

Chicago police report a woman who stole 50 petticoats was caught with the goods on her.

Probably slowness is a habit but the man late to work is seldom late quitting.

### Vegetable Laxative Makes Happy Friends

Thousands turn to this way to get relief when constipation has them headachy, bilious! A quarter to a half-ounce of spicy, aromatic BLACK-DRAUGHT tonight; a drink of water; there's usually time for sleep, followed by gentle but thorough evacuation in the morning. Try all-vegetable BLACK-DRAUGHT; time-tested; economical: 25 to 40 doses, 25c.

### WORKERS FOR DEFENSE JOBS

In the next twelve months thousands of additional workers will be required to carry on the defense projects of the nation. There will be a strong demand for machinists, engineers, carpenters and other skilled labor, as well as common labor.

Every worker entering a new job should apply immediately for a Social Security Account Number card if he does not already have one," declared Mr. Stacey W. Wade, Manager of the Social Security Board's office in Raleigh, North Carolina. The age of the worker does not matter. He needs this card even if he is under 20 years old or over 70.

Many young women may replace men in stores, offices and factories. Women in commerce and industry must have a Social Security account number card, just the same as men. The age of the woman does not matter. The fact that she is working in some store, office or factory or other place of business where her employer is required to report her wages to the Government determines her need of a Social Security card.

Social Security account number cards may be secured from any field office of the Social Security Board. The office serving the counties of Wake, Johnston, Warren, Franklin and Vance is located in the Post Office Building, Rooms 215-217, Raleigh, North Carolina.

### THANKS

We wish to extend our deepest thanks for the many kindnesses extended us following the loss of our home by fire recently. They will be long remembered.

A Philadelphia doctor says exercise will kill all germs. The trouble is in getting the little pests to exercise.

### Sentinels of Health

Don't Neglect Them!

Nature designed the kidneys to do a marvelous job. Their task is to keep the flowing blood streams free of an excess of toxic impurities. The act of living—life itself—is constantly producing waste matter the kidneys must remove from the blood if good health is to endure. When the kidneys fail to function as Nature intended, there is retention of waste that may cause body-wide distress. One may suffer nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—feet, nerves, all worn out.

Frequent, scanty or burning passages are sometimes further evidence of kidney or bladder disturbance. The recognized and proper treatment is a diuretic medicine to help the kidneys get rid of excess poisonous body waste. Use Doan's Pills. They have had more than forty years of public approval. Are endorsed the country over. Insist on Doan's. Sold at all drug stores.
