Entered at the Postoffice at Louisburg, N. C. as second class mail matter.

President Roosevelt has removed Chairman Morgan of the TVA Administration and advanced Harcourt Morgan, a member of the Administration to the Chairmanship.

**WILD LIFE PRESERVATION BRINGS ON SERIOUS CONSIDERATION**

In some respects the organization of the Franklin County Gun-Club will no doubt be of much good to Franklin County, and in other respects will no doubt be unwholesome and unwelcome. The killing off of such birds as crows and vultures and we assume, ridding the County of stray dogs and cats may be a great advantage, we don't know. It hasn't been long ago since there was a law providing a fine for killing a vulture. Anyway many were killed last fall and we have heard right much complaint at the carcasses being left exposed making a possibility of scattering licease besides the unpleasant odors. If its proper to require the burying of dogs, cats, chickens, etc., that are killed then why shouldn't it be also required with birds of the larger variety. Another objection will be the promiscuous trespassing and shooting on property, which can result in damage to fences, crops and stock, and in some cases humans, as the guns used are in many cases very high powered. This question should be given consideration from more angles than just sportsmanship and riddance of some objectionable birds.

**BUILD UP THE NAVY**

It is somewhat difficult for the ordinary citizen to follow the reasoning of the good folk who are opposed to building up the American Navy to a size where we can adequately protect both the Atlantic and Pacific coasts against any possible attack by a foreign nation.

The notion that if we had such a big navy we would immediately set out to conquer the whole world seems silly, but that is the inference behind the talk of those who fear the Navy might be used for "aggression."

In a world in which other nations are not only building bigger navies than ever, but are shaking their fists at each other and, some of them, in our direction, it seems only common sense to build up our defenses to the point where such threats cannot alarm us. As matters stand today, our Navy is big enough to protect either the Atlantic Coast or the Pacific Coast against any attack which might be made upon us, but it is not adequate to protect both coasts at once.

True, there is the Panama Canal, through which the fleet can be moved from one coast to the other in a matter of three or four weeks—provided nothing happens to block the canal. But the canal can be blocked, effectively, by the simple process of sinking an innocent-looking merchant ship crosswise, and in the event of war who is to say that no enemy power would stoop to such a trick?

In these days of enormous Government expenditures, the cost of a greater Navy than any two powers could mass against us is a mere trifle. We have, in America, something very precious to be defended; not only our territory and its resources but the spirit of liberty itself which is under attack in a great part of the world. It is up to us to keep that alive and secure, and we can only do that by being ready to fight for it.

Once in a while there comes along a Motion Picture that every Critics endorse that every Parent-Teacher Association and Woman's Club heartily endorse and recommend for the entire family.

More seldom indeed does a Picture pack all the entertainment necessary for Junior or Grandmother to leave the Theatre saying "It's a Grand Picture." Such a show is

**"The Adventures of Tom Sawyer"**

Starring Tommy Kelly, May Robson and a supporting cast of favorites. And filmed entirely in the New Technicolor.

Mark Twain's beloved story has been given the best production possible by David O. Selznick, producer of "David Copperfield" and "A Star is Born" and it is with whole-hearted assurance of a great show that we endorse for you and your family, "The Adventures of Tom Sawyer."

THE MANAGEMENT OF THE LOUISBURG THEATRE.

**Don't put up with useless PAIN**

Get rid of it When functional pains of menstruation are severe, take CARDUI. If it doesn't benefit you, consult a physician. Don't neglect such pains. They depress the tone of the nerves, cause sleeplessness, loss of appetite, wear out your resistance. Get a bottle of Cardui and see whether it will help you, as thousands of women have said it helped them. Besides easing certain pains, Cardui aids in building up the whole system by helping women to get more strength from the food they eat.
