

FRANKLIN COUNTY FARM ITEMS By County Farm Agents

Approximately 1,350 farm operators in Franklin County have availed themselves of the opportunity to receive copy of their "1939 Farm Plan." The "1939 Farm Plan" carries information for the farm showing the 1939 wheat, cotton, tobacco, other soil depleting and total soil depleting allotments, also the largest payment that can be earned on their farm through complete compliance with the 1939 Agricultural Conservation Program.

Township committeemen were assigned to a central location in each township and all farmers notified to the effect that they would be assisted in completing their 1939 farm plan in their township. As there are approximately 1700 more operators eligible to receive their "1939 Farm Plan," a clerk at the Agricultural Building is assigned to assist them in completing this form by filling in the soil building practices necessary to earn their largest payment. When the farmer meets with the representative of the Agricultural Conservation Association and completes his "1939 Farm Plan," a copy is given the farm operator and a copy left at the office. Should a farmer be interested in securing his payment under the Agricultural Conservation Program, he should complete his farm plan and receive his copy at the earliest possible date, as after form is completed, he becomes eligible to receive a 1939 Soil Conservation Payment. The form carries information on the back of the sheet showing payment rates on normal production of allotted acreage and deduction rates for normal production of excess acreage, also approved soil building practices.

All farm operators whether or not they plan to cooperate with the 1939 Agricultural Conservation Program are invited to visit the Office at their earliest convenience that their "1939 Farm Plan" may be completed.

Producers who receive Group "C" Allotment or an allotment as New Grower for tobacco and cotton receive payment on such allotment unless it is planted on the farm to which the allotment is made. All Special Allotments as cotton, tobacco and wheat should be planted on the farm for which the allotment is made. No shift should be made from one farm to another since performance will be checked on that basis. And even though two farms bearing two work sheets put together would show complete compliance, a penalty would be invoked where one of the work sheets showed over planting in cotton and tobacco. Farmers are urged to comply separately on each work sheet to avoid penalties. This does not apply to operators that have two separate tracts of land combined under one work sheet. For in this case, it is listed as only one farm.

Mr. L. H. Dickens, Louisburg, R. 2, made arrangements with the farmers of his community through which he could assure us that as many as 400 bushels of cotton seed would be treated and made application for the cotton seed treatment, Mr. Tucker, under this agreement, sent him the Machine. The Machine treated approximately 600 bushels of seed in that community during the day at cost of 15c per bushel. This Machine has treated to date in Franklin County, approximately 6,500 bushels of cotton seed for farmers with a cost of treating of 15c per bushel.

Several reports of tobacco Blue Mold were received in Franklin County during the week. However, all beds visited and farmers contacted showed Blue Mold as being in a mild form. Immediate recovery from attacks has been observed. James Speed and H. T. Rogers were assisted in treating their tobacco plant beds with Paradichlorobenzene.

City Chap—I guess there's a lot of big men born in this town. Country Feller—Nope, jest babies.

Reputation is an important thing, particularly the reputation of getting your work done.

AN ORDINANCE AUTHORIZING THE ISSUANCE OF FIFTEEN HUNDRED DOLLARS (\$1,500.00) STREET IMPROVEMENT BONDS.

Be it ordained by the Board of

Commissioners of the Town of

Louisburg:
SECTION 1. That the Town of Louisburg issue its bonds pursuant to the Municipal Finance Act as amended for the purpose of constructing or re-constructing the surface of streets or highways including contemporaneous construction or re-construction of sidewalks, curves, gutters or

drains, and grading in and for said Town, the estimated cost of such improvements is not less than \$1,500.00, of which not less than one-fourth of the costs, exclusive of costs of paving, at street intersections, is to be specially assessed.
SECTION 2. That the maximum aggregate principal amount of said Bonds is \$1,500.00.

SECTION 3. That a tax sufficient to pay the principal and interest of said bonds shall be annually levied and collected.

SECTION 4. That a statement of the debt of the Town of Louisburg has been filed with the Clerk and is open to public inspection.

SECTION 5. This ordinance shall take effect upon its passage and shall not be submitted to its

voters.
The foregoing ordinance was passed on the 4th day of April, 1939 and was first published on the 28th day of April, 1939.
Any action or proceeding questioning the validity of said ordinance must be commenced within 30 days after its first publication.
T. K. STOCKARD,
4-28-2t Town Clerk.
