GIRLS' SUMMER FROCK

Pattern 8451—It is the wise mother who has her children's clothes well under way by the time summer arrives because one can never tell when they will be needed.
The little frock sketched is so utterly charming and gay in its simplicity that it appeals at once. The popularity of round yokes, gathers and sashes is shown in this style, so simple and easy to make, so cool and becoming and so easy to launder. The round yoke trimmed on each shoulder with gay buttons, opens on the left shoulder only. The so-called sleeves are merely little ruffles which hang free from the yoke.
A center seam in the skirt in front and back allows for a graceful flare, while a wide sash and big-bow complete the alluring feminine effect.

The newspapers of North and South Carolina have donated the space for this and a series of advertisements which will appear for the purpose of bringing facts about the Carolinas before their people, that they may be better informed as to the resources, history, and industrial importance of the Carolinas, and that they may know how they can assist in the broad movement to advantages of this favored region.

To develop our natural resources . . . to expand our markets — to build our recreational and sport areas . . . and thus increase our wealth and reduce our taxes, we must attract new capital and bring a greater number of new people to the Carolinas.

The world is waiting to know about the Carolinas . . . of our historic and scenic points of interest . . . our natural advantages and resources . . . of our all-year favorable climate for travel, for sports, for recreation, as well as for manufacturing enterprises of almost every character.

To inform a waiting world is the purpose of The Carolinas, Inc., through a co-ordinated plan of advertising and promotion of both the Carolinas . . . all of which will increase our portion of the tourist business, now estimated to be worth five billion dollars a year. This tourist business will not only bring about greater local consumption of products, and provide greater local employment, but the travelers themselves become residents, investors, manufacturers, etc.

The Carolinas, Inc., is a non-profit organization of Carolina citizens and institutions interested in the sound development of the Carolinas.
