The Meaning of Falling Leaves

The meaning of falling leaves goes beyond the obvious fact another Fall has come. It means another year has gone by — and one may well ask himself or herself, "What have I done with it?" The good Lord allots us only about 70 sights of falling leaves, on the average. If only we could convince the boy and girl of 18... the young couples of 25... the people in their 30s and 40s... that thrift is so important! Open a savings account with us now — before too many leaves have fallen.
