LOUISBURG MARKET HOLD-ING TOP

This a Three Day Average Louisburg Market-Many High Individual Averages Up To \$40-Sales Light

With an average of above twenty-seven cents a pound for three days sales of the entire market the past week Louisburg climbed to the top of the States' markets in complete sales averages.

The sales have been reasonably light the past week, but many high individual averages have been made, these ranging largely around 38 and 40 cents.

Buying has been lively with buyers anxious for all grades. The only grades that are not bringing high prices seem to be the green tips and many think they are bringing about all they are worth.

Each of the three houses are on full time now, inviting tobacco growers to come in and sell with them and get advantage of Louis-burg's advantageous position. Louisburg officers advantageous position. Louisburg citizens join in extending a hearty welcome to our

town and markets. Your attention is directed to Your attention is directed to the advertisement of the South-side Warehouse in this issue side Warehouse in this issue.

U.S. WARNS JAPAN Send Second Message In Three

Days - To Hold Japan Liable.

Washington, Sept. 22 .- Longstifled resentment here over Japanese aerial attacks at Nanking flared into the open today with the dispatch of a vigorous note warning the Tokyo government that it would be held to account for any damage suffered by American nationals. At almost the very hour that

Japanese bombing planes were dropping their missles on the civilian population of the Chinese capital, American Ambassador Joseph C. Grew was delivering the pro-test to the Japanese Foreign Minister, Koki Hirota, The representations, which ex-pressed "the earnest hope" that

further bombing of the city will be avoided, marked the second time in three days that the United States has pointed an admonitory finger at Japan for the conduct of its undeclared war against China.

Characterizing as "unwarranted and contrary to principles of law and of humanity" any general bombing of an area in which a large civilian population resides. the American note warned Japan that this government reserves "all rights on its own behalf and on behalf of American nationals in respect to damages which might result from Japanses military operations in the Nanking area." **Recent Warning**

was

01

The Japanese naval commander's warning that foreign diplomats would be in peril if they stayed in Nanking evoked a strong reply. In effect, Japan was bluntly told that she has no right to dictate the movements of American officials.

"The American government objects both to such jeopardizing of the lives of its nationals and of noncombatants generally and to the suggestion that its officials and nationals now residing in and around Nanking should withdraw. from the area in which they are lawfully carrying on their legiti-mate activities," the note said.

Thus was formally made public the bitter resentment felt here since the commander-in-chief_of the Japanese third fleet at Shanghai handed his warning to the American consul general there on September 19.

Seaboard Store-Company Giving Away Circus Tickets

The second of the point of the basis of t a Special Courtesy Guest Ticket to the Big Show Wednesday, Sept. We should not be afraid of criti-cism but we are often like the old negro. One day some one called him a fool and he got mad and proved he was."
