Designed in Sizes: 12, 14, 16, 18, 20, 30, 32, 34, 36, 38, 40 and 42. Size 14 requires 3 1/2 yards of 39 inch material, plus 1/4 yard of contrasting for belt and scarf.

Pattern 8743: From snappy notched collar to peppy action pleat, there is a "going places to do things" look about this smart sports frock. Complete in detail even to the ascot scarf. An ensemble of this type has many variations through use of different contrasts in scarf, belt and gloves.

This shirt-waist frock (with a hint of the polo shirt) will become most any one. It has the new tailored effect without losing any feminine charm or gracefulness of lines. If you go in for active sports you'll like the unhindering pleated sleeves and the inverted center pleat for lots of knee-action. The appropriate side pocket adds interest. We suggest sports silk, pique, jersey seersucker or gingham as possible materials.

For PATTERN, send 15 cents in coin (for each pattern desired), your NAME, ADDRESS, STYLE NUMBER and BILL to Patricia Dow, The Franklin Times, Pattern Dept., 115 Fifth Avenue, Brooklyn, N. Y.

The largest crowd ever to gather at Dobson at one time was the group of over 1,500 Surry County citizens who gathered recently to hear Dean I. O. Schaub discuss the new soil conservation program.

Mileage Hints

A NATION-WIDE movement to foster highway safety is now under way. The National Safety Council just recently announced the inauguration of a five-year campaign to reduce highway accidents. The Automobile Manufacturers Association, the leading trade body of the industry, has also opened a comprehensive safety campaign. The large oil companies are continuing their safety activities. Throughout the country local groups are busy promoting safety. All these things will do much good. But in the final analysis, accidents will be reduced only through the cooperation of individual motorists. Not only do you owe it to yourself to drive carefully for selfish purposes, but every person who drives an automobile should appoint himself a committee of one to aid in this great national movement. Operators of trucking fleets are doing their share through the education and close supervision of their drivers. In most fleets drastic measures are taken with men having avoidable accidents, such as perhaps often resulting in termination of service. Many fleets, despite operation of heavy equipment under all conditions, have better safety records than individual drivers. You know the rules for safe driving. "Always be careful," sums up the whole thing. Get behind this campaign, and do your part to reduce accidents.

Many people think that everything in the Congressional Record is a joke—but that's going too far. However, now and then that sober journal does print a joke.

Twenty-five hog feeding demonstrations have been planned by swine growers of Beaufort County for this season.

It's our family's whiskey, neighbor—and neighbor, it's your price!

Dad told us boys loading here—

"We got something in this Family's Recipe of ours no other distilling family has got. It's up to us to keep every bottle right up to scratch."
Harry E. Wilken, Sr.

Our Family's Whiskey—
personally, we've supervised the making of millions of gallons!

It's just like Dad said—there isn't but one Wilken Family Recipe, and being as we're the only family that can make it, it's up to us to keep that quality set, like our lives depended on it. And you can just stake all you got on us doing that very thing. We're personally supervising the making of millions of gallons. We're seeing the quality of our Family's Whiskey stays put, if it's the last thing we do.

Finding the automobile tank half full of gas after the wife has been out on a roadside shopping tour is as soothing as a tooth that has quit aching.

Small Boy—Daddy was run in to by an automobile and he wants to know if you'll let him have groceries on credit?

Grocer—Has he got a good lawyer?

Tourist (to native)—What do you think about the weather.

Native—Well, sir, I've thought about it for 40 years and I have come to the conclusion that its changeable.

Doctor (after examination)—My dear chap, I'm glad you came to me when you did.

Patient—Why, doc? Are you broke?

The honeymoon is over, opines Dave Somers, when the husband no longer is half an hour ahead of time for a downtown appointment with his bride, and the wife is more than half an hour late.

The TVA superphosphate applied to pastures and meadows in Graham County last year is beginning to show results, say demonstration farmers who made the applications.
