about the AAA and other
EXTENSION WORK
From the
County Agent

Many farmers are asking and trying to learn why so many cone-shaped piles of grey looking material are visible from the road on the farms of Franklin County farmers. The records of the Franklin County Agricultural Conservation Association show the answer to this question. Farmers planning to cooperate with the program have requested as advance 1,100,000 lbs. of approximately 1,050 tons of ground agricultural limestone. Of this amount approximately 600 tons have been delivered.

Therefore, the piles of ground grey stone observed from the road are really ground agricultural limestone testing approximately 53% calcium carbonate and 43% magnesium carbonate. This material is available to most producers in the County and each 1200 pounds applied will count one unit towards earning the 1941 Soil Building Goal. It is necessary that the entire goal be earned in order to earn all payments in 1941.

Three cars of 20% acid or 20% superphosphate have been requested as advance. Of this amount one car has been delivered, one car is expected March 1 and the third has been received by Louisburg Supply Company at 40c per ton but not less than 25c an order. Farmers desiring phosphate immediately may obtain it by making application at the County Office and receiving it there as long as supply lasts. Past experience indicates that Korean Lespedeza will do as well as Kobe Lespedeza on fertile soils and on heavy soils and that Kobe Lespedeza has produced better on sandy soil low in fertility. Recent quotations show Kobe Lespedeza to cost about twice as much as Korean; therefore, many farmers are using lime and phosphate on their Lespedeza in an effort to obtain better growth of Korean Lespedeza seeded on sandy soils low in fertility. Twenty per cent acid obtained as advance of Soil Conservation Program or purchased from local dealer will count one unit toward earning soil building practice for each 240 pounds applied to Lespedeza. Austrian winter peas, crimson clover, vetch, pastures or meadow strips (seeded with meadow strip mixture), rye grass and crotalaria provided these crops are not interplanted with depleting crop as wheat to be harvested for grain in which case phosphate may be applied after the depleting crop has been harvested. Each 150 pounds of 50% muriate of potash applied to these crops will also count one unit.

Lime will be delivered to the farm from the railroad station at \$1.00 per ton and phosphate at 75c per ton subject to a truck lot for the community.

How One Woman Lost 20 Pounds of FAT

**Lost Her Prominent Hips
Lost Her Double Chin
Lost Her Sluggishness**

Gained a More Shapely Figure and the Increase in Physical Vigor and Vivaciousness Which So Often Comes With Excess Fat Reduction.

Thousands of women are getting fat and losing their appeal just because they do not know what to do. Why not be smart — do what thousands of women have done to get off pounds of unwanted fat. Take a half teaspoonful of Kruschen in a glass of hot water first thing every morning to gently activate liver, bowels and kidneys — cut down your calorie intake — eat wisely and satisfyingly — there need never be a hungry moment!

Keep this plan up for 30 days. Then weigh yourself and see if you haven't lost pounds of ugly fat. Just see if this doesn't prove to be the surprise of your life and make you feel like shouting the good news to other fat people. And best of all — a jar of Kruschen that will last you for 4 weeks costs but little. If not perfectly satisfied — money back.

ing their greatest insinuation for many years to stimulate interest in planting Lespedeza for seed. Fifteen thousand acres of cropland have been taken out of cotton and tobacco production in Franklin County through the marketing quota program. This acreage can profitably be used if seeded to small grain, and followed by Lespedeza for seed. Lespedeza seed can be harvested satisfactorily with our present combine harvesters with yields ranging from 150 to 600 pounds an acre. Korean usually outyields Kobe, but a balance is usually reached as Kobe seed usually sell for a higher price per pound than Korean. Farmers planting Lespedeza for seed should carefully prepare the land by removing all stumps, rocks and other structures that could damage a combine. When structures are too difficult to remove, a tall stake should be placed by it to mark its location before the crop is large enough to hide obstruction. It cost no more to harvest a good crop of Lespedeza seed than a poor one; therefore, farmers planting for seed should use lime, phosphate and potash or lime and complete fertilizer to stimulate heavy production. Let's assure ourselves of not having to buy 14c a pound Lespedeza in 1942 by having abundant Lespedeza seed to sell and none to buy.

AN APPRECIATION

The following letter in appreciation of past business, was received by Mr. G. M. Beam from one of his fire insurance companies, The American Insurance Co.:

Your agency has completed two decades of service as our local representative in Louisburg and we are happy to express our sincere good wishes on this occasion.

