# vision has made America great

Men of vision and dedicated people have made America the industrial, manufacturing, and retailing leader of the world.

Take our founder as an example.

More than a century ago, he envisioned a new concept of efficient, low-cost mass food distribution. This concept set the stage for the development of today's modern A&P and for today's entire food retailing industry.

Similar vision characterizes the current management of A&P:

Men who recognize the cost-saving potential of computerized warehousing and ordering.

Men who are applying practical automation to manufacturing facilities.

Men who are relocating distribution centers to take advantage of modern transportation and roads.

Men who are constantly on the lookout for better, more efficient methods of food handling.

Men who are, as always, dedicated to the basic concept of our founder: TO BRING THE MOST GOOD FOOD, TO THE MOST PEOPLE, FOR THE LEAST AMOUNT OF MONEY.
