

Better Start Buying Now for That Man Overseas

September 15 to October 15 Is Period For Mailing Christmas Parcels

The mailing of Christmas gifts for Army and Navy personnel overseas must begin by September 15, if many of the men and women in the armed forces are to receive gifts this Christmas season, according to Postmaster T. M. Harris.

Christmas gifts may be mailed by Parcel Post to men and women overseas between September 15 and October 15," Harris said. "After the latter date, such parcels may not be mailed unless a written request from the serviceman or servicewoman for the article is presented with each parcel."

Postmaster Harris gave these reasons for early mailing dates: The vast distances that the parcels must travel to reach men and women at war fronts and stations; frequent transfers of thousands of men from one location to another, which means forwarding of the mail and consumes additional time; and the necessity for giving preference to reinforcements, arms, munitions, medicine, and food in allotment of shipping space.

Rules For Mailings

Rules for Christmas mailings to the fighting forces overseas were made public in June for the guidance of early shoppers. The most important rules are:

"The parcel must not exceed five pounds, and must not be more than 15 inches in length or 36 inches in length and girth combined. It should be marked 'Christmas parcel'.

"Not more than one parcel may be mailed in any one week to the same member of the armed forces by or in behalf of the same mailer.

"The parcel must be well and strongly packed in a container of metal, wood, strong fiber board, or similar material, then wrapped in strong paper and tied with twine. The cover should be such that it can be opened readily for censorship. The contents should be packed tightly.

"Perishable goods, such as fruits that may spoil, are prohibited. Intoxicants, inflammable materials such as matches or lighter fluids, poisons, and anything that may damage other mail, also are prohibited. Gifts enclosed in glass should be substantially packed to avoid breakage. Sharp instruments, such as razors and knives, must have their edges and points protected so that they cannot cut through the coverings and injure postal personnel or damage other packages.

"Since the armed forces are being supplied with food and clothing, the Army and Navy recommend against these as gifts.

"Addresses must be written clearly and completely. In addition to the return address of the sender, a parcel for an Army man should show the name, rank, Army serial number, branch of service, organization, Army post-office number, and name of the postoffice through which the parcel is routed.

"The address on a parcel for a Navy man should include the name and rank or rating of the addressee, the Naval unit to which he is assigned and the Navy number assigned thereto, or the name of his ship, and the fleet postoffice through which the parcel is routed."

"Only valuable papers may be registered, and there is no insurance. Money should be sent by postal money order.

The following exceptions to the above are made for Naval personnel: Packages will be accepted as late as Nov. 1st. Mail for Navy, Marine Corps or Coast Guard may be accepted for registration or insurance if it conforms to existing requirements.

Entrance Age For Children

Supt. Wiley F. Mitchell submits the following correspondence to clear up the children's age eligibility to enter school:

To the Editor—In view of the fact that a good number of parents are confused concerning the Law governing the age at which children are to be allowed to enter the public schools for the first time, I am quoting below a letter recently received from Mr. Clyde A. Erwin, State Superintendent of Public Instruction, and would like to request that this letter be published in your paper.

Very truly yours,
Wiley F. Mitchell, Supt., Franklin County Schools.

COPY

August 24th, 1943.
To County and City Superintendents, Greetings:

At its last meeting the State Board of Education requested me to call your attention to the fact that the school law controlling the entrance age of children has not been changed, and that it expects every superintendent, principal and teacher to see that the provisions of this law are carried out in full. The law specifically provides that no child may enter school unless that child is six years of age on or before October 1st.

As you will recall, several efforts were made in the last Legislature to change or modify this law but every effort was decisively defeated by the Legislature. It is therefore incumbent upon us to enforce this law strictly until it is changed by the General Assembly. There is no authority vested in any agency to change or modify the law, and there is a moral and legal responsibility resting upon every school official to see that its provisions are carried out in every respect. I am sure that you will give your wholehearted cooperation in this matter even though you may share my opinion that it would have been wiser if the law had been modified along the lines suggested to the last General Assembly.

With best wishes and kindest personal regards, I am,
(Signed) Clyde A. Erwin,
State Superintendent Public Instruction.

SOLDIERS BEHAVE

Raleigh, Aug. 31.—The good behavior of the American soldier is a prime factor in keeping high the morale of our "home front," Edgar H. Bain of Goldsboro, State Director of the Brewing Industry Foundation's North Carolina Committee, said today.

Quoting from the Office of War Information report that "no American Army in history has been so orderly," Colonel Bain said that this statement was particularly applicable to North Carolina, where Army officials, law enforcement officers and the brewing industry carry on a three-cornered cooperative program.

"This official report of good conditions at Army camps not only proves that our Army has the right kind of morale," said Director Bain, "but it has lifted the morale of our people at home by assuring them that their son, brother or father in the service is behaving himself, and doing all in his power to win this war as quickly as possible."

tration or insurance if it conforms to existing requirements.

THE LOW DOWN FROM HICKORY GROVE

I been trying to get it through my noggin how we gotta stamp out the foreign types of Govt. that trample people. And the type they been having under Adolph is National Socialism, where the Govt. runs everything and says you can have one glass of beer or 2 glasses — and without or with a baloney sandwich. We gotta lick Adolph's outfit—where just the Top Boys do the saying.

