

### Col. Boyles To Retire

Lieutenant Colonel Robert M. Boyles II, formerly of Louisburg, has announced his forthcoming retirement from military service to accept appointment as City Manager of Milton, Pennsylvania.

COL. BOYLES

Colonel Boyles is presently the Area Engineer for the Western Virginia Area of the U. S. Army Corps of Engineers, is responsible for the operation and maintenance of all Federal installations within the Area, and heads an engineering and service organization of nearly 280 employees.

He attended Elmira College, the New York State Institute of Applied Arts and Sciences, and is a graduate of the Command and General Staff College, Fort Leavenworth, Kansas.

A veteran of over 21 years military service including the Korean and Viet Nam wars, Colonel Boyles has been awarded among his decorations the Bronze Star, the Air Medal with Oak Leaf Cluster, the Army Commendation Medal with 2 Oak Leaf Clusters, the Combat Infantry Badge, and the Vietnamese Medal of Honor.

Colonel Boyles is the son-in-law of Mrs. Emma Jones and the late J. W. Fred Jones of Rt. 3, Louisburg. His wife Vennie and four children reside with him in Winchester, Virginia.

### Garden Time

By M. E. Gardner

The eleventh annual "Open House" for high school students will be held on the campus of North Carolina State University on Saturday, November 8. The theme for the 1969 convocation will be "Careers 2001".

If this theme strikes you as being just a little "far out" don't let it bother you. Many grandparents can remember, with me, the remarkable advances we have seen in food and fiber production, processing and utilization; in communications; and in transportation. And so, for me, nothing seems "far out" any more. What we should do now is keep our youngsters abreast of the times; and this is what "Open House" is designed to accomplish.

The visitation program is sponsored by the School of Agriculture and Life Sciences and the School of Forest Resources. It is considered by many to be the most successful program of its kind ever attempted by the University because it helps keep students abreast of the changing times and orients them in the direction of careers ahead in science, business and technology. I have watched this program grow from an attendance of about 1,200 eleven

### Past-Governor Speaks To Lions

The Bunn Lions Club held its regular meeting Thursday at the Bunn Garden Club Building. The guest speaker was C. Ray Pruette, Past-District Governor from Franklin. Pruette was introduced by Zone Chairman Gene Mullen.

Bunn Lions, Guests

During the meeting, plans were made concerning Ladies' Night to be held soon. Lion Secretary Decimo Gay gave a report on several matters of interest to the club. Two new members were inducted as Lions by Past-Governor Pruette. New members inducted were: William Mullen and Bobby Strickland. The new members were sponsored by Lion Gene Mullen. The regular meeting was followed by a short Directors Meeting. Lion President Glenn Carter presided.

Pictured above, left to right - Past-District Governor C. Ray Pruette, New Lions Bobby Strickland and William Mullen, and Zone Chairman, Gene Mullen.

years ago to over 4,000 in 1968.

Campus committees have been working for months in preparation for this significant event in the lives of our future leaders. In addition, committees have been formed in each of the 100 counties to assist serious thinking high school students, their school advisors and adult leaders in making plans for the visit to Raleigh.

The Extension Chairman in each of the counties will be in position to assist local people in making contact with committee members already assigned in his county.

The program begins at 9 a.m. with registration in the William Neal Reynolds Coliseum. Faculty members are designing special exhibits

which will on display on the spacious floor in the Coliseum, all oriented around the general theme "Careers 2001".

Observe how scientists are conducting experiments to determine the number and quality of forest trees needed in the year 2001-see how bacteria convert nitrogen to a usable form in the soil. "Doors to the Future" will give you a deeper insight into man's exploration and planning for the future.

See the "automated sow", an automated demonstration on photosynthesis, the process responsible for all life on earth and the most important chemical reaction known to man.

There will be many other points of interest which space

will not permit me to cover. Make your plans now to attend and see for yourself.

### Like Father, Like Son

Fearful Father: "My boy, the next time you have an urge to kiss the new maid, I'd suggest you use a more secluded spot."

Freshman Fred: "Oh, the hall was dark enough, Dad. Besides, she thought it was you."

We are inclined to favor four football players and 40 or 50 pretty cheerleaders, if there is to be any de-emphasis of football.

### Off The Record

Judge: Your wife says you keep her continually terrorized!

Prisoner: But, your Honor- Judge (whispering): Now not in my official capacity, but, as man to man, what is your system?

**IT'S COMING**

### Definite Rebuke

"I asked if I could see her home."  
"And what did she say?"  
"She said she'd send me a photo of it."

### Quite Easy

Caller: What, no attic? How can you get along without one to store your junk in?  
Hostess: Oh, you see, we give it all away as bridge prizes.

### Bird Dog Field Trials Slated For November 1 And 2 Here

Molly, Female Setter, owned by John R. Davis is shown getting ready for Field Trials.

The Franklin County Wildlife Club is sponsoring Bird-Dog Field Trials November 1 & 2 to be held on the M. H. Hunt farm located 6 miles south of Louisburg on Highway 401. This is the third such event held since the club was organized in 1968. John R. Davis, club president says Field Trials have created much interest and have been a success each time.

The running of dogs will get underway on Saturday morning and last all day. The event will be continued on Sunday afternoon beginning at 1:00 p.m.

There will be 4 classes of dogs; puppy, derby, bird-hunters and open all age. The top 3 winners in each class will be selected and trophies awarded.

Davis encourages all owners of bird dogs to bring them and take part in the event. Entrance rules are very lenient, a dog is never too young, too old, too experienced or inexperienced to be entered. You bring them, we have a class in which to enter them. Who knows, you might carry home a trophy.

October is a good month in which to drive carefully. If you have managed to live this long, why not try to last out the year, at least?

### Protection

...service. You get them both-when you insure your car and home through an independent insurance agent. We're independent agents. If you have a loss, we see you get paid promptly, fairly. Call us today for worry-free protection.
