GRIFFIN **SPEAKS TO KIWANIANS**

It has been the custom of the Louisburg Kiwanis Club for the past three years to award a Silver loying cup to the best all-round Kiwanian for that year. The cup has the name of the Kiwanian engraved on it and is kept in his possission for the entire ensuring year. This custom was started in the year of 1935 and was given to Mr. E. R. Allen for the best Kiwanian for that year. The honor was bestowed upon President Gaither M. Beam for being the best Kiwanian during the year of 1936 for which he has been the proud possessor for the year of

On Tuesday evening at the regular weekly luncheon, a secret ballob was cast of the members and Kiwanian Paul Elam was elected as the best all-round member for the year 1937. In view of Mr. Elam's absence on Tuesday evening the cup will be awarded at a later date.

After Dr. H. G. Perry and Mr. W. C. Stroud gave a report on the eye clinic, the program was turned over to Kiwanian E. F. Griffin who introduced Hon. Lloyd Griffin of Raleigh, Secretary of the State School Commission who addressed the members on the Topic of "North Carolina and its

Hon, Griffin traced the school situation from 1885 till now, with all its ups and downs.

"From 1885 to 1907 the schools were financed by ad valorem tax." stated Hon. Griffin. "This tax was 66 2-3 per cent on one hundred dollars valuation. This created many private schools through the country. In 1907 a building program was put on only later for people to awake to the fact that the indebtedness was around a half million dollars. In 1929 the general assembly appropriated a 6 1/2 million dollar program for

the school.' "The state has two funds-the highway and general-the roads are kept up out of the former and the remaining expenses out of the latter, including schools," he also stated. "Last year the state appropriation for schools was around twenty-four and a half million dollars from which Franklin County received around \$190,-000-\$33,000 for Franklinton school and remainder for county. This year the county will receive over \$200,000."

Hon. Griffin concluded his address by this remark. "that the members of the Kiwanis Club not only make leaders in the club and community but among the State and National affairs and do not forget the schools."

With the usual formal closing a most enjoyable luncheon was

State Cotton **Brings Premium**

Raleigh, Dec. 1.—Eighty-five per cent of the cotton ginned in North Carolina to date is running 15-16 or longer in staple and as such should demand a premium, according to M. G. Mann, general manager of the North Carolina Cotton Growers Cooperative Association, who stressed the importance of farmers having their cotton graded by government-license classers before offering it for sale.

Mr. Mann said that premiums on cotton being handled through the Association are ranging as high as \$15 a bale, and he pointed out that by marketing their cotton in such a way as to get the full grade and staple premium North Carolina farmers can put an additional three million dollars in their pockets.

Mr. Mann reported that deliveries to the Association are running well over three times as much as they did during the corresponding period a year ago. Not only do farmers like to get their loan through an agency that will protect them from any comeback in case the cotton is taken over by the Commodity Credit Corporation, he said, adding that the Cotton Association absolutely stands back of its grades and will protect the farmer from any

come-back whatsoever. Records submitted by Greene and unty 4-H Club boys indicate that one member produced 117 s one member produced 117.8 bushels of corn on his acre, and increase of 11.7 bushels over the winning yield last year.
