### Part Five

## Louisburg: Its Neighborhoods Physical And Social Conditions

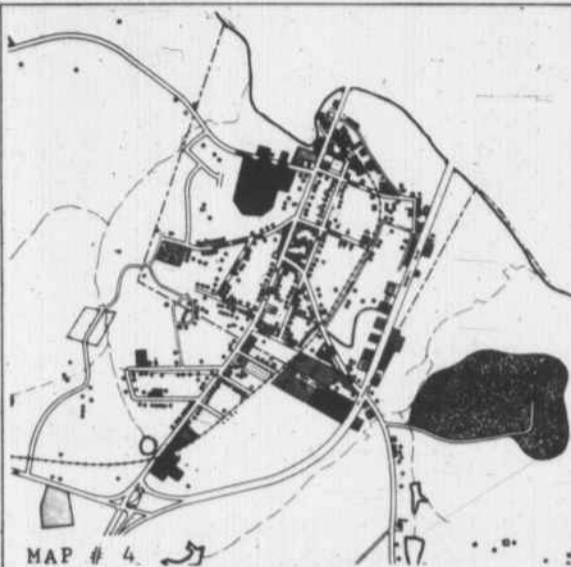

Area II is located south of the Tar River, the eastern boundary being the Town limits, the southern boundary being N. C. Highway 56, and the western limit being County Road 1226.

Area II is the older of the two areas. In the past ten years, the only growth within Area II has occurred along the major streets in the forms of businesses and light industrial activities. Approximately 64% of the 449 acres of land within the area is unused, houses and streets make up the largest percentage of the land in use, and industrial, social and cultural, and business uses employ small amounts of land.

There is some mixing of land uses within Area II resulting in inefficient land use. For instance, Riverside High School is almost surrounded by commercial and industrial activity, accompanied by noise, odor, dust, traffic, and poor access to the school which are evident problems for the children.

External structural conditions in Area II consist of a general spread of poor conditions, the need for minor and major repairs throughout. The housing situation is serious while the churches and service stations need minor repairs if any. Overall conditions range from fair to poor. Only 43% of all the structures are in good condition. One out of every three structures needs minor repair. The remaining 21% require expensive repair or demolition. It is evident that Area II is in much worse condition than Area I.

Examination of the social conditions of Area II indicates existing problems of equal or greater magnitude than those of Area I. An overabundance of welfare cases, fire calls, etc. are clustered in particular sections of Area II—the 1,000 block of South Main Street, Perry Street-Kenmore Street section, Mineral Springs Road, and Bunn Road. Thus, after comparing the social conditions with the structural conditions, we are able to recognize the correlation between substandard physical conditions and social problems.

## Church Breaks Ground For Ed. Building

(Frk. B.W.) On Sunday morning, November 17, the congregation of Franklinton Methodist Church held groundbreaking services for a new Educational Building.

The new building, designed by Charles W. Davis, Architect, is to be located behind the present church building, and will consist of four classrooms, a fellowship hall which can be converted into four additional classrooms, and kitchen. The structure is to be of masonry and brick-veneer and the cost of construction is to be approximately \$36,000.00, excluding any furnishings.

Members of the Building Committee are: T. N. Stephens, A. R. Wheeler, Mrs. Woodrow Haskins, G. L. Appleford, T. Sidney Johnson, Dr. R. C. Whitfield, and the Pastor, Rev. Lawrence Bridges.

## Alarms

Two fire alarms and a rescue call kept the local populace pretty well shook up here Saturday, but there were no very serious consequences.

A rescue call about 3 p.m. Saturday set things in motion. This was followed by a fire alarm in the Mineral Springs section just after sundown and a slight fire in the shop at Associated Motors in Pruitt Town blasted the calm about an hour later.

Both of the fires were extinguished with very little if any damage resulting.

## Christmas Seal Drive Underway

The annual Christmas Seal campaign in Franklin County will receive its traditional sendoff Friday, November 15, with the general mailing of Christmas Seals to residents. Proceeds of the campaign will be used by the Franklin County Tuberculosis Association to combat tuberculosis and other respiratory diseases.

Rev. Aubrey S. Tomlinson, Christmas Seal Chairman, said that millions of lives have been saved since the first contribution was made for a Christmas Seal. "But the saving of lives is not enough," he added. "We are also continuing to wage a relentless fight against the suffering, tragedy, loss of time and money that result from TB and other diseases that affect breathing. Many of these other respiratory diseases are not only gravely harmful to themselves, but increase susceptibility to TB."

Figure released by the United States Public Health Service show that RD (Respiratory Diseases) ranks first among diseases in the country.

## In Accident

Mrs. Lucy Taylor Bell, daughter of Mr. and Mrs. Jonah C. Taylor of Louisburg, was taken to Franklin Memorial Hospital by the Louisburg Rescue Service after her car ran off the road on U. S. 401 between Louisburg and Royal about 8:15 this morning.

Mrs. Bell was reportedly enroute to Raleigh at the time of the accident. Her injuries were not believed serious.

ablers of people and fourth among causes of death. Mr. Tomlinson said, "We must expand our effort to find hidden cases of RD, including tuberculosis, in this community. One of our goals is to alert every person to the fact that chronic cough and shortness of breath, most common symptoms of RD, may indicate the presence of a serious ailment and require the advice of a physician. He must also put more money into medical research to find better ways of fighting TB and other respiratory diseases."

