

New Officers Of AENCC

New Officers: Shown here are the new officers of the Association of Eastern North Carolina Colleges who were elected at a meeting Tuesday night at Wesleyan College. Left to right, Dr. Willard J. Blanchard, secretary and president of Southwood College; Dr. Arthur D. Wenger, president and also president of Atlantic Christian College; and Dr. Cecil W. Robbins, vice president, and president of Louisburg Junior College.

Dr. Robbins Elected Vice Pres.

Rocky Mount-Election of new officers highlighted the annual board of directors meeting of the Association of Eastern North Carolina Colleges held Tuesday afternoon at N. C. Wesleyan College with Dr. Thomas A. Collins as host president.

New officers are: president, Dr. Arthur D. Wenger, president of Atlantic Christian College in Wilson; vice president, Dr. Cecil W. Robbins, Louisburg College, Louisburg, and secretary, Dr. Willard J. Blanchard, president of Southwood College, Salem, N. C.

Salem, N. C.

Dr. E. Bruce Heilman, president of Meredith College and Dr. Marion D. Thorpe, president of Elizabeth City State College were elected to serve on the executive committee for 1969-70, and Dr. Bruce E. Whitaker becomes an ex officio member.

Executive Director of the AENCC, Dr. J. Stuart Devlin, reported on programs and progress during the past year. Among the most successful of

In Service

ERNEST H. SMITH, JR.

A local Louisburg resident, Ernest Howard Smith, Jr., son of Mr. and Mrs. Ernest H. Smith, Sr., who reside in Louisburg, N. C., has enlisted in the Marine Corps 120 Day Delay Program and will leave for his recruit training at Parris Island, S. C. on August 6, 1969.

According to Sgt. Lester Speeks, the local Marine Corps Recruiter, Ernest will receive eight weeks of recruit training at Parris Island, then travel to Marine Corps Base at Camp LeJeune, N. C. where he will undergo four weeks of advanced training.

Upon completion of recruit training and advanced training, Ernest will return home on a 20 day leave. At this time he will also receive orders directing him to a formal school for further technical training or to one of the Marines many posts and stations to receive on the job training. More than 400 job specialties are available to Marines of today.

MILTON L. WILLIAMS

A local Louisburg resident, Milton L. Williams, son of Mr. and Mrs. Charlie C. Williams who reside at Route 2, Franklinton, N. C., is currently undergoing recruit training at Parris Island, S. C. Milton enlisted in the Marine Corps 120 Days Delay Program prior to reporting for recruit training.

According to Sgt. Lester Speeks, Jr., the local Marine Corps Recruiter, Private Williams will receive eight weeks of recruit training at Parris Island, then travel to the Marine Corps Base at Camp LeJeune, N. C. where he will receive four weeks of advanced training.

Upon completion of recruit training and advanced training, Private Williams will be allowed to return home on a 20 day leave. At this time he will also receive orders directing him to a formal school for further technical training or to one of the Corps many post and stations for on-the-job training. More than 400 job specialties are available to Marines.

these were the visiting scholar program, which brought ten distinguished guest speakers to the participating colleges.

A proposal for a new program of student teacher internship prior to entrance into the state certification program was made by Dr. Ralph James and Dr. Sim O. Wilde, both of the N. C. Wesleyan faculty.

Fifteen colleges were represented at the meeting which convened at 5:00 p.m.: Atlantic Christian, Louisburg, Southwood, Meredith, Elizabeth City, State, Fayetteville State, Methodist, East Carolina University, Shaw University, St. Augustine, Mt. Olive Jr. College, Wingate, Campbell, Chowan and N. C. Wesleyan.

SUMMER'S PATRIOT—American colors of red, white, and blue are used in bold strokes on this urbane ensemble of pure cotton. By Randazzo of Texas, the short cropped jacket tops a slim dress with waist-defining patent belt.

The myth of human equality fools no one but those who yearn to be fooled.

Our own experience is that time, when allowed to work, will solve many problems.

New York (NAPS) — Soon, city officials may picket the schools, instead of students picketing the city, unless more students choose a career in the water industry.

An estimated \$26 billion will be spent during the next five years to clean up American water, according to National Water Institute executive David L. Gallagher, and public works officials are looking for thousands of people to man the projects this multi-billion dollar sum represents.

Today, 85,000 Americans make a living in water pollution control, but 160,000 will be needed by 1972.

For every 90 gallons of water we'll need in 30 years, it looks now as if we'll have only 56 gallons readily available, unless a lot of ingenuity and skill is directed at finding the answer.

College and high school campuses are being searched by water men for talent. Engineers and liberal arts majors are being enticed by the prospect of good paychecks in an industry that is virtually recession-proof, and lately, full of challenge and promise.

Recruiters stress the social contribution that can be made and many stories go the rounds of talent willing to work for less money to experience the challenge and opportunity which public service provides.

How important are good water facilities to an urban renewal program? And where fresh water is short, how can dirty water be scrubbed clean to meet consumer demands of 5 gallons a day for showering, 27 gallons daily for a single load of wash—an average of 60 gallons per person per day.

Not only college graduates, but also high school graduates and even drop-outs are being asked to help find answers to these questions. Training is an important attraction to many recruits because it orients them to a new position and lays the base for future advancement. Government agencies and educational institutions conduct training programs, while in-plant and out-plant training sessions are offered by the

Picketing The Pupils - Our Water Crisis

industry.

Young men and women can advance much faster in the water industry than elsewhere to positions of responsibility and authority. Water utility plant operators are vitally needed now and in the immediate future. It is estimated that the need for such operators will double by 1980.

Overseas opportunities for American water people are likely to abound in the years ahead. Spin the globe, ten or 15 years from now, put your finger on any land area, and there may well be nearby an

American water expert—amply paid and attended by servants—helping government officials solve the problems that Americans are facing today.

Having been dug for, fought over, guzzled, mixed and squirted, water is taking on an increasingly popular use. During the years ahead, thousands of young people

today will carve out careers and contribute to America by finding ways to turn water into a beverage for others and gold for themselves.

There is no substitute for intelligence applied to whatever is before you. So use what you have.

People who think they are too smart to be governed by the laws of their land are overestimating their smartness.

Nixon's Food Packets

Washington — The Nixon administration will provide special food packets for some 45,000 needy mothers and children in a move to meet some of the problems found

by a Senate probe of hunger in the capital. The "food for health" packets' project in Washington will cost \$3 million.

Survives Fall

Bad Kreuznach, Germany — Staff Sgt. Carl E. Miller has survived a 3,000-foot fall at Hoppstadten Airfield when his parachutes failed to open. The 27-year-old paratrooper from Charleston, W. Va., a member of the 7th Army Parachute team, says he hopes his two broken ankles will soon heal so he can jump again.

Dubcek Replace

Prague — Gustav Husak, a tough pro-Moscow chief of the Slovak Communist branch, has replaced Alexander Dubcek as chief of the Czechoslovak Communist party. Dubcek's drive for more freedom brought Soviet tanks to Prague last August and because he refused to knuckle under Soviet dictates he was replaced.
