U. D. C. MEETING

Mrs. D. T. Smithwick was hostess to the Joseph J. Davis Chapter U. D. C. Nov. 5, 1940. The meeting opened with the pledge of allegiance to the flags. Some important letters were read and business transacted. Interest has grown and we are having some very interesting programs.

Charlotte was the subject for this meeting and appropriate articles were read. "Charlotte During the Confederacy" among them, mentioning that the last meeting of the Jefferson Davis cabinet was in Charlotte. We hope that more of the former members will consider being reinstated, the chapter needs them. Delicious refreshments were served in two courses by the hostess, assisted by Miss Lucy Smithwick. SUE T. ALSTON, Sec'y.

A Gentle Laxative Good For Children

Most any child who takes this modern laxative once will welcome it next time sluggish bowels have him bilious, headachy, listless or upset. Syrup of Black-Draught's fine flavor appeals to most children. By simple directions, its action is usually gentle but thorough. Principal ingredient helps tone bowel muscles. Two sizes: 50c and 25c. Next time, use Syrup of Black-Draught.

HEALTH DEPARTMENT

Dr. R. F. Yarbrough, County Health Officer

Dr. Peck assisted by the Franklin County Health Department is giving the students of the Franklin County High Schools the tuberculin test. This test is simple and does not as some laymen think produce tuberculosis. The test if positive indicates the person tested has at some time been exposed to tuberculosis and may harbor the germs somewhere in the body. Childhood Tuberculosis, which is the type high school students have, can only be positively diagnosed by X-Ray examination. Any student showing a positive reaction to the tuberculin test should be X-Rayed. A positive tuberculin test does not mean that a person has tuberculosis but a negative test does mean he has no tuberculosis. The X-Ray tells positively a person has or has not tuberculosis.

The Health Department has arranged to have an X-Ray examination of all high school students showing a positive tuberculin test. When parents are financially able to pay a charge of \$1.00 will be made for the X-Ray examination to pay for the films, when parents are financially unable to pay \$1.00 if they will present a certificate from the Principal of the child's high school the Health

Department will try and arrange for a free X-Ray. Notice of the date and place of X-Ray examination will be made and parents whose children have positive tuberculin test will please come to the Health Office and deposit \$1.00 so the number of films may be on hand.
