

The Tobacco Quota Provisions of the Agricultural Adjustment Act of 1938 have been amended by Congress, making it possible for farmers to vote on a three year tobacco adjustment program. The Referendum is tentatively planned for Saturday, July 20. Definite steps are being made to carry the information to farmers prior to that date. Messrs. B. C. Mangum and Flake Shaw from the State Office have been invited to explain the tobacco provisions of the Program to Committeesmen, leading farmers and business men at the Agricultural Building, Friday night, June 28, at 8:00 o'clock. The purpose of the meeting is to study the important changes in the program and to plan educational meetings to carry this information to the farmers of the County prior to the Referendum.

The Eighteenth Annual Field Day of Tobacco Experiment Station of Oxford, N. C., will be held on Tuesday, July 2, 1940 beginning at 10:30 A. M. Hutson, Assistant Administrator of the Agricultural Adjustment Administration; and several other guest speakers. The afternoon program beginning at 2:00 P. M. will consist of a 4-H Club Pageant given by 4-H Club members of Caswell, Durham, Franklin Granville, Person and Wake counties; and Field Trips to observe different experimental plots. All farmers are urged to attend.

Unemployment Compensation Law, the approximate figures being \$373,000,000 in 1938 and \$407,000,000 in 1939, Charles G. Powell, Commission chairman reports.

Franklin County, a breakdown of the State figures shows, had 17 employers subject to the law and 625 workers protected by it in the year 1939.

Payrolls of employees subject to the law and paid on employees protected by the law, amounted to \$418,061 in 1938, as compared with \$378,757 in 1939, while contributions paid by the liable employers of Franklin County amounted to \$11,238 in 1938, as compared with \$10,228 in 1939.

"In these hours of shame and anger for the fatherland, one voice must answer you and that voice shall be mine," said General De Gaulle.

"France has been struck down, not by the number of German effectives, not by their superior courage, but solely by the enemy's mechanized force with all its offensive power and maneuverability."

Berlin, Thursday, June 27.—The British navy attempted to land troops at two points along the German-held coast of France, but these attempts were "completely driven off" and the entire maneuver was "shamefully insignificant", it was stated officially early today.

Nazi quarters said that the British attempt, far from obtaining "useful information" as was claimed in London, constituted a belated British effort to convince the French of formidable British strength.

They called the landing attempts "more Churchill humbug."

The official DNB agency said that the British troops, aided by warships and the British Air Force, made their landing at-

tempts on an exceedingly small scale.

DNB said that "merely a few British boats made a landing attempt on the smallest dimensions at two points along the French coast."

Both were "completely driven off," the news agency said. Only two Germans were wounded DNB said.

Calling attention to "a London report that 'useful information was obtained,'" the DNB statement said the maneuver was "shamefully insignificant."

Destruction of Britain Predicted Form Berlin

Berlin, June 26.—Destruction of the British empire was predicted anew tonight by the German press, but first, said DNB, official news agency, will come a "thousand-fold" counter-blow for night-British air raids on Germany.

The agency acknowledged that the British on the night of June 20 alone dropped 371 bombs on German soil, killing 16 people and wounding 41, but contended that British bomb-sighting reflected "general nervousness in Britain."

Governor Hoey spoke at a banquet last night, pledging his support to the forestry conservation program.

Earlier yesterday E. V. Roberts director of the State Forest Survey, at Asheville, stressed the need of continuous replanting of trees to keep a good supply for lumber. G. H. Collingwood, forester of the National Lumber Manufacturers Association, discussed lumber industry problems.

The convention—the association's 30th—will end today following talks by Frank Heyward, of Atlanta, manager of the Southern Pulpwood Conservation Association, and Charles A. Gillett, of Norfolk, Va., forester for the Seaboard Railroad.

Beasley said the association planned to work for "more equitable taxes" on forest lands to enable private industry, including farmers, to grow forests on a "perpetual basis."—News-Observer.
