

4-H Fashion Shows Enjoyed By All

4-H Fashion Shows are enjoyed by adults as well as 4-H Club members. Delores Alford, 14 year old daughter of Mr. and Mrs. Wesley Alford of Route 1, Youngsville, displays her dress in adjacent photo which she made last year for the County 4-H Dress Revue with pride. Her selection, skill, and fit claimed for her the County Junior title last year. This year Delores will be competing in the Senior Contest.

The 4-H Dress Revue combines several projects along with the revue. A girl who competes in the Dress Revue has learned to sew through her 4-H Clothing Project and has learned to be properly groomed by participation in the Better Grooming project. An added aspect of the Dress Revue is learning to model correctly.

When beginning a Dress Revue ensemble, a 4-H girl selects a pattern, and material which is suited for each other and suited for the girl. She then constructs her garment following the pro-

cedure as illustrated by her pattern guide sheet or by following a sewing guide.

In county competition, the junior division includes aprons, blouses, skirts, skirts and blouses, and dresses. The senior division includes sports outfit, church outfit, 4-H uniform, or evening or party dress. The girls in both divisions are judged on (1) the appearance of the garment on the girl, (2) the selection and combination of fabrics, colors, and design, (3) the construction of the garment, (4) the choice of accessories, (5) the general over-all appearance, and (6) the modeling ability of the girl. The county senior winner competes on a district and state level with the state winner receiving a free trip to National 4-H Club Congress in Chicago.

The 4-H Dress Revue gives girls an opportunity to show-off their clothing achievements and skills. It provides a new experience for may girls to develop leadership abilities,

poise and learn how to present a pleasing and forceful public appearance.

4-Her's Start Young

4-H ACTIVITY in Franklin County is typified in this series of photos. Top Left, is Donald Hicks of Louisburg Township with one of his prize winning Blue Ribbon chicks. Donald is a member of the Franklin County 4-H Club Pullet Chain. At Top right is Jimmy Boone, 11 year-old son of Mr. and Mrs. Edward Boone, of the Justice 4-H Club with two of his fat steers. Jimmy has just started his 4-H Club work. In photo at Lower Left is Bobby Fuller, 10 year-old son of Mr. and Mrs. George Fuller, of Route 3 Louisburg, with his Dairy Calf. Bobby is a member of the Moulton-Ingleside Community 4-H Club.

In Fashion

A white wool suit with a bright silk blouse is a lovely note in winter during drab gray days and the color is as right for the north as it is for the south.

Negro 4-Her's Observing 4-H Week

Franklin County Negro 4-H Clubs began National 4-H Week observance on March 2nd, and will continue through March 9th. The youth are among 2,285,000 youth who belong to more than 94,700 clubs in urban, suburban and rural areas throughout the United States. Here in Franklin County, over 1600 club members; 750 of which are organized into 52 community clubs are taking part in the observance.

This year's 4-H Week Observance has a number of local and national aims--among them: To focus on 1963 citizenship - in - action goals for members to emphasize career exploration and the value of wise decision making regarding vocational choice, influence more boys and girls 10 to 19 years of age to join or form 4-H clubs, acquaint more parents with 4-H and seek their cooperation, encourage leaders, honor 4-H friends locally and nationally, and express appreciation for the important part they play.

These boys and girls join this week in saying thanks to their faithful leaders, and interested persons who have helped to make this week possible.

Urban Affairs

Washington - President Kennedy will ask the new Congress to create a Department of Urban Affairs with full cabinet status. This resulted from the defeat of the plan last year. Officials who gave this report admitted that prospects for passage this year are dim, but said the Administration hopes at least to get the legislative wheels oiled for a big push in 1964.

"And what style of hat does madam require?"
"Well, between ourselves, I want something that will shock the vicar's wife."

Parental Supervision Important

Parental supervision and assistance is an important part of the 4-H Club program. In accompanying picture, Mr. Horace Baker of Route 1, Youngsville is observing a 4-H scrapbook of Safety which his daughter Vicky has prepared in connection with her 4-H Farm and Home Safety project. Vicky is 13 years old and a student at Harris Grammar School.

