

EPSOM SCHOOL NEWS

Published by Pupils of Epsom High School

Glee Club

Epsom is very proud of its Glee Club, under the capable and untiring leadership of Miss Kimball. The Epsom singers won 3rd place over a large number of contestants from the other high schools in Franklin County last Tuesday evening. In addition to singing well, our group made a splendid stage appearance of which we are justly proud also.

The best part of it all is that Epsom is still ahead all the number of points toward the League cup, and we are going to stay there. This year we are determined that it shall become ours.

Monograms Presented

Excitement ran high among the high school students. Every one was anxious to know who would be the six girls and six boys fortunate enough to receive the twelve monograms presented by the Athletic Association.

The climax came last Wednesday morning, at the chapel period when Mr. Crawley presented the monograms to the following: Mattie Leigh Dickerson, Evelyn Ayscue, Emma Lou Grissom, Salie Lou Thompson, Wilma Overton and Grace Thompson. Perry Lee Ayscue, Claud Dickerson,

Tom Roberts, Franklin Roberts, Edgar Edwards and George Eaves. The monograms are of old English design, white on a background of navy blue. They are very beautiful and the twelve people owning them are to be congratulated for their loyalty, ability, and leadership in the field of athletics.

Beta Club Convention

Two of our Epsom Beta Club members attended the first convention of the N. C. Beta Clubs held in Raleigh, April 3-4th. Due to the senior play our delegates who were Mattie Leigh Dickerson and Evelyn Ayscue, were unable to attend the Friday night session. However, on Saturday morning they joined the Beta group at the Sir Walter Hotel and were conducted on a sight-seeing trip in and around Raleigh. Many points of interest were visited including the various colleges, insane asylum, and the state museum. There was a period of three hours or more when each person could do as he or she pleased. Some attended shows and others remained in the hotel. In the afternoon a business session was held for the purpose of electing state officers and bringing forth new resolutions. The meeting was adjourned until 8:15 p. m. when everyone met in the ball room of the hotel for a banquet. Talks were given by the new officers and a lecture was rendered by Dr. Potest. Mr. Carl Goerch acted as master of cere-

monies. After the banquet a dance was held for the members which was enjoyed very much.

Senior Play

In spite of the cold weather and the intensity that everybody wanted to know what was going to be the climax of the Hauptmann case, the senior play, "Sis Perkins" was a great success. It was greatly enjoyed by all present.

The Gattler

The 8th grade Civics class has had county government as its project during the past week. We have learned many interesting facts about our county, including its shape, townships and their location, as well as the various officers.

"Watch your grammar" is the slogan now being heard in the freshmen English class. "Literature and Life" study for the year is now completed and we are leaving it with regret.

The seniors are now absorbed in the selection of their Class Day exercises and at present, are planning to give "Pirates of Gold." Next the question of clothes will consume a great deal of their time until commencement.

Long drawn faces of the junior class last week when they received their report cards showed that they need to do more work, especially in French. So, down to work on Francais must we go!

PNEUMONIA CURE?

Chicago, April 5.—"Shots" of alcohol were offered to the world's physicians today as a possible cure for pneumonia.

The unusual treatment, still in the experimental stage, was described in the Journal of the American Medical Association in a translation of an article from the Indian Medical Gazette, of Calcutta.

The alcohol, mixed as a 20 to 33 per cent solution in sodium chloride, is injected into the veins like any other intravenous "shot in the arm." Dr. I. Bakhiah and Dr. A. T. Andreassen, who developed the technique, explained.

Their results the two doctors described thus:

"Within an hour of the injection there was sufficient decrease in the intensity of the pain in the chest to allow the patient to sleep comfortably. It had completely disappeared within forty-eight to seventy-two hours after the first injection.

"Arrest of the process of consolidation in cases treated from the start of the disease was remarkable. The congestive stage gradually regressed, so that by the time the crisis occurred, the involved lobe was almost free from any signs of pneumonia."

'ROAD GANG'

"Road Gang," the First National production scheduled as the feature attraction at the Louisburg Theatre on Tuesday, April 14th, is a revelation of the terrible conditions existing in a penal institution run by crooked officials for the graft they get out of it.

It is said to carry all the dynamic force of "I Am a Fugitive from a Chain Gang" and the rugged picturesqueness of "Black Fury." The picture is one of stark realism, set in two locales; the first the prison farm with its torture rooms, where human beings are subjected to medieval persecution with the whipping post and barrel hangings; the second in the Blackfoot mines, where recalcitrant convicts are sent, to remain until they come out in a pine box.

THANKS

I wish to extend my deepest thanks and appreciations to all those who rendered so many kindnesses and sympathy during the recent illness and death of my husband. They will be long and tenderly remembered.

MRS. W. T. PERRY.

Katherine, the big blonde waitress, was so dumb that when the gentleman asked for "lean chops" she asked him "which way?"

NEUTRAL FERTILIZERS

"If non-acid fertilizers are to be produced, it is suggested that the neutralizing agent be dolomitic limestone as this material not only neutralizes but carries magnesia and calcium which are important plant nutrients."

The above was taken from Agronomy Information Circular No. 95, Tobacco Fertilizer Recommendations for 1936.

April 6th, 1936. Norfolk, Va., April 6th, 1936.

Mr. D. F. McKinne, President Seaboard Store Co., Inc., Louisburg, N. C.

Dear Dave:

Replying to yours of April 4th, will say that you are correct. We use dolomitic lime filler in all of our cotton and tobacco fertilizer unless otherwise requested. This material contains a very high content of magnesium and calcium, and is especially recommended for your section.

Trusting that this will answer your purpose, I am,

Yours very truly,

W. B. MANN, President, Reliance Fertilizer & Lime Co.
