### WILLIAM SHAKESPEARE

#### Shakespeare Had A Shot-Gun Wedding

No one paid much attention to him while he lived. A hundred years after his death his name was still practically unknown. Yet since that time millions of words have been written about him; he has aroused more comment than any other writer who ever sharpened his wisdom teeth on a goose-quill pen; and thousands of people, every year, make pilgrimage to the place where he was born.

I, for one, was there in 1921. I used to wander cross-country from Stratford to Slattery—treading the fields swept by his

William Shakespeare of Stratford-on-Avon wrote Shakespeare's plays. And he answered that we are as certain of that as we are that Lincoln spoke at Gettysburg. Yet many people claim that Shakespeare didn't even exist, and dozens of books have been written to prove that his plays were really the work of Sir Francis Bacon, or the Earl of Oxford.

Girl—Does my gown look as though it were falling off my shoulders.  
Man—No. Let's dance!  
Girl—I'm sorry, but I must go and rearrange it. It is supposed to look that way.

Soil tests made by D. D. Fields of Walsenburg, Greene County, revealed that his land did not need lime for tobacco but did need it in liberal amounts for corn, oats, soybeans and peas.

### Beware Coughs from common colds That Hang On

No matter how many medicines you have tried for your cough, chest cold, or bronchial irritation, you can get relief now with Creomulsion. Serious trouble may be brewing and you cannot afford to take a chance with any remedy less potent than Creomulsion, which goes right to the seat of the trouble and aids nature to soothe and heal the inflamed mucous membranes and to loosen and expel the germ-laden phlegm. Even if other remedies have failed, don't be discouraged, try Creomulsion. Your druggist is authorized to refund your money if you are not thoroughly satisfied with the benefits obtained from the very first bottle. Creomulsion is one word—not two, and it has no hyphen in it. Ask for it plainly, see that the name on the bottle is Creomulsion, and you'll get the genuine product and the relief you want. (Adv.)

### PERRY'S P. T. A. MEETS

The P. T. A. of Perry's School, colored, held its regular bimonthly meeting Monday night, February 14, 1938 in the school building. The meeting was called to order by a few brief remarks of the part of the president, O. P. Perry. As an opening song, the group sang "America". Prayer was offered by Rev. O. B. Williams followed by a spiritual, "Steal Away".

The theme of this meeting was "School Discipline". Many interesting remarks were made by the parents, stating their part in the discipline of the school. It was pointed out that the job of disciplining school children was too enormous for the parents to leave it for the school alone, but they must also help, and have the school to feel that it has their cooperation in whatever is done for the betterment of the school and community. The principal and teachers asked for true and whole-hearted cooperation on the part of the parents in trying to make the school a place, not only where intellectual development is made, but also a place where principles of christianity, character and citizenship are established.

The principal reminded the parents of the necessity of keeping up a good attendance, especially beginning with the seventh month of the school year, so that the children will have the benefit of an eight month school term. He explained to them the statutory law which provides for an additional two months of school supported by the state, provided that during this period the attendance for any one week does not fall below 60% of the average attendance maintained the first six months of the school term. A number of parents stated their cooperation relative to the attendance problem.

Delicious refreshments, carrying out the Valetine color scheme, were served.

## HUMAN MACHINE

### DO YOU KNOW

1. THAT — there are 208 distinct bones and 502 voluntary muscles, each with a name, in the Human Body?
2. THAT — by the combined action of muscles and bones, the human body is capable of more than 1200 motions?
3. THAT — the Heart (engine pump) beats in health between 70 to 80 times per minute?
4. THAT — each drop of blood circulates through the entire body, in normal vigor, in about 2 to 3 minutes, doing mechanical work equivalent to lifting 300 tons every 24 hours? And makes a trip equivalent to 168 miles daily?
5. THAT — in their pathways and in partnership with the brain, there are over 10,000,000 lines to supply the telegraphic system of nerves?

(Facts from article in "Health Aristocrat"—quoted by Science Sidlights in Chiropractic Journal for January).

Normally, the first four above activities are stimulated and regulated by the functioning of the fifth or No. 5.

"The BASIC PRINCIPLE of CHIROPRACTIC is: that normal transmission and expression of vital energy is necessary to health.

CHIROPRACTIC is the science of locating and correcting interference with nerve transmission and expression, without the use of drugs or major surgery."

How is your "MACHINE"? Let a CHIROPRACTOR be your body's "Mechanic".

### HELP KIDNEYS

To Get Rid of Acid and Poisonous Waste

Your kidneys help to keep you well by constantly filtering waste matter from the blood. If your kidneys get functionally disordered, there may be removal of excess impurities, there may be poisoning of the whole system and body-wide distress.

Burning, scanty or too frequent urination may be a warning of some kidney or bladder disturbance.

You may suffer nagging backache, persistent headache, attacks of dizziness, rising up nights, swelling, puffiness under the eyes—feel weak, nervous, or slayed out.

In such cases it is better to rely on a medicine that has won country-wide acclaim than on something less favorably known. Use Doan's Pills. A multi-look of grateful people recommends Doan's. Ask your neighbor!
