

EPSOM SCHOOL NEWS

Published by Pupils of Epsom High School

P. T. A.
The regular meeting of the Epsom P. T. A. was held in the school auditorium Thursday night November 25. In the business meeting, the P. T. A. decided to finish paying for repairs in the cafeteria, buy a first aid kit for the school, and to finish getting the playground equipment. The fifth and sixth grade room with Miss McGinnis, as teacher, had the highest percentage of parents present.

A health program was given. Dr. Yarborough gave a most interesting talk on Health in school. Mrs. Gill gave a talk on the parents care for the child. Miss Lucy Wilson, fifth grade teacher, talked on the teacher's part in the Health of the child.

Miss Lucy Wilson, Reported. The Women's Home Demonstration Club

The women's Home Demonstration Club met last Thursday, with a great deal of the women of the community present. A very interesting subject was discussed, "Serving a Meat". Miss Weaver our club leader explained this fully to us and we found that it was the man's place at a table to do all the serving and cut all the meats.

"Cafeteria"
We are all very proud of our Cafeteria now. It looks like a restaurant and is a very enjoyable place since it has been remodeled. Instead of the long tables, which were only two, we now have small square tables with six chairs to a table. Curtains have been put up at the windows, and new linoleum put on the floor.

The Dramatic Club
The Amature Contest has begun! The program Thursday was made very interesting by three members on program. Edwin Fuller acting as radio announcer introduced a trio. The trio was composed of Mattie Leigh Dickerson, Rilla Collins, and Evelyn Ayscue. They sang "Till we meet Again." The second amature was Elaine Weldon giving a play of two characters. This was very humorous, and we all enjoyed it. The last amature was Mattie Sue Winn who gave a very good recitation. She recited "Trees" by Joyce Kilmer.

The Dramatic club members voted for Elaine Weldon as the winner.

Louise Dickie, Reporter.
O'Henry Literary Society
The O'Henry Society held its usual weekly meeting on November 22. After the society was called to order, and roll call and minutes of the last meeting was read, the following program was given:

Song, Society; Devotional, Chaplin; First Thanksgiving, Eva Pearl

Jackson; Poem, Beatrice Heading; Duet, Mattie L. Dickerson and Rilla Collins; Comparison of Thanksgiving of Long Ago and of Today, Mildred Smith; Talk, Edgar Edwards; Humors, Mary Elizabeth Smith; Giving Thanks, Lutor Mae Tutor; Song, Society. The society was then declared adjourned by the president until a further meeting.

The Sidney Lanier Society
The society held its weekly meeting November 22, with a debate being the main topic on the program. The query being: Resolved that literary societies are beneficial to high school students. The members of the society decided that the affirmative side won. Our devotional was conducted by our sponsor, Mrs. Bartholomew, who presented to us the interesting story of the talents that is explained so fully in the Bible.

Fannie P. Ayscue, Reporter.

Juniors
The Juniors had a party last Friday night at the home of Christine Eaves. Games and contests were enjoyed by all. We were served ice cream in Dixie cups and plates generously filled with fruits nuts and candies.

Last Wednesday afternoon, we were summoned to the Cafeteria for a grand surprise. There we were served with delicious candy by our grade mother, Mrs. Fuller. Reporter.

Father—Young man, I understand that you have made advances to my daughter.

Young Man—Yes, sir, I wasn't going to say anything about it, but now since you have mentioned it, I wish you could get her to pay me back. I really need it.

F. W. Von Cannon of Banner Elk, Avery County, sold 53 head of two-year-old steers, weighing 800 pounds each for 7 3/4 cents a pound to Virginig buyers last week.

The Stanly County Advisory Board, meeting recently with the farm and home agents, agreed on a farming program to be followed in the county in 1936.

A Three Days' Cough Is Your Danger Signal

No matter how many medicines you have tried for your cough, chest cold or bronchial irritation, you can get relief now with Creomulsion. Serious trouble may be brewing and you cannot afford to take a chance with anything less than Creomulsion, which goes right to the seat of the trouble to aid nature to soothe and heal the inflamed membranes as the germ-laden phlegm is loosened and expelled.

Even if other remedies have failed, don't be discouraged, your druggist is authorized to guarantee Creomulsion and to refund your money if you are not satisfied with results from the very first bottle. Get Creomulsion right now. (Adv.)

ENTERTAINS

Mrs. W. E. White Sr. delightfully entertained the members of the Young Woman's Auxiliary of the Louisburg Baptist Church at her home Thursday evening at 7:30. An appropriate program conducted by Miss Maria Perry on The Spirit of Thanksgiving was given by several members present.

After the business session was held a most enjoyable social hour

of games and contests were played after which Mesdames R. G. Bailey and H. C. Taylor Jr., received the prize in the word contest and Misses Julia Shadrack and Christine Collier in the Penny contest.

Mrs. White assisted by Misses Athlea Boone and Marie Ingram served a delicious salad with coffee to the following present:

Mesdames Gladys Bailey, H. C. Taylor, Jr., Juanita Bunn, and Misses Christine Collier, Louise

Williams, Miriam Downey, Layette Weaver, Athlea Boone, Julia and Bessie Shadrack, Beverly Shearon, Sudie Toone, Josephine House, Edith Toone, Gertrude Foster, Mary Harris Freeman, Marie Perry, Marie Ingram and Mrs. White.

A new orchard of 2,000 fruit trees has been planted by the Jackson Training School in Cabarrus County under the supervision of the farm agent.

Records kept on his poultry flock of 71 layers during the past year by John Shulenburg of Rowan County show that he made a profit above feed cost of \$8.41 a bird.

