UNUSUAL

Mr. R. J. Rose, of Franklinton, who visited the FRANKLIN TIMES office this week, told us of an unusual broadcast he heard recently while listening in on Station WSB Atlanta at 11:15 p. m. He said that while retiring he was listening at a broadcast from London in which the reporter, Wright Bryan, was interviewing an American Sergeant, Jessie H. Lewis of the Air force, who had been shot down over the North Sea and had been adrift for four and a half days. With Lewis was Sgt. George Williams, of Chicago. In this interview Lewis said he was from Kannapolis and Franklinton, N. C. His name was Howard, and was the son of George H. Lewis, who was for several years employed by the Vann-Moore Mills of Franklinton. Lewis said he was wounded in his wrist by flak at the time his plane was shot down.

It was unusual that a man in Franklinton should hear a broadcast from one of his townsmen he knew, in London.

Announcements

Washington, D. C., May 1.—Families of U. S. Marines overseas now may include births or even urgent business matters in messages, which Marine Corps headquarters will transmit abroad by radio, it has been announced here.

In making public the more generous policy of handling personal messages for Marines overseas from their families in the States, it was pointed out that the messages must be concerned with the welfare of the immediate family.

The overseas service may be obtained by filing messages at any Red Cross chapter, or by sending them direct to Marine Corps Headquarters, Washington. It was stressed, however, that messages must be confined to matters of a definite emergency nature.

For example, should the mother or sister of a Marine who is overseas become dangerously ill, the family might advise the Marine of her state by filing a message to him with the Red Cross or with Marine Corps Headquarters at Washington. The message should be addressed the same as his letters are addressed.

NEGRO EXTENSION SERVICE

4-H Club members were proud to learn this month that one Franklin County Club girl had been selected one of the 1943 state champion. The girl was Constance M. White, 15, president of the Gethsemane Club, who canned her own budget of 32 quarts of vegetables, 24 quarts of fruits and 6 pints of pickle.

The 1944 club enrollment is much larger and the majority of the clubbers have selected food production projects as their contribution to the war effort.

Six new Home Demonstration Clubs have been organized in the county bringing the total to ten. A canning demonstration will be given in each club this month, and in many neighborhoods where no clubs are yet organized. On Friday, May 12, at 3:00 o'clock a canning demonstration will be given at the regular meeting of the Concord Home Demonstration Club. Visitors, as well as members, are invited to attend.

HOME TOWNSHIP FOLK RALLY TO INSCOE

At an enthusiastic meeting held at the Edward Best High School on May 2nd, after the organization of the first "Joseph T. Inscow Club", the following Resolution was unanimously adopted:

Whereas, Hon. Joseph T. Inscow has announced his candidacy for the State Senate, subject to the action of the Democratic Primary to be held on Saturday, May 27, 1944;

And Whereas: We know Mr. Inscow to be a man of unquestioned honesty and sterling character. A prudent business man. A man beloved and trusted by all who know him. With years of experience yet in the full vigor of his mature manhood. A man knowing the people of Franklin County and their needs;

Now Therefore: Be it resolved: That we the people of Cedar Rock Township, who know him best, feel a just pride and confidence in asking voters of Franklin County for their support and urgently request that they work and vote for the nomination of Joseph T. Inscow, for State Senator in the coming Primary. Modest but capable, strong but not puffed up with power. A man who if nominated and elected will do his best to represent the whole people of his district rather than any one man or set of men. We offer you the "Bob Doughton" of Franklin County.

How a Pulpwood Shortage Handicaps the Farmer...

FRUIT AND VEGETABLES WOULD ROT IN THE FIELDS

MILLIONS OF EGGS WOULD NEVER REACH THE MARKET

FEED STOCK AND FERTILIZER WOULD SELL IN BULK ONLY

...WITHOUT PULPWOOD TO MAKE CONTAINERS

Pulpwood helps the farmer both in the marketing and the planting of his field crops. Feed, fertilizer, seeds and other farm essentials come to the farmer in containers made of pulpwood. Fruits, vegetables, dairy products and other farm produce are packed in pulpwood wraps, liners, and paperboard boxes before they reach the consumer. And most important, pulpwood containers help the farmer feed our armed forces overseas.
