

### Great Lakes Exposition

Great Lakes Exposition, Aug. 31.—With a total attendance of over two million visitors, the Great Lakes Exposition has started on the last half of the hundred days of its existence. Daily attendance figures at the great 150-acre Exposition are still climbing and are now averaging more than 42,000 every twenty-four hours. That the Exposition will surpass its original estimate of an attendance of four million is assured.

No two days at the Exposition are ever the same since there has been arranged an ever-changing series of special days for the entire 100 days of the Exposition's life. For example, August 29 is Firestone Day, when officials and employees of the Firestone Tire & Rubber Company will attend the Exposition from plants, branches and offices all over the Great Lakes area. August 30 is German Day, August 31 to September 7 is Florida Week, when Governor Dave Sholtz and other Florida State officials with a large delegation of visitors will visit the grounds. September 1 is Army and Navy Day, and on September 3 the entire cast of Radio-land, admission to which is free.

The Florida State Exhibit, which occupies a commanding position on a beautifully landscaped knoll on the Exposition grounds, represents an expenditure of a quarter of a million dollars. It centers about a beautiful Georgian-Colonial mansion house, with stately white pillars rising the two stories of its front elevation. Fifteen carloads of Florida plant life create a sub-tropical atmosphere, and its arborescent walks, citrus trees with fruit hanging from their branches, palms, murals, sculptured dioramas and panoramas, a staff of soft-spoken guides and Negro servants convey an accurate impression of the Southern playground of the Nation.

During Florida Week a special attraction will be offered at the exhibit when Leota Cordadi Coburn, operatic soprano of the Chicago Opera Company, will appear in daily recitals.

Many other features of free entertainment are offered to the visitors to the great show on Cleveland's lake front. The main entrance of the Exposition is within easy walking distance, two blocks of Public Square, in the heart of downtown Cleveland.

#### CIVIL SERVICE EXAMINATIONS

The United States Civil Service Commission has announced open competitive examinations as follows:

- Director of education, \$6,500 a year, Bureau of Indian Affairs.
  - Aeronautical engineers, various grades, \$2,600 to \$4,600 a year.
  - Agricultural aids, various grades, \$1,260 to \$2,000 a year, Soil Conservation Service.
  - Public health nursing consultants, various grades, \$2,600 to \$4,600 a year, and public health nursing assistant, \$2,000 a year.
- Full information may be obtained from J. A. Wheless, Secretary of the U. S. Civil Service Board of Examiners, at the post office in this city.

When your wife says, "I did not like the way you acted, last night," you can save a lot of argument by promptly admitting the fairness of her criticism.

### Old World Dancers at Great Lakes Exposition

Here is a quartet of attractive Hungarian girls who perform one of their native dances in their native village in the Streets of the World at the Great Lakes Exposition at Cleveland. The Streets of the World contains 196 separate structures housing thirty-six different nationality groups.

#### From Ingleside

Misses Emma, Mattie and Annie Lancaster, former residents of Franklin County, have returned to their home in Raleigh from visiting relatives and friends near Ingleside.

Mrs. Elba Tucker and Miss Kattie Foster, of Louisburg, were Sunday guests of Miss Laura Macon.

Mr. John H. Lancaster, while repairing the roof to his strip room, Monday of last week, fell to the ground and sustained a bad fracture of his right arm at the wrist.

The Raleigh Times looking backward column of 50 years ago stated: "Miss Rosa Harris has been elected principal of the Louisburg Female Academy for the new season."

During the recent electric storm two trees were struck in the yard of Mr. Charlie Catlett. Fox hunters report having seen many trees in a nearby area struck by lightning in the same storm. There was a heavy rain fall but little or no damage to crops as the wind was less severe.

The last work of hardsurfacing Highway 59 from Ingleside to Warrenton was finished last week. This is considered one of the best roads in this part of the country—one to be justly proud of on the part of all. No doubt but that traffic will be greatly increased over this highway now, as it will be a practical saving in distance from some points north

of us  
Mr. S. E. Wilson lost a fine young bird dog, killed by a car a short time ago.

Friends of Mr. A. W. Wilson will be pleased to know that he continues to improve from his late illness, having been able to ride around for some time.

Miss Lillian Young, of Louisburg, has returned from visiting her aunt, Mrs. I. M. Inasco, who has been sick the past two weeks.

Mrs. J. A. Ayscue, who was thought to be critically ill Sunday was reported better today, her friends will be glad to hear. Mrs. Ayscue was in a serious automobile wreck a few months ago, sustaining injuries which entailed much suffering.

Miss Lucille Foster, who spent the summer here with Miss Laura Macon, left Wednesday for a visit to her parents, Mr. and Mrs. N. D. Foster, in Matthews County, Va.

#### Union Meeting

The Franklin County Union meeting met with Poplar Springs church on Saturday, August 29. Mr. T. H. Sledge, moderator, had charge. The topic for discussion was "The New Testament Church." The following members discussed different phases of the work of the New Testament Church: Mr. T. H. Sledge, Rev. C. B. Howard, and Rev. C. E. Crawford. It was an unusual treat to have Dr. W. L. Poteat of Wake Forest discuss "The New

### "HEARTS IN BONDAGE"

Safety precautions are one of the most important responsibilities of the prop man in making a motion picture.

This is particularly true in a picture using big cannon such as the twenty mammoth old guns seen on the Monitor and Merrimac in "Hearts in Bondage." Republic's stirring Civil War romance currently presenting James Dunn, David Manners, Mae Clarke, Charlotte Henry, Frits Leibler, and other stars at the Louisburg Theatre, Sunday, September 6th.

### Timely Farm Questions

Answered at State College

QUESTION: What is a full ration for a dairy cow?

ANSWER: A full ration means feeding to each cow enough feed to produce the greatest amount of milk economically. To determine the proper amount of grain, give the animal all the roughage, including hay and silage she will eat. Then weigh the grain ration being fed at that time together with the milk produced. Gradually increase the grain ration and check the production. If there is an increase in milk production up to 15 pounds of grain it shows that the animal was not getting enough and the increased feed should be continued. On the other hand, if the increase is not satisfactory, then the grain feed should be reduced to the original amount.

QUESTION: How should I prepare my soil for seeding crimson clover on a tobacco field?

ANSWER: All stalks should be cut and the land or ridges leveled with a disc harrow. Be sure that the soil is inoculated for growing the crop. If not already inoculated, bacteria should be supplied before the crop is seeded. This may be done by mixing the seed with from two to three hundred pounds of soil from a field known to be inoculated or by the use of a good commercial culture. If the commercial culture is used follow the directions carefully. Where soil from another field is used the seed should be sown with a grain drill.

QUESTION: When should the grain ration be fed to the poultry flock?

ANSWER: Higher egg production is secured by feeding only a small amount of grain in the morning and the remainder at night. The morning feed should be in clean litter about four to six inches deep. There is a growing tendency among poultrymen to make the afternoon feeding in troughs and this is a good practice, especially where infectious

diseases or internal parasites are present. A flock of 100 hens will ordinarily consume from 10 to 12 pounds of grain a day and, of this amount, one pound is sufficient for the morning feeding with the remainder being fed late in the afternoon.

The little mistakes are the nastiest.
