

Wheat, oats and barley can be grown during the winter months and harvested for grain in the Spring and produce a substitute for our summer indian These crops when properly fertilized, seeded with good seed and harvested will control erosion during the winter months and can be followed by Lespedeza in the summer months for hay and will produce approximately as much feed as our best varieties of corn

The average digestable nutri-Feeding" are as follows based on 100 pounds: CORN—

Total dry matter 85.2 Digestable protein-7.1 Total digestable nutrients--80.6

Total dry matter-90.4 Digestable protein—9.3 Total digestable nutrients-78.7 OATS-

Total dry matter-91.1 Digestable protein—9.4 Total digestable nutrients—71.5 Franklin County plants from 25,000 to 30,000 acres of corn annually producing an average of approximately 17 bushels an acre Our farms could be improved and supply of grain increased if onethird of your area was planted to THURS.-FRIDAY, SEPT. 5-6 barley and oats to be substituted for corn in feeding chickens, cows, horses, mules and hogs and followed by Lespedeza to be plowed under to improve the soil

Franklin County To Organize Small Grain Program

for corn the following year.

Arrangements have been made and plans worked out for organizing and developing one variety small grain communities in Franklin County. Plans for one variety communities will be exd at meeting in Agricultural Building in Louisburg Wednesday afternoon, September 4, at 2:00 P. M., announces W. C. Boyce, County Agent. The object of this meeting is to supply infor-mation and establish organization for small grain community work adjoining counties.
Mr. E. C. Blair, Extension

Agronomist of State College, Mr. A. D. Stuart, Secretary of N. C. Crop Improvement Association, and Mr. O. F. McCrary, District Agent have offered their assistance in the program. Besides the organization phase of the pro-gram, Mr. E. C. Blair will dis-N. Tobacco marketing cards and cotton marketing cards have been prepared and are ready to be delivered to more than 99% of farm operators in Franklin County. We wish to invite them to call for their marketing cards at earliest convenience to avoid a last minute rush immediately prior to op-ening of tobacco markets in this vicinity and prior to the ginning of cotton. The marketing cards issued are personal property of the operators and extreme care and precaution should be taken to see that they are used only to identify crops produced on the land covered by the Work Sheet for which the card is issued. The Agricultural Adjustment Act provides severe penalties for misuse of marketing cards and the opera-tors to whom they are issued are held responsible to see that they

are used properly.

The Cotton ginners of Franklin County are held responsible for reporting each bale of cotton ginned. Farmers can render them a greater assistance by properly identifying their cotton with their cotton marketing card at time of ginning. When cotton is proper-ly identified, correct credit for yield is assured the farm.

ADMINISTRATOR'S NOTICE Having qualified as Adminis-trator of the estate of I. M. Perry, deceased, late of Franklin County, North Carolina, this is to notify all persons having claims against the estate of said deceased to exhibit them to the undersigned on or before the 23rd day of August, 1941, or this notice will be pleaded in bar of their recovery. All persons indebted to said estate will please make immediate payment. This 22:d day of August, 1940.
