BIG DAY FOR NORTH CAROLINA AT FAIR ON JUNE 19TH

Raleigh, N. C.—New York has had a lot of "special days" at the World's Fair, but the North Carolina Fair Commission is determined to make a splash big enough to attract attention. On June 19, which will be North Carolina Day at the Flushing Flats exposition, the Governor, his staff, council and aides, and some 5,000 other Tar Heels, great and lesser, will invade the city and fairgrounds. With music, parades, color and stunts, the Tar Heels hope to make the hundreds of thousands of fairgoers realize that North Carolina has come to town. The tentative program, released by Coleman W. Roberts, of Charlotte, executive director of the state's exhibit, reveals several novelties. The North Carolina parade, in which will march several North Carolina bands and other units, will proceed from Petticoat Lane to the Court of Peace. Here ceremonies in honor of North Carolina will be held, presided over by W. E. Fenner, of Rocky Mount, chairman of the North Carolina World's Fair Commission. The program will include music by Lenoir and Charlotte high school bands, and selections by the Westminster choir singing music from Roanoke Island's LOST COLONY. Governor Hoey will be introduced and saluted by the bands. Governor Hoey and his official party, escorted by distinguished guests from other states, will later pay an official trip of inspection to the Court of States and to the North Carolina exhibit there. Other events of the day include a luncheon in honor of North Carolina officials, tendered by the World's Fair organization, and a reception for Governor Hoey, given by the United States Commissioner General, Edward J. Flynn, in the Federal Hall. North Carolina festivities, however, will spread beyond the limits of one day. On the evening of June 18 the North Carolina Society in New York will give a dinner in honor of Governor and Mrs. Hoey at the Hotel New Yorker. A multitude of Tar Heels are expected to attend this event, and music will be furnished by the Lenoir High School Band under direction of James C. Harper. At least five North Carolina bands will make the fairground ring with their brasses; Lenoir, Henderson, Charlotte, Washington and Greenville high school bands. They will give concerts on June 18, 19 and 20 in the Court of Peace, in the Court of States in front of the North Carolina exhibit, and also at Washington Square. Other special events are to be announced later. The program is already attracting much attention

But It's True

Mr. Corey's nose has regular muscular powers, similar to those of the average man's arm. He is embarrassed about the matter, performs only in private. But, he reports, the matter is embarrassing anyway, because when he becomes nervous the nose wanders around of its own volition.

FACTS FAVOR FORD

- The 1939 Ford V-8 is a beautiful, modern motor car. Its 85-horsepower engine gives you economical, well-balanced performance over the entire speed range—and the 60-horsepower engine is even more economical.
- The structural strength of the Ford car—frame, bracing, axles, body—makes not only for safety, but durability and long life.
- Ford hydraulic brakes are exceptionally large and strong in proportion to car weight.
- The Ford car is stabilized for comfortable riding. Its springbase, the distance between front and rear suspension, is 123 inches. Seats are toward the center, perfectly balanced. The car does not bob or dip and can have very little sway.

These four points—power, strength, safety, comfort—are by far the most important essentials in any motor car. They form the basic value of your investment.

With this solid foundation to build on, the Ford V-8 has been made beautiful, spacious, easy to drive. It is richly upholstered and has all the modern features which add to the luxury and pleasure of motoring.

You can see these things when you take a trial drive, but do not forget that the main value is in the things you do not readily see—quality of materials, precision of manufacture, fundamental engineering.
