

Bulldogs Win Opener On Geddie, Nash Combo

The Louisburg High School Bulldogs, relying on the trusty arm of Quarterback Jimmy Geddie and the receiving end of Terry Nash, made good their extra-point attempt at the close of the first half Friday night to down the Spring Hope Raiders, 7-6. The win places Louisburg in a tie for first place in the Nash-Wake-Edgecombe Conference.

A fumble by the Bulldogs early in the second period set up the Raider touchdown. Tri-Captain John May, 5'11", 167-pound senior halfback, ran the ball over on a sweep around left end from 35 yards out to place Spring Hope out in front in the game. An attempt to kick the extra point failed.

A pass from Geddie to Nash on the first play after the Spring Hope kickoff was for around forty yards, moving the ball to the Spring Hope 15 yard line. Halfback Billy Fuller, after having a Geddie pass fall short on first down, moved the ball to the Raider nine on second down.

A Geddie-to-Nash pass picked up the first down on the Spring Hope five. C. B. Patterson, Bulldog fullback, moved to the four on first down and to the two on a plunge over center on second down. Billy Fuller carried the ball to the Spring Hope one yard line, making it fourth and a yard to go for the score. Geddie took the ball into the end zone for the six points on a quarterback sneak as the first

half ended. On the extra-point try, Halfback Jimmy Chesson fell back in kicking position while Geddie faked and threw to Nash in the end zone for the winning margin.

Highlight of the third period was a pass from Geddie to Nash, good for thirty yards. Spring Hope moved to the Louisburg 45 yard line with a first down as the period ended.

A Bulldog drive was halted in the fourth period at the Louisburg 38 yard line. Chesson kicked to the Spring Hope 30 where C. B. Patterson made a bruising tackle on John May on the spot. The Raiders missed on three pass plays and faked a kick for a fourth down pass attempt which fell short.

The Bulldogs took over possession of the ball on the Spring Hope 30 yard line as the game ended.

"Defensive play by Nash and Buddy Stewart late in the game made the difference," said Coach Ivie Bolton after the game. "This was strictly a team effort, however, both on offense and defense all the way. I am real pleased with the showing of the boys."

The line play of the Bulldogs was outstanding for a first game. Center Mike Carter, Guards Howard Stallings, Jr., and Charles Toney, along with Tackles Billy Fuller and Buddy Stewart, made outstanding contributions to the opening game win. Jimmy (Crow) Patterson

played well. Probably the most outstanding and surprising performances came from sophomore Quarterback Jim Geddie, a six-foot, 150 pounder, and Terry Nash, 5'11", 150 pound junior, playing left end.

A number of Louisburg fans were in attendance and many veteran team supporters commented on the passing game of the Bulldogs, something which has been lacking in past years.

The Bulldogs play Norlina, home school of Coach Ivie Bolton, here next Friday night in a non-conference tilt.

Spring Hope 0 6 0 0 6

Bulldog On His Back

Louisburg's Mike Carter (No. 54) is shown above riding pass from Jimmy Geddie to Spring Hope's John May to the Terry Nash in the second period in Friday's game at Spring Hope. The Bulldogs won the game 7-6 on an extra point.

Star In Spring Hope Win

Three Bulldogs shown above were cited for their performances in last week's win over the Spring Hope Raiders. Jimmy Geddie (11) scored the touchdown and threw the extra point pass to Terry Nash (47). Coach Ivie Bolton said the game was a team effort and made special mention of the defensive play of Nash and Buddy Stewart (56).

A Traveling Check
Manitou Beach, Mich. -- Four months after a windstorm destroyed Mrs. Elta Stoddard's home, she received a check in the mail that had vanished in the storm. Mrs. William Campbell, who lives in Alvinston, Ontario, Canada, 175 miles away, found the check in her yard.

Honest Prisoner
La Spezia, Italy -- A prisoner found a diamond in the prison yard and turned it over to the warden. It had been lost by a woman member of a welfare committee. He received a reward and a note that read: "It is nice to know that honest men can be found even in prison."

Orphanage Topples Rams

Defending champions of the Nash-Wake-Edgecombe Conference, Oxford Orphanage, walloped the Franklinton Rams last Friday night, 39-6. The Red Devils, favored to repeat as champs again this year, scored in every period.

