Easy Preserves from Fresh Figs

Figs abound in your neighborhood? Then you'll enjoy these quick and easy preserves that make the most of those perishable figs. They're made with Jell-O Strawberry Gelatin, which contributes color, sugar, flavor, and acid to enhance the rather delicate fruit. The results will remind you of the strawberry preserves your grandmother used to make by long simmering.

FIG-STRAWBERRY PRESERVES

- 3 cups mashed figs (about 20 medium figs)*
- 2 packages (3 oz. each) strawberry flavor gelatin
- 3 cups (1 1/4 lb.) sugar

*If dark figs are used, preserves will be a deep purple color. For lighter preserves, figs may be peeled.

Thoroughly mix figs, gelatin, and sugar in a large saucepan. Bring to boil over medium heat and continue boiling for 3 minutes, stirring occasionally. Pour quickly into glasses. Cover at once with 1/8 inch hot paraffin. (If preserves will be used within 1 month, paraffin may be omitted and preserves stored in refrigerator.) Makes about 6 medium glasses.

NOTE: Recipe may be halved to fill 3 medium glasses.