## Raleigh Atty To Speak To Citizens Here

Armistead Maupin, noted Raleigh attorney, director and one of the originators of the Citizens for Preservation of Constitutional Government of Raleigh, will be the guest speaker at a meeting of the Franklin County Chapter, Citizens for Preservation of Constitutional Government at the Court House here Friday night at 8 p.m. Maupin was the introductory speaker for the Dean Manion speech in Raleigh some time back that received more widespread recognition.

Chapter President T. H. Pearce said that the Franklin County organization was extending an invitation to the public to attend the meeting.

### Closing Wednesday

# Leaf Market Tops 11 Million In Sales

The Louisburg Tobacco Market, with sales already totaling 11 million pounds, will hold its final sale of the 1963 season Wednesday.

Sales through Monday totaled 11,122,310 pounds—well above last year's record 10 1/2 million pounds and with Tuesday's and Wednesday's sales totals expected to near 11 1/2 million pounds.

Rev. V. E. Duncan

## Rev. Duncan To Head Dimes Drive

Rev. V. E. Duncan, Louisburg, N. C., will serve as Franklin County Director of the 1964 March of Dimes, Wendell H. Eysenbach, State Volunteer Director, announced today.

Rev. Duncan, who directed the 1962 March of Dimes and increased receipts fivefold over the previous year, will again direct volunteers during the forthcoming January 2-31 annual campaign in the county to raise funds for medical care of those afflicted with birth defects or arthritis, and to support research into the cause and cure of these crippling conditions.

In announcing the appointment, Mr. Eysenbach said, "I know very well that under the inspiring leadership of Rev. Duncan the people of Franklin County will give generously again to support the March of Dimes scientific assault on these crippling diseases. In deciding the amount to give, all of us must also be mindful of the continuing needs of thousands stricken in other years by paralytic polio."

Rev. Duncan, who is a retired Baptist Minister, is a former Chairman of the Franklin County Chapter of The National Foundation. During the past four years he has assisted the Baptist State Convention in promotional campaigns, and he has worked 8 1/2 years as a field worker for the Tar River Baptist Association in Louisburg.

In accepting the directorship Rev. Duncan said, "In our 1962 campaign and in '63 we counted heavily on our in-school program which is now curtailed. It will be necessary for other solicitation programs to be expanded to make up this loss, but we are confident it will be done since the needs are great."

## Nabbed At Still

A Franklin County man, Calvin Albert Spivey, was arraigned here Monday on charges resulting from a liquor still raid by federal agents during the week end.

Agents said they arrested Spivey, 36, at a 60-gallon pot type still behind his home on Rt. 4, Louisburg. The still and 40 gallons of mash were destroyed. No liquor was seized. Spivey was released under \$500 bond after being arraigned before U. S. Commissioner Reva Rothrock of Raleigh.

Poorer quality offerings, however, dropped the 1963 crop sales average to \$54.54 from \$60.12 the year before.

Local market observers had predicted at the beginning of the season that the market here would do well to sell 8 million pounds in view of the generally poor growing season and short crop expectations.

That the crop was off in both quality and weight in this area was pretty well evidenced as sales got underway. What hadn't been figured on, however, was an estimated 3 to 4 million pounds of so-called "eastern tobacco" that was brought in and sold on the local market.

Markets east of here were so flooded with leaf that growers were forced to look elsewhere for a market. Chances are that while conditions next year may allow them to sell on markets closer to them, a good number of the eastern growers will be back as a result of more personal considerations as well as prices received on the Louisburg market.

Whatever the reasons were—and there were bound to be several, the results combined to set another recent history sales record for the Louisburg Tobacco Market, and at a time, too, when a great majority of the markets were having troubles meeting their 1962 season sales marks.

## Soil, Water Supervisor Vote Slated

Pursuant to North Carolina General Statute 139-6, as amended by Chapter 815 of the 1963 Session Laws, an election will be held in Franklin County on December 6, 1963, to elect one supervisor for the Franklin Soil and Water Conservation District for a three-year term beginning January 1, 1964. All qualified voters residing in the county will be eligible to vote in this election. Candidates for this office are J. T. Moss, Youngsville, N. C., and Al DePorter, Youngsville, N. C. Polling places will be located at:

- Puckett's Store, Highway 39, Louisburg, N. C.
- The Agriculture Building, Louisburg, N. C.
- L. S. Ward's Store, Center, N. C.
- Kirby Parrish's Store, Route 2, Louisburg, N. C.
- Woodleaf Supply Company, Youngsville, N. C.
- Duke's Service Station, Epsom, N. C.

### Receives Award

## Route 4 Farmer Arrested In Raid

A Route 4, Louisburg man, G. C. (Big Man) Bartholomew, was arrested Friday after revenuers found a still and a large quantity of booze making equipment on his farm about 5 miles east of Louisburg.

All of the equipment was reportedly found in outbuildings on the farm. One contained a 50 gallon, gas fired, copper pot type still, a 30 gallon double barrel and a 50 gallon cooler barrel along with a copper coil and condenser. The still was fired by a four burner gas heater. Three cylinders of bottled gas were also found in one of the outbuildings. All of the equipment and material was destroyed.

A spokesman for the raiding party said that the set up was evidently used for the production of apple brandy as some 13 fifty-five gallon barrels of cider were on hand as were fourteen empty barrels. Six of the barrels of cider were found in a tobacco barn which was

equipped with a false plastic ceiling used to keep the heat down near the barrels. Temperature in the barn was set at 95 degrees, apparently in an attempt to insure quicker fermentation of the cider.

Bartholomew was taken to Raleigh where he waived hearing before U. S. Commissioner Reva Rothrock and was released under \$1,000 bond.

Agents from the Henderson ATTD office were in charge of the raid, assisted by Vance County ABC Officers and Franklin Sheriff's deputies.
