Avoid the Christmas rush by doing your shopping early.
Cotton was worth 12 3-8 cents on the Louisburg Market yesterday.

BIBLE SUNDAY ENDORSED BY GOV. ERNOR EHRINGHAUS

Raleigh, December 2.—Governor John C. B. Ehringhaus urges the churches of North Carolina to observe Universal Bible Sunday on next Sunday, December 8.
The nation-wide commemoration of the four hundredth anniversary of the printed English Bible will conclude next Sunday in thousands of churches, according to a statement issued by the American Bible Society, under whose direction Universal Bible Sunday is promoted and through whose missionary activities the Bible is distributed annually in more than forty countries and in over 150 languages.

SUGGESTIONS FOR PLANTING PECANS

Pecan trees may be set out in the coastal plain and Piedmont section of the State anytime from late November until time for growth to start in the spring.
But where winters are more severe, the best transplanting time is early in the spring, said Robert Schmidt, associate horticulturist of the N. C. Agricultural Experiment Station.
Pecans thrive on a great variety of soils: heavy clay soil, light sandy land, river bottoms that are well drained, but they will not do well on soil underlain with quicksand or hardpan, or on land that does not have good drainage.
Schley, Stuart, Success, Pabst, and Alley are good varieties for the coastal plains. Stuart is best for the lower Piedmont, and Indiana and Büsseron are good for the upper Piedmont and mountain areas of the State, Schmidt said.
The roots of trees for planting should be well wrapped or plunged into a barrel of water while waiting to be set out, as this keeps them from drying out.
The trees should be spaced 60 feet apart each way, with 12 trees to the acre. The holes should be about 2 1/2 feet deep and 2 feet wide; large enough to accommodate the tap root.
Only good topsoil should be used to fill the holes. Pack it firmly around the roots. Be careful however, not to set the trees more than an inch or two deeper than they grew in the nursery.
The trees should be cultivated as a crop and it is advantageous to grow farm or garden crops between the rows of trees, but not too close to the trees.
Apply from 1 1/2 to 2 pounds of 4-8-4 fertilizer to each tree just before growth starts in the spring.
Boys and girls who are members of the Iredell 4-H clubs have been given health examinations by two registered nurses and will be examined again at the close of their club work next year.
Hundreds of mowing machines with seed pans attached have been moving across Stanly County lespezoza fields during the past two weeks as the growers harvest the annual seed crop.

THE SAFEST cleaning method is to send it out!

The pennies saved by trying to clean apparel and other fabrics at home, count for little against the risk taken with life and property.
Our cleaning rates for men's and women's apparel, rugs, drapes, etc., are very low. Men's suits, Women's dresses, cleaned and pressed—Phone, 323-1.

Model Wife—I must go now, honey. That artist is waiting for me to pose.
Hubby—All right, dear, but remember—no posing in the nude; Remember.
Model Wife—All right, dear. I'll put a string around my finger.

Mrs. Dumleigh—Tom, I didn't know they had electric refrigerators in the banks.
Tom—They don't. Where did you get the idea?
Mrs. Dumleigh—Well, then how do they get those frozen assets that the bankers are always talking about?

When you speak of the average woman in the presence of a lady, we hope for your own good she takes it for granted you mean somebody else.

Clerk Superior Court Franklin County, North Carolina

How Calotabs Help Nature To Throw Off a Bad Cold

Millions have found in Calotabs a most valuable aid in the treatment of colds. They take one or two tablets the first night and repeat the third or fifth night if needed.
How do Calotabs help Nature throw off a cold? First, Calotabs is one of the most thorough and dependable of all intestinal eliminators, thus cleansing the intestinal tract of the germ-laden mucus and toxins.
Second, Calotabs are diuretic to the kidneys, promoting the elimination of cold poisons from the system. Thus Calotabs serve the double purpose of a purgative and diuretic, both of which are needed in the treatment of colds.
Calotabs are quite economical; only twenty-five cents for the family package, ten cents for the trial package. (Adv.)
