

Teenage Chat

By Betty Wrenn

Do any of you remember the problem involving the car traveling 100 miles per hour? Well, I finally got the book "Kings of the Road." The car that overtook the one going 100 mph was a Mercedes-Benz. Eight cylinders, 646-horsepower, and something over 200 mph speed. It weighed half a ton less than the ordinary sedan. No matter how you say it, it was a swift little car.

The seniors of LHS would like to thank you all for coming to see our play "The Little Dog Laughed". The comments that I have heard were that it was a very good play. Everyone seemed to enjoy themselves and if their laughter was any sign that they were having a good time,

County Agent Dept.

Is A Beautiful Lawn, Your Dream?

Is a beautiful lawn your dream? According to John H. Harris, in Charge Extensor Horticulture at N. C. State College, you've got to do more than dream. Here are five steps to that thick, smooth, rug-like lawn that you've always wanted.

1. Be sure you are growing an adapted grass. Don't expect some northern mixture to compete and choke out our native grasses. We have available for you the "Carolina Lawn" bulletin. It will suggest which grass you ought to use.
2. Lime and fertilize correctly. A soil test will tell you how much lime to use. In most cases use about 20 pounds of 8-8-8 fertilizer to each 1,000 square feet. One, two, or even three applications may be necessary. For the second or third application, nitrogen may be substituted for the 8-8-8. The more trees you have, the more you will need to feed.
3. Mow often and at the right height. Cut tall Fescue and Bluegrass about 2 1/2 inches high. Bermuda, Centipede, Zoysia, and other creeping grass around one inch.
4. Control weeds by having a thick sod of adapted grass. To kill any weeds or wild onions that still persist, spray with 2, 4-D. Repeated applications will be necessary to get the onions.
5. If crabgrass bothers you, use a pre-emergence material immediately. Dacthal, Zytren, and Trifluralin give good con-

trol. Apply before crabgrass seed start germinating (about corn planting time). These materials kill the germinating seed and do not harm the existing sod.

Good Stand, Poor Stand

Bottom half of picture shows a good stand of adapted grass properly fertilized and cared for. Notice wild onions and poor stand. Top half of picture shows...

Miss Suarez Speaks At WSCS Meeting

Franklinton (B.W.) - Alicia Suarez, a student at Louisville College and a native of Chile, spoke to the Woman's Society of Christian Service at the Franklinton Methodist Church Wednesday evening.

Introduced by Mr. C. Ray Pruette, Miss Suarez described geographically, economically and socially her native country. She played her accordion and showed pictures of her family and country.

Mrs. L. A. Thompson, Sr. opened the meeting with a poem. Special music was rendered by Mrs. Richard Whitfield, soloist, accompanied by Mrs. Bruce Honeycutt.

Mrs. Robert Fisher was in charge of the devotional and Miss Edith Jackson, the program.

Scouts

Troop 520, Boy Scouts of America which is sponsored by the Bunn Baptist Church received their Charter at the morning worship service on March 24, 1963. Mr. Thomas Wainwright of Raleigh and representative of the Great Saponi District presented the charter.

Mrs. H.L. King Entertains

Mrs. H. L. King entertained her "bridge club" last Tuesday night at the home of Mrs. Dwight M. Hinton.

Members playing were Messdames A. H. Spencer, Jr., Fred Johnson, D. R. Saunders, A. F. Johnson, Jr., Clay McBride, H. L. King and Dwight Hinton, and Mrs. George Champion, Jr., a guest.

High score-prize for the evening went to Mrs. Spencer, with Mrs. McBride receiving low. Candy, potato chips and Cokes were served during play, with a dessert course being served at the conclusion.

Bathrooms H. D. Topic

Epsom Home Demonstration club met last Thursday in the home of Mrs. Wesley Pendergrass with the president Mrs. W. D. Foster, presiding.

After an opening song by the group and a devotional by Mrs. W. D. Ayscue, the club paused to pay tribute to Mrs. P. A. Duke, recently deceased, who was one of the most faithful members.

The month's lesson was presented by Mrs. Frances Fuller, county agent; Mrs. Fuller discussed ways of renovating old bathrooms and planning them to suit the needs of both young and old in the family.

Committee reports were made as follows: Mrs. W. J. Bowen showed pictures of a remodel-

ed home and discussed placing the hat-making workshop and furniture; Mrs. Susie Moss, Gardening, told the proprietors to plant different vegetables and how to use hot caps for the early plants; Mrs. B. M. Newman announced that it is time to prune roses if the job has not already been done; Miss Margaret Alston, Education, said it is not good when people let TV take the place of reading.

Mrs. Pendergrass reported on the hat-making workshop and called attention to the sixteen handmade hats on display that were brought by club members.

The district meeting scheduled to be held in Louisville on April 17 was discussed. At the conclusion of the meeting, a contest was conducted by Mrs. B. L. Rowland. The hostess served Waldorf pie, lemonade to twenty-one members and several visitors.

Drapery Workshop Will Be Held Friday

A drapery workshop will be held Friday, April 5 at Mrs. Betty Burnette's Remnant Shop near Sandy Creek. This will be an all day meeting, beginning at 9:30 and ending around 4:00 P.M.

Miss Charlotte Womble, Extension Specialist in House Furnishings, from State College, will conduct the workshop. She will show how to measure, cut and make a short sample drapery. Anyone interested in attending the workshop will need to bring a 1 yard piece of drapery fabric (you can purchase this very inexpensively at remnant shops), lining for the drapery, enough 3 inch or 4 inch crinoline for the width of the fabric being used, pins, thread, needles, scissors, tape-line, yard stick, and any other small sewing equipment you normally use in sewing. If you have a card table, please bring also. Those attending the workshop will take their lunch also.

Menus

Youngsville April 3-5

Wednesday - Weiners & Chili, Hot Pork and Beans, Turnip Greens, Cookies, Hot Roll, 1/2 Pt. Milk.

Thursday - Tuna Salad, Green Peas, Pineapple Fruit Cup, Crackers, Hot Roll and Butter, 1/2 Pt. Milk.

Why People Are Moving to First-Citizens Bank:

"All this and credit standing, too!"

-a customer (right) tells Lewis R. Holding, President of First-Citizens Bank.

You're interested in a loan?
Yes, I've heard one of the best ways to establish one's credit is to make a bank loan and then pay it back promptly.
Well, that's one way to do it. But we think there are two better ways: one is to open a First-Citizens savings account and make regular deposits. The other is to have a First-Citizens checking account. Your checking account balance can often be an extra asset for you when you need to borrow.
Suppose I open both—a savings and checking account? You'll have the finest banking relationship possible. We'll appreciate your business and be happy to serve as your credit reference at any time.
All this and credit standing, too! Where do I open my accounts?
You can do it at any First-Citizens office.
Get more out of banking. Move your account to First-Citizens Bank!

Wade Rain Makes the Difference

YOUR PROFIT
Depends
on
Lower COST

Big production means extra profits... yet the farmer who does not watch cost may grow a beautiful crop—with NO PROFIT! In Irrigation, WADE RAIN is the way to control production cost... saves expensive irrigation manpower, water and other charges... assures you top yields... INSURES your profit!

WADE RAIN
has Self-Draining "Loks-In" Gasket
Gasket automatically drains pipe when pressure is off... No holes to weathle pipe! No lifting pipes full of water.
