**Tips about apples!**

Now...right now, is the time to buy apples. Right now at A&P, apples are at their best. Here are some apple buying and handling tips:

**SELECT APPLES THAT ARE FIRM**, particularly the larger sizes. Big apples tend to mature more rapidly, and when soft, usually have a mealy texture.

**REFRIGERATE YOUR APPLES.** Warm temperatures cause apples to lose their crispness and tangy flavor.

**QUICK PEELING TIP:** If you are going to cook apples, dip them quickly in and out of boiling water. The skin will come off much more readily.

**TO PREVENT DISCOLORATION OF PEELED APPLES,** place slices in a pan of cold water. Add a pinch of salt for each whole apple peeled.

**LEAKING PIES:** Sprinkle salt on spilled juice from pies in a hot oven. The juice will burn crisply, making it easier to remove.

**DISCOLORATION OF ALUMINUM UTENSILS** can be removed by boiling a number of apple peelings in the utensil.

**THE BEST TIP OF ALL:** Don't miss the wonderful selection, the great apple values A&P has right now.