Jo Serra

It is okay to put the skids under such an outfit. Everybody says so. That is why everybody is 100 per cent in buying bonds, and joining in the fray.

But it is hard to savvy about throwing National Socialism off our front door-step while we are letting the same kind of varment sneak in at our back door. If German socialism is bad medicine and we gotta spend 10,000 million to quarantine it, I am up a stump about the U.S.A. pouring more billions into things like TVA, and 100 other foreign-type ventures.

I gotta research more into what is sauce for the gander or vice versa. I am perplexed.

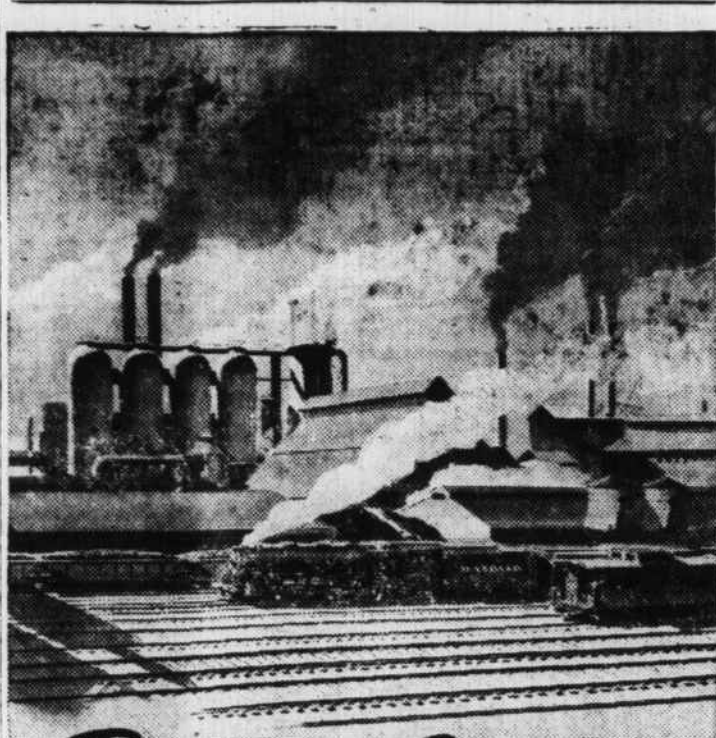

Yours with the low down,
JO SERRA.

FORESTRY EXHIBIT DISPLAYED AT SEABOARD RAILWAY PASSENGER STATION

Raleigh, August 31.—The Industrial Department of the Seaboard Air Line Railway has on display at the Raleigh Passenger Station an Exhibit which shows the importance of the forests of North Carolina and the Southeast, according to Charles A. Gillett, Industrial Forester for the Seaboard Air Line Railway. The six states of Virginia, North Carolina, South Carolina, Georgia, Florida and Alabama are prominently displayed. The National Forests, the State Forests and the private forest land under organized forest fire control are shown in color. The wood-using industries, including the many pulp mills located on the Seaboard

System, are clearly indicated. Perched above the slogan "Growing Trees for Industry" are three beautiful birds. Cypress knees surround the base of the Exhibit. The lighting effects have been so handled that the entire Exhibit is attractive and effective. The Exhibit will be displayed at various Railway Stations and other important locations for about thirty days at each place. The Exhibit will remain on display in the waiting room of the new Seaboard Passenger Station during the month of September.

Pick cotton before it suffers weather damage, pick only when dry, and keep out the trash, are the suggestions of the cotton specialists at State College. The supply of good cotton is seriously short.

Partners with Industry!

The railroads of America are backing industry to the limit in the war of production. Only the close coordination born of a common cause could result in the extraordinary achievements of transportation and industry since the war began.

For many years the Seaboard Railway has recognized the interdependence of industry and transportation. On the established principle that the welfare of the railroad depends upon the prosperity of its patrons, the Seaboard has been working over a long period of time for the economic development of the territory it serves.

The Seaboard's interest extends beyond the location of new plants. It is equally concerned with the success of all industry served by its Line. Its policy is to provide adequate service and to adjust the freight rates on raw materials and finished products to enable these industries to compete with similar industries whether located in the South or elsewhere.

Remarkable progress has been made in the industrial development of the South in recent years. Present indications point to further expansion in the post-war period.

Seaboard will work in the future—as in the past—as Partners With Industry.

BACK THE ATTACK WITH WAR BONDS

OPENING SALE

Monday, Sept. 13th, 1943

We are glad to announce to our friends and customers that we will operate the UNION WAREHOUSE again this season for the sale of leaf tobacco.

DUNCAN-MURRAY

In a quiet ceremony Sunday, Aug. 22 at 12:00 o'clock at the home of J. Everette Nuse, of Norfolk, Va., Miss Alice Murray, daughter of Mr. and Mrs. W. P. Murray and Mr. Ralph Duncan, son of Mr. and Mrs. Lester Duncan were united in marriage.

The bride was attired in a light blue dress with Navy accessories. The bridal corsage was red roses.

The bride was a graduate of Bunn High School and had been employed at the Norfolk Navy Yard for about six months before the marriage. The couple will now make their home on Spring Hope, R 1, where they will be engaged in farming.

The couple were married in a double ceremony. The other bride and groom being Miss Ava Howell and Pfc. Charles Edwards of Norfolk.

Don't let too much money go to your head — put it in War Bonds!