Judge—Your wife says you struck her, Uncle John. Have you any excuse to offer?

Uncle John—Ah suttinly has, Jedge, Yo' rain fo' mah crops, she was prayin' fo' fair wedder 'cause she was gwine to wash.

Our parson contends that the way people are backsliding these days the road to hell must be oiled instead of paved.

There are **No Safer Brakes Made**

than the Super-Safety Brakes on the 1936 Ford V-8

No other car in America has the same basic design as the Ford V-8. And because of its unique design—the Ford car could use any type of braking system now in common use.

BUT, with the whole field to choose from, Ford stands by mechanically-operated, Super-Safety brakes as the safest, surest, most positive for the Ford V-8.

This is the type of braking system used on many of America's costliest cars and on most racing cars. And because of its unique chassis design, Ford can use it to better effect than any other automobile built today.

Then, for the brakes themselves, Ford has provided more effective square inches of braking surface (186) than is found in any other low-priced car... And big, 12-inch alloy-iron drums with special cooling fins to give maximum braking power under all road conditions... All in all, no safer brakes are made than you get with the 1936 Ford V-8.

And right through the Ford V-8 for 1936, from bumper to bumper, the same attention to

your safety, comfort and peace-of-mind, characterizes the whole car... Ford uses a one-piece, welded-steel body because it is safer and quieter... Ford gives you Safety Glass in every window at no extra cost because Ford believes it is the manufacturer's duty to provide for maximum safety as part of the car's sales price.

Drive the Ford V-8... Notice how it "holds the road" on curves—(you never have to "fight" a Ford around turns)... Notice how dependably the brakes work on rough roads—on steep hills—or anywhere else. You can arrange to do this easily by calling:

Your Ford Dealer

\$510 AND UP, F. O. B. DETROIT—Standard Accessory group including bumpers and spare tire extra. Easy terms through Universal Credit Company, the Authorized Ford Finance Plan.

FORD PERMANENT WHEELBASE

Radius rods [1] brace the front axle like a pair of giant arms. Radius rods and Torque-tube [2] give triple bracing to the rear axle. This means that the front and rear axles of a Ford car are always held equi-distant—in perfect alignment. On this permanent wheelbase any braking system now in common use could be used. Only with this Ford-type wheelbase, can mechanical, Super-Safety brakes be used to the fullest advantage.

FORD USES 4 INDEPENDENT BRAKE RODS

Four brake rods [3] of strong, tempered steel link the pressure of your foot on the pedal with the four big brake-drums on the wheels. They do this positively, surely, under all road conditions. Note especially that no one Ford brake has to depend on the other three. Failure of one—practically impossible—would leave three perfectly-operating brakes. Tear out this chart and check it with the car you are driving now.

Here Is True FARMALL POWER

reduced in size, weight, and capacity to take over the power problems on tens of thousands of small farms, and to serve as an auxiliary tractor on larger farms.

FARMALLS Now in 3 Sizes—a Size for Every Farm.

THE tremendous success of the McCormick-Deering Farmall tractors naturally created a demand for the same efficient Farmall power in a smaller size. International Harvester engineers have produced such a tractor.

The new McCormick-Deering Farmall 12 is the result. It has surprising power for its size. Weighing a little over a ton, it displaces four or more horses in field work. It handles all the operations in growing and harvesting all crops. Pulls a 16-inch plow bottom or two 10-inch bottoms. It is an ideal tractor for planting and cultivating corn, cotton, etc., the capacity on these operations being 25 to 33 acres a day. Wheels are adjustable to a wide range of row spacing. The Farmall 12 is ready to middle bust, handle haying operations, pull tractor binder and corn picker, cut ensilage, grind feed, etc. Like every other Farmall, the Farmall 12 is a true all-purpose tractor.

Ask us for full details as to specifications, equipment, etc.

All-Steel Hoppers on M'CORMICK-DEERING Grain Drills Make Them Better Than Ever

NOW you can get all-steel hoppers on McCormick-Deering plain grain drills. This new feature combines with the steel, bridge-type main frame to hold the feeding mechanism in proper alignment, assuring unusual drilling accuracy and long drill life. These hoppers of rust-resisting, heavy-gauge steel containing copper will not sag, warp, split, or rot.

The divided hopper lids are water tight and grain tight. A one-piece steel hinge extends the full length of the lid. Spring locks hold the lid wide open or tightly shut. The lids provide a grain-tight surface against which the seed can be poured without spilling on the ground.

The fluted force feed and double-run feed have been improved also, and roller bearings in the fully enclosed end axle boxes provide light draft.

●We can supply your drill needs, whatever they may be, from the complete McCormick-Deering line. Stop in and see us the next time you are passing.

The New Farmall 20 Tractor Is Ready Now

McCormick-Deering

HERE we are with the New McCormick-Deering Farmall 20 Tractor. This model has practically the same physical dimensions as the regular Farmall—but it has a good 10 per cent more power, 4 forward speeds, enclosed steering gears, and enclosed steering brakes.

The advantages of the additional power and extra speeds which make the Farmall 20 more flexible are appreciated when it comes to pulling 2 plow bottoms and the heavier tillage tools in tough going, operating 4-row cultivators, 2-row Farmall corn pickers, 2-row potato diggers, and all drawbar, belt, and power take-off jobs. Farmall 20 speeds are 2 1/2, 2 3/4, 3 1/4, and 3 3/4 miles per hour.

You will admire the Farmall 20 when you see it at work. It has all the features that have made the regular Farmall famous. Ask us about it now.
