About Your Home

In most sections of the U.S.A. the gardens are in a very unattractive stage. How ever, in order to be happier over next spring and sum-mer's/results, now is the time to put in some hard work and planning

Make a compost pit, which is very easy and an important "must" for impoverished soils. Simply dig a pit one to three feet deep and five or six feet in diameter, depending on the amount of compost needed. Arrange alternating layers of leaves, weeds, stalks and manure. Add to this a quart or so of a good com-merical fertilizer. Mojsten and turn frequently. Allow

thorough decomposition. Start new beds at this time by incorporating manure and bone meal deep in the soil and allowing the soil to re-main turned until spring. Also, put wood ashes on beds to be dug under next spring. Perennial borders should be mulched after the ground is frozen or very, very cold. Some reliable mulches are buckwheat hulls, leafmold

and peat moss In many parts of the coun try it is, or soon will be, rose planting time. Good plants must be chosen in the first, place to have rewarding blooms. Remember, not all varieties are equally hardy. Select the varieties which experts have found can stand your climate. Good, strong varieties are not often bothered by insects or diseases. Be sure to choose prolific bloomers because they are just as easy to grow as the shy varieties, and a lot more fun. Consider the kind of foliage the plant has. Look for good, sturdy stems and thick, shiny leaves.

and preciously easy to prepare. * Its hearty full flavor, so appreciated by the men of the house, takes no extra effort if well seasoned foods like canned corned beef, are used. More and more women are discovering the ver-satility and flavorfulness of canned corned beef, a lean, all-meat product that is as handy as your kitchen shelf. The tasty meat filling calls for only three ingredients: catsup, softened butter and canned corned beef, which are spread on a bun and broiled for a few quick minutes until they are sizzling hot. Top with a slice of onion for a delicious finishing touch.
