During the past week the TIMES has received 5 votes in the Presidential Poll. Two of these are for President Roosevelt and three for Eugene Talmadge. Adding these to the votes reported last week Franklin County has cast 14 for Roosevelt and 3 for Talmadge.

First scattered national returns in "Our Next President" poll this week bring 2,640 ballots from 15 states. The Democratic vote from these 15 states total 945; the Republican vote totals 1673; and Third Party Choices total 21.

The tabulation of the distribution of the vote in the various 15 states show many inconsistencies which no doubt will "level out" as the poll gets further along. By no stretch of the imagination can these first figures be interpreted as representing the entire first week of the nation-wide balloting. Ballots of local voting from hundreds of newspapers in these and other states throughout the country, which are cooperating, had not yet been received at national headquarters in New York when these first figures were compiled. The Publishers Autocaster News Service of New York, which serves this and the other 2,000 newspapers cooperating in the poll, is compiling the national returns.

However, these first early returns from the 15 states are correct, in so far as they go, therefore they furnish some enlightening figures as pertaining to how the voters in these various states are thinking about the 1936 national conventions and elections.

One outstanding fact is early established in these first 2640 votes. That is, that there is practically no third party sentiment. They indicate most strongly that the 1936 struggle will be between the major parties, the Democratic and the Republican.

**How They Voted**  
In the Democratic ranks there is a divided opinion as pertaining to the re-nomination of President Roosevelt. However, the President is favored overwhelmingly, receiving 762 votes to a total of 184 for all other choices against him. Gov. Talmadge of Georgia, leads the Democratic opposition with 81 first choice votes; Al Smith is second with 24; Sen. Carter Glass, third with 14, and Sen. Byrd, of Virginia fourth with 11 votes.

In the Republican ranks Sen. Borah, Idaho, is the outstanding first choice favorite with 935 votes; Gov. Landon, Kas., is second with 458 votes; Knox, Ill., third with 105; former President Hoover next with 91; Lowden, Ill. 39; Vandenberg, Mich., 14; then Fish, N. Y.; Wadsworth, N. Y.; and Dickerson of Iowa.

The Michigan voting comes nearer expressing a cross-section opinion of the state, these ballots representing both large city and

smaller town sentiment. The tabulations and the breakdowns of these first returns from 15 states are most interesting and furnish much speculative fodder.

**Still Time to Vote**  
There is still time to vote in this poll. Let's all vote for our respective favorites and let voters in other states know how we stand here in North Carolina.  
The poll is a strictly non-partisan vote which does not politically commit you in any manner. It is not official, but purely a straw vote, and in nature, a direct primary vote which gives citizens a chance to indicate to party leaders which candidates are preferred and the ticket upon which they would like to see those candidates make the race in 1936.  
Again, may we suggest, that you clip, vote and mail the "Our Next President" ballot printed elsewhere, in this newspaper today.

**Winners**  
The winners at Cranford Beauty Shoppe on Wednesday, as announced by Miss Cranford, were as follows: Miss Elizabeth Fuller \$500 permanent wave, with No. 23; Mrs. D. W.
