There is no man in all Indiana who surveys the field of Tuesday's contest with screner satisfaction than a party by the name of Godlove Orth. It was a kindly fate, after all, that compelled him to step down and out of the race. Otherwise he had been buried under the weight of thirty thousand majority.

You are a useful man for the side you Behold what great power negro suffrage has given to the south ! It has increased their representation so largely that, with the aid of New York, don't favor. Connecticut and California, for instance, they can control legislation, elect the president, and administer the government machine as they may see fit. The rest-of the United States can whistle. The solid south and the three states named will be the government in all that the term implies. The far-seeing men in the south, or those who are esteemed as far-seeing, declare that nothing can prevent the south from having a controlling voice in the government but result in November. the disfranchisement of the blacks. And they argue that this will be the A BARNUM GIRAFFE RAMPAGING. next great question which will agitate the country, the north costending for black disfranchisement in order to keep the south from running the government. They attempted to take one of Bar-num's new giraffes across Rhode Island It is plain, very plain, that the blacks will be made subscrvient to the whites last week but just as it was on the Masin every southern state, and that, so far from enacting the north to hold the government, this enfrauchisement is having precisely the opposite effect, giving the south so large a number of congressmen and electoral votes that this section will virtually hereafter be the ruling power in Washington.

Result, twenty-two of North Carolina.

[Murphy Herald.]

[Murphy Herald.] The Sentinel is a living exponent of de-mocracy, seeking, by the force of polished argument, to prove the necessity of restor-ing both state and national go ernment to the guidance of the democratic party.