Quarterback Tommy Cooke passed to End Don Morton in the first quarter for the only Franklinton tally. The play was good for 75 yards. Except for this scoring play, the Rams were never able to penetrate the Orphanage's 45 yard line.

The Red Devil bantam quarterback, Laurie Debose, 147-pound speedster, accounted for two touchdowns on runs of 9 and 35 yards and passed to End Robert Bass, 5'9" sophomore, for a third tally.

Halfback Richard Gordon, 5'6" Red Devil senior, scored two touchdowns on runs of three and 29 yards.

The Rams' Cooke and the Orphanage's Debose, both quarterbacks, are among the smallest players in the conference. Cooke weighs 123 pounds.

This was the second loss in a row for Franklinton. They were defeated in the opener by Helena, 8-0. Oxford was heavily

ly favored in last Friday's game after they defeated South Granville, 19-0.

The Rams play Four Oaks in a non-conference tilt at Franklinton Friday night. The Cardinals of Four Oaks beat Benson

15-9 in their opener two weeks ago and held Clayton to a 12-12 tie last Friday night.

WHY DOGS LIVE LONGER
By Dr. Phillip M. Hinz, Director
Friskies Pet Foods Research Center

You may wonder why a dog's life is short. Sir Walter Scott thought it was out of compassion for the human race. "If we suffer so much in losing a dog after an acquaintance of ten or twelve years, what would it be if they lived double the time?"

The experts, however, list five factors that have been proved to contribute to canine longevity.

Since longevity is inherited, you can definitely breed long life into dogs by selecting stock with that fixed characteristic to breed from.

Second is scientific feeding. Today, thanks to prepared dog foods developed after years of nutrition research by such manufacturers as Friskies, our pets get complete, well-balanced diets which contribute to health and longevity.

Third is sanitation and disease control. It's vitally important to become acquainted

with a good veterinarian as soon as you get your pet. He'll not only practice preventive medicine by seeing that your dog has the needed shots, but he'll also be able to care for your pet when sick.

Of equal importance is the prevention and control of external and internal parasites.

Fourth is training. A well-trained dog is less apt to chase cars, wander off or accept food from strangers—thereby standing less chance of being hit by a car, lost or poisoned than an untrained dog.

Fifth is proper equipment. This means a well-constructed and easily-cleaned dog house or an indoor bed that's easily cleaned, a thermometer, brush,

and nail clippers and all the rest of the items needed to keep a dog clean and in good physical condition.

Dog Gets Estate
Painesville, Ohio -- Eighteen cousins are trying to break the will of Mrs. Edith Hagenburger who left her estate of \$119,000 to a neighbor for the care of her pet dog. The neighbor will get the remainder of the estate upon the dog's death.

So Sorry

Minister: "Ah, good morning Mrs. Brown. I see you are taking a tramp into the country."

Mrs. Brown: "A tramp indeed! I'll have you know this is my husband."

Just Sew

Mrs. Jane--Is Mrs. Smith an active member of the Women's Sewing Club?

Mrs. Sofie--My, no. She never has a word to say. She just sits there and sews.

Voice Of Experience

"My" wife always lets me have the last word," exulted the husband of two months.

"Huh!" snorted a seasoned oddtimer; "just wait until you run out of compliments, young fellow!"

Competition

"I suppose the little wife will win all the arguments in your house?"

"No, she'll win half of them."

"Oh, you expect to win the other half?"

"No; but my mother-in-law will."

Sounds True

The economically-minded young bride was about to have her first baby. She phoned her husband, then frugally took a bus to the hospital reaching the entrance just in time to meet her husband arriving—in a taxi.

Everybody benefits

when food
is fresher...
more
plentiful

thanks to America's
Rural Electrics

Rural power is a wellspring of America's food abundance.

Thanks to his consumer-owned rural electric system, America's farmer does his work faster and more efficiently.

Electricity helps him feed and water more cattle and hogs, hatch and care for more chickens, milk more cows. It lights his barns, cools milk and cream, and keeps food fresh and safe. The end result is fresher, healthier food on your table. And it takes less of your family budget than ever before.

Consumer-owned rural electric systems—in most cases cooperatives—help guarantee that America's farmers will be able to meet all of this nation's growing demands for food. These rural electrics were built with the help of Rural Electrification Administration loans—and they are owned and directed by the people they serve.

As farmers use more and more electricity to produce more and better food, REA loans continue to help the rural electrics keep pace with the growing demand—and everybody benefits.