Vicky receives constant encouragement from her parents. This is just one of the many things parents can do to assist their 4-H Club members with his 4-H project and activities. A great help to the club member is to receive guidance from his parents when selecting his projects. They will be able to help the club member select ones which fits in with the needs of the family and still satisfy the interests and needs of the individual club member. After the projects are selected, the parent is frequently asked for advice, instructions, and explanations.

4-H projects and activities provide numerous opportunities for parents to help their child develop into a taller, stronger personality. Leisure time is used in a worthwhile manner by 4-H Club members as they complete the requirements for each project. These requirements are usually activities which assist the normal functioning of the home or farm. Frequently, the activities are ones which ordinarily would be managed by the parent. Instead, the club member is responsible for the task but the parent supervises and teaches. It gives

Vicky Baker And Father

the parent another opportunity to work co-operatively with his son or daughter and develop a closer relationship.

The success of a 4-H Club member depends considerably on the interest and encouragement given by the parents. Although the club members may be extremely interested, he will do a much better job if his parents display an interest, speak encouragement when needed, give moral support as is necessary, and offer praise for a job well done. No praise is more meaningful to a 4-H Club member than that which is given by a parent. He real-

izes more than at any other time that all the hours of work, the disappointments, and the victories were appreciated and shared by his parents.

Ineligible

Memphis--The second grade rooms at Avon School were about to hold an election. "Now, children," their teacher beamed, "we're going to do this in a democratic way." Down fell the face and up shot the hand of Beasley Well-to-fod. "Then I can't vote," he announced unhappily. "I'm a Republican."

Once again!

PLYMOUTH BEATS FORD AND CHEVROLET IN 8 OUT OF 10

COMPETITIVE EVENTS AT RIVERSIDE, CALIFORNIA!

Everybody's talking about Plymouth's "Return to Riverside." Plymouth again proved its superiority over its nearest competitors in things you buy a new car for: performance... handling ease... passing ability and gas economy. Results are on the right. Add this to the fact that Plymouth has America's first 5-year or 50,000-mile warranty* and you see why we call Plymouth champ of the Plymouth-Ford-Chevrolet league!

*Your Authorized Plymouth-Vauxhall Dealer's Warranty against defects in material and workmanship on 1963 cars has been expanded to include parts replacement or repair, without charge for required parts, labor, for 5 years, or 50,000 miles, whichever comes first, on the engine block, head and internal parts; transmission case and internal parts (excluding manual clutch); torque converter, drive shaft, universal joints (excluding dust covers); rear axle and differential; and rear wheel bearings, provided the vehicle has been serviced at reasonable intervals according to the Plymouth-Vauxhall Certified Car Care schedules.

Many growers are failing to get top profits because of Chlorine Injury, Magnesium Deficiency or Available Nitrogen Shortage

The PROFIT you make determines your best buy in tobacco fertilizer.

MAKE EXTRA PROFITS WITH RICHMOND'S XL TOBACCO FERTILIZER

Formulated on findings of the latest report of the Tobacco Workers Conference

CHLORINE INJURY

Excessive Chlorine in tobacco produces low quality, thick, brittle leaves. The result is low fire-holding capacity and poor smoking flavor. This means low prices and low profits for the grower. Richmond's XL TOBACCO FERTILIZER is ideal for fertilizing tobacco because the Chlorine content is very low. Don't risk your crop with Chlorine injury.

MAGNESIUM DEFICIENCY

A serious Magnesium deficiency like this costs tobacco growers thousands of dollars each year because of low yields, poor leaf quality and lower market prices. Symptoms show first on tips of older leaves and then move toward stem ends. Richmond's XL TOBACCO FERTILIZER with its high Magnesium content is the best way to avoid this deficiency.

NITROGEN SHORTAGE

Available Nitrogen is generally more difficult to control within desired limits than the other plant foods. A Nitrogen shortage will result in low yield and poor quality as shown here. The Nitrogen supply must be controlled to produce a desirable leaf. The best way to get "controlled" nitrogen is with Richmond's XL TOBACCO FERTILIZER.

XL TOBACCO FERTILIZER
