13% of Franklin County

farm operators have not re-ported their planted acreage

of various crops at the Coun-

ty Office. July 1, IS THE FINAL DATE for making

crop acreage reports. If a re-port is not filed by the dead-

line, the farm will not be

eligible for price support on tobacco and diversion and

price support payments on cotton and feed ggrain. Every

operator should report his

acreage as soon as possible in

order that final wheat, cot-

ton, and feed grain payments

can be made as soon as the

county office is authorized to

(Continued from Page 1) ficial and arrived at in an unan-nounced meeting, further action must be taken by both boards in regular or special sessions. A number of people have expressed opposition to the purchase of new land and at least one report has been circulated that an injunction against the action by some private individuals might

The tangle started some time ago when the School Board requested the County Commissioners to transfer title to land on the county hill complex in order that a Methods and Material Center might be erected at no cost to the county. The Commissioners twice refused to act on the request and finally voted 3-2 against the idea, those opposed saying the new building would "ruin the looks of the hill".

The federal government is requiring the Board of Education to obligate the funds not later than August 31 and time was about to run out on the project when the Thursday meeting was called. Commissioners Richard Cash and Brooks Young voted in favor of the School Board location. Commis sioners Norwood Faulkner, E. M. Sykes and George Harris, who was not present in Thursday's meeting, voted against the location.

The three opponents of the move contacted tha land owner last week and were later told that only this particular tract was for sale. Supt. Smith reports that his proposal to state officials on Friday was well received. However, action is not expected until late this week by the State Board of Education.

Owen R. Edwards, Rt. 3, Louisburg is shown above with trophy he won in the first annual Trap and Skeet Range Shoot at Coats, N. C. Sunday. Edwards, a member of the Amateur Trap Shooters Association, won over-all top score and also copped the Class B prize. He used a Browning Pigeon Grade Broadway Trap gun. Phot by Clint Fuller.

Workshop

The tour was under the direction of Dr. Morris S. Davis, president and director of the Triangle Universities Computation Center and adjunct professor at Duke University, University of North Carolina, and North Carolina

State University.

The purpose of the North Carolina Computer Orientation Project is to extend the services of the Triangle Universities Computation Center to other colleges in North Carolina. It is supported by grants from private foundations and businesses and is sponsor-ed by the North Carolina Board of Higher Education.

The first workship was held in 1967; around thirty colleges were represented in the 1968 workshop.

LEAGUE STANDINGS	Won	Lost
Bunn Lions	4	0
First Citizens	1	1

Cooper Insurance	1	2
Louisburg Sportswear	0	. 3

As the season progresses, mis-

takes will diminish and Bunn

should find it somewhat diffi-

cult to stay on top. For sure,

Bunn Downs

Sportswear

Although out-hit by 9 to 11, Bunn managed to defeat Louisburg Sportswear by a 12 to 9 score Thursday. Num-erous fielding errors by the Sportswear team was the dif-

erence in this Louisburg Rotary Little League game.

Leading at the bat for Bunn were Alford with three for four (including a double)

and Galloway with two for four (including a home run). For Sportswear leading hitters were Brodie with two for four, Beckham with two for

two, Ihrie with two for four

(including a triple), Winn with three for four (including

a triple), and Sledge with two for three. The winning pitch-er was Alford; pitching for the losers were Winn and Bro-

BEAUTY **AND YOU**

EVELYN PERRY

The phrase "Gentlemen Prefer Blondes" has been used as a rule of thumb for centuries. It is not necessarily true one hundred percent of the time, but we would be remiss

it has had no influence on us. Back in the heyday of the Roman Empire it is said that women scoured the woods and countryside for the sap of the willow tree because when applied to the hair it tended to lighten it.

in our thinking if we assumed that

A nineteenth century publication promoted a hair lightening formula that consisted of the use of many different herbs, roots, and even lye. When cooked in a large stew pot and applied to the hair, this formula was supposed to lighten the hair.

Today, of course, changing hair color has become an exact

science and obviously the modern day end result is flattering, safe, and does much to enhance the beauty of every gal.