"Twenty years is a long time as measured by the life of an average business venture, and together we have witnessed many changes during that period. Your faithful support has contributed to the progress this Company has made during these years and we want to tell you that it is deeply appreciated.

"We look forward to many more years of pleasant association with you and hope that we can continue to merit the same friendly consideration which has been so generously given in the past."

United States imports of cattle and beef in the calendar year 1940 were 20 percent smaller than in 1939, according to the U. S. Department of Agriculture.

Franklinton News

Last week Mrs. R. L. Moore was hostess to her contract bridge club and a few extra guests were served a frozen course with cake and candies.

High score prizes for bridge were awarded Mrs. J. O. Green for the club and Mrs. H. H. Utley for guests. Included among the guests were Miss Frances Winston, Mrs. Walter W. Cooke, Mrs. George Cooke, Mrs. A. B. Wester, Jr., Mrs. S. C. Ford, Mrs. L. W. Henderson, Mrs. A. E. Henderson, Mrs. E. W. McGhee, Mrs. H. C. Kearney, Miss Marguerite Moss, Miss Helen Stoneham, Mrs. John F. Gonella and Miss Frances Smith.

Miss Marguerite Moss was hostess Saturday afternoon to her bridge club and extra guests. Mrs. D. C. Hicks was awarded high score club prize and Miss Claire Kearney high score guest prize. The hostess served a salad course with nut cake and hot coffee.

Miss Moss was again hostess Saturday evening when she entertained a number of her friends at bridge. Receiving high score prize was Mrs. John F. Gonella, while Mrs. G. B. Harris was awarded consolation.

A salad course was served. Guests were Mrs. John F. Gonella, Mrs. G. B. Harris, Mrs. H. H. Utley, Mrs. Bill Ragland of Sanford, Mrs. H. C. Taylor, Jr., of Louisburg, Miss Helen Stoneham, Miss Annie Wester, Mrs. S. C. Ford, Mrs. L. W. Henderson, Mrs. E. W. McGhee, Mrs. H. C. Kearney, and Mrs. Ralph Parker.

The American Legion Auxiliary met Monday evening at the home of Mrs. H. S. Daniel with Mrs. Daniel, Mrs. A. B. Allen, Mrs. G. G. Sandling and Miss Thelma Holmes as joint hostesses. G. B. Harris gave a talk.

The program chairman, Miss Ora Winston, was assisted by Miss Lizzie Whitfield.

The hostesses served Jello, cake and coffee.

EPSON DEFEATS MIDDLEBURG

Middleburg, Feb. 20.—Epsom High School boys defeated Middleburg here tonight by a 27-14 score. Dickerson and McCauley with 12 and 10 points respectively paced the Epsom boys. Reavis with 8 showed up best for Middleburg.

Middleburg girls defeated the Epsom girls by an 8-7 score.

A Chicago youth drove a stolen auto all night long and a judge gave him 30 days — plenty of time to catch up on his sleep.

EPSON WINS OVER MIDDLEBURG

Middleburg, Feb. 25.—Epsom invaded the Middleburg camp tonight and walked off with both victories in a double-header basketball bill. Epsom girls won by a 21-20 score. The score was tied 19 all at the close of the game. By mutual agreement an extra 3-minute period was added during which time Wilson scored a field goal for Epsom. Short of Middleburg, made good a foul shot the last few seconds of the game and victory went to Epsom by a one-point margin.

Lancaster and Ayscaw with 8 points each were high scorers for Epsom. Jourjagan and Roberson were good on defense.

Dickerson with 9 points showed up best for Middleburg while Finch and Stainback played an excellent defense.

Epsom boys gained a substantial lead over the Middleburg lads early in the game and had no trouble conquering them by a 42-21 score. Epsom lead at the half 19-6.

McCauley and Grissom with 12 points each followed by Dickerson with 10, lead the scoring for Epsom while Eaves and Hicks played an excellent defense. Reavis and Harton with 4 points each led for Middleburg.

Uncle Natchel says—

IT'S GOOD BECAUSE IT'S NATCHEL- AND NATCHEL THINGS IS BEST

YES, CHILEAN SODA is good because it's "Natchel"—the only natural nitrate in the world. It's good for all crops, before planting or after. It's particularly profitable for side-dressing and top-dressing. It acts quickly, picks the crop up and pushes it to early maturity.

Use Natural Chilean Soda under your crops... for top-dressing and side-dressing, too. Give them the full benefit of all its natural fertilizing and soil-improving qualities.

Be sure you get **NATURAL CHILEAN NITRATE OF SODA**
