desire to ride is instinctive in every person, the auto-mobile business would not be what it is today had it not been for the tremendous glamour which has been built up around the pleasures been built up around the pleasures of ownership of a motor car through automobile shows, millions of dollars worth of ADVER-TISING, and automobiles enthusiastically presented directly to the prospect by the retail salesman," so says Roy H. Faulkner, president of the Auburn Automobile Company

The surest way to get satisfac-tory results in any undertaking is to find the best method of do-ing the job and then get busy and
