Take your home,
add a little more electric to get a lot more comfort,
and you've got

CONVERSIONALITY!

Conversionality's the thing. The thing for year-round comfort. All-electric comfort. Gentle, dependable comfort.

CP&L's "Conversionality Gal" knows a lot about it. A lot that will make your home a happier place to live.

Like electric heat's quiet operation. High efficiency. Low cost.

She can tell you how simple it is to convert your home to an electric heating and cooling system. About the ease of installation. Little space necessary. Things like that.

And at the same time, she can help you decide which of the five different electric heating systems is best suited for your home.

Arrange for an appointment with your "Conversionality Gal" today. Just give her a call at your CP&L office.

People, Spots In The News

SUMMER PLUMBING: Residential air conditioning evaporator coils are brazed as Borg-Warner's York (Pa.) division readies for expected industry rise of 20 per cent.

REEL HELP: A. Philip Randolph (right) and Theodore Kheel inspect entry in Job Film Fair, for films on job training for un-advantaged.

POCKETFUL of puppy: War "orphan" peers alertly from back pocket of Marine at Dong Ha Air Base in Vietnam.

BOTH UMPIRES called this play at second, but oppositely! Call of John Kibler (left) prevailed as he was the assigned second-base ump. Ed Vargo, first-base ump, had been covering because Kibler had raced to center field to watch possible catch of what became a pop-up base hit. Looks like Ballet de Baseball, eh?

It is too bad that today sincerity is such a rare virtue.

The individual who expects the world to conform to his or her ideas is doomed to disappointment.

Lost Apartment

Phoenix, Ariz. - Charles Rowland, new in Phoenix, found an apartment he liked, paid a months rent and left without noting the address. The next day he realized he didn't have the address and drove for 14 hours without finding it. Finally he put an ad in the paper—the manager saw the ad and called.

BIRD Colors FOR ROOFS

BIRD Master-Bill SHINGLES

They're color styled for today's roofs
TAKE A TIP

BE COLOR COOL!

— in tropical climates white is right; clothes are white, houses too. Lighter colors reflect rather than absorb the sun's burning glare. Today, home-owners everywhere are choosing Bird Master-Bills for practical, long-lasting comfort.

BE COLOR CONSCIOUS!

— modern home-styling calls for a color tie-in between roofs and sidewalls... between roofs and interiors. Colors with "eye appeal"; colors that spell sunshine on duller days and give your home an ultra-modern distinctiveness.

We'll be happy to show you samples of these perma-colored shingles and explain further why a Bird Double-Coverage Master-Bill roof is the right roof. Call us, or write us... Today!
