Film Revue

The Bible, taken from the first 22 chapters of Genesis, has some good points but must be taken with a very large grain of salt (so to speak).

Director John Houston portrays Noah and other portrayals are given by Stephen Boyd, George C. Scott, Ava Gardner and Peter O'Toole.

The almost three-hour spectacular has many good scenes in the story from the creation to the inspirational story of Abraham and Sarah, but some detailed scenes (such as the Ark) stretch the imagination as to authenticity.
