#### 

From Press dispatches Adolph Hitler wants the United States to intervene and settle the war conditions in Europe. What's the use. The United States dictated and arranged the settlement in 1918 and Hitler is the one that become dissatisfied and broke the plan. We

see no need of further intervention.

New York City

Entered at the Postoffice at Louisburg, N. C. as second

Some plan should be arranged in the new Crop Control set up whereby a farmer whose acreage has been cut to the point he cannot operate economically and wants to discontinue planting cotton and tobacco for one or more years, may do so without being deprived of his rentals, parity and other payments or declared a nontobacco or cotton farmer and not given future allotments. One should be encouraged to discontinue the production, rather than be forced to produce on an allotment that will create a loss.

The TIMES acknowledges receipt of a copy of "North Carolina, a Guide to the Old North State," recently published by the University of North Carolina Press, sponsored by the Conservation and Development Department and compiled and written by the Federal Writers' Project of the Federal Works Agency Work Projects Administration. It contains a brief outline of North Carolina's historical, and beauty spots arranged in tours following the main state highways. It is a well gotten up edition of interesting and valuable facts and pictures and reflects credit upon the sponsors and all whose efforts contributed to its completion. It is one book that should be in every North Carolina home and school.

One of the most unreasonable acts we have seen in some time was that of the Council of State doing away with the State Guide at Raleigh and placing the lady Secretary in the Rotunda of the Capitol. To spend a quarter million dollars to invite people of the world to visit North Carolina and then not spend fifteen hundred to show them around when they come is unwise and inconsistent. It reminds us of the fellow who sent out invitations to a large number of friends to visit his estate and when they came he sat in his library and said to them "look for yourself if you want to see it." We hope the Council will see the error of its way and reestablish the Guide as it is one of the most valuable positions in the State, in connection with the advertising campaign. They might also keep the lady Secretary—this position is not invaluable.

Now that the tobacco control has been carried by the tremendous majority of nine to one the only thing to do is to join in hearty cooperation in giving it another trial. The big kick heretofore seems to have been directed against the township committees or the county committees. Regardless of whether the complaints were justly made, they were a source of criticism and dissatisfaction. In fact there were many injustices in the county, but some should have been expected, since people are not perfect. Provision should be made for correcting any of these injustices that may appear in the future. Also the many complaints of discourtesies should be carefully discouraged. As will be seen from a statement from the County Agents department, arrangements are being made for an election to elect township and county committees. The new law provides for this election and it is the duty of all eligible growers who feel that the committees are not properly responsive to the public interest and fairness to go out and take an active part in electing an entirely new set of committeemen. In electing these committeemen each voter should realize that this Crop Control activity is the biggest business in the county and should have at its head the best business brains in the county. Not only should it be composed of men who have made a success of their own business, but who are capable of being the head of any other big business. Before voting for a person to tell you what crop you should plant and what your parity should be you should ask yourself the question, would you think he is capable of being President or Cashier of a bank, the head of a big Corporation, the head of your county government or other responsible position. There is no greater responsibility in the county in any business than is membership on these committees, and each member should be educationally, morally, spiritually and courageous enough not only to be eligible to hold any other big business but to be honest and fair in dealing with the farmers as a class and the government. It is this one point that is going to determine the future satisfactory operation of the Control more than any other.

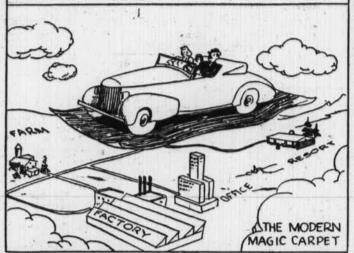

#### PUBLIC RESENTMENT THE ONLY CURB

Since the World War, Great Britain's national debt increased only \$2,000,000,000, up to the end of last year. In the nine years since depression struck the United States the national debt has increased more than \$25,-

000,000,000.

In those two sets of figures you see vividly illustrated

### The Rhoades Family . . by Squier

MODERN MAGIC CARPET—Man's century-old dream of better transportation was made true by the motor vehicle. It provides personalized transportation, removes the isolation of the farm, affords swift and economical movement of goods from factories and provides billions of hours of human happiness to motorists. Despite the benefits, excessive taxes are imposed upon highway transportation—more than \$1.500.000.000 annually.

the magnitude and gravity of our debt problem. No nation in the world has been so prodigal as we in spending what we have not earned. In no nation has the national debt—which means a mortgage against all that we, have, and all that may be produced by our children—soared so rapidly or so high.

Worst of all, the debt problem grows more menacing every day. The national budget is almost as far out of balance now as it was early in the depression. In spite of the highest and greatest number of taxes in our national history, the Federal government continues to spend billions more than it receives in revenue each year.

It is obvious that we can expect no help from the politicians—they will spend and spend and spend as long as the voters acquiesce. The solution must come from public rebellion against wasteful spending. There must be an end to Federal competition with business and financing projects which are purely local and ten years ago would have been paid for with local money. There must be an end to grab-bag tactics by counties, municipalities, states. There must be an end to the insane delusion that we can get something for nothing.

#### FROM CEDAR ROCK

The FRANKLIN TIMES, Louisburg, N. C.

Mr. Editor:—As I haven't seen anything from Cedar Rock in some time, if you will allow me, I will give you a little of Cedar Rock news. I haven't heard anything for the last two months but tobacco Control. Now that the election is all over and Control was carried, I-hope it will be for the best. Mr. Editor, if the authorities will treat everybody right, and alike, it will be all right, but for a few pets to get what they want and others get nothing to compare with their neighbors, there will be a great howl. The County Agents should treat everybody alike in every respect, Give every man what he is entitled to have—big or little alike. Have no big I and no little u's. This brings on trouble, which has come from just such doings. I would like to see crop Control carried out in an honest way, but you know it has not been carried out as it should have been. There are some folks you can't satisfy. The committee should hue to the line and let the chips fall where they will. But be sure to treat all alike. If I was on the committee I would not listen to Paul nor Peter. I hope they will carry it out to a letter. If they will there will be less growling and give every man what he is entitled to, big, little, rich or poor, alike—have no pets.

Well cotton is the sorriest this year I have ever seen, corn and peas are good, and sweet potatoes are very common. The farmers are sowing right much grain this fall. Some are planning to sow wheat, which I think is a good sign, and I think everybody will work out all right. You can't please everybody. I think we will get more for this crop with Control than we would otherwise, but we need not expect no high average for it.

Well, Mr. Editor, we have the best school at Edward Best this year we have ever had. Mr. Timberlake is one of the best principals we have ever had and Mr. McClure, our agricultural teacher, is a fine young man. Some of the students said the other day, he explained everything better than anyone they ever saw in a school room. Our aim is to have one of the best schools in the

county, so I hope everything will work out all right.

work out all right.
With best wishes,
W. O. STONE,
R 4, Louisburg, N. C.

#### CELEBRATES 70th BIRTHDAY

Mr. N. B. Smith celebrased his 70th birthday Saturday, Sept. 30. He was given a surprise supper by his wife and children at his home on Route 3, Louisburg. On his return home he was received by many friends and also received numerous gifts. Those present were: Mrs. N. B. Smith, Miss Elizabeth Smith, J. T. Smith, Earnest Smith, Milton Smith, Mr. and Mrs. J. C. Tharrington, Mr. and Mrs. Booster Smith, Mr. and Mrs. W. E. Debnam, Mr. and Mrs. V. E. Debnam, Mr. and Mrs. J. E. Smith, Mrs. C. F. Lancaster, Mr. and Mrs. J. W. Smith and 18 grand-children and 2 great-grandchildren, Friends and relatives were: Mr. and Mrs. R. C. Edwards and family, Mr. and Mrs. John Currin, Miss Mary Currin, Miss Jessie Tharrington, Miss Annie Bert
