our paper is received by our editorial brethren, we give below a few extracts embracing "what they say" of us:

NOTICES OF THE PRESS.

[Newbern Times, Rep.] The leading democratic paper in the [Toisnot Transcript.]

The Raleigh Sentinel under its new mana-gers and proprietors is greatly improved, and a now one of our most valued exchanges.

[Richmond, (Va.) Whig.]
The Raleigh Sentinel publishes a six-page weekly, the largest and handsomest paper we have seen printed in North Carolina. It shows enterprise and thrift, the result of good management and live thunder.

[Goldsboro Messenger.]
The Raicigh Sentinel, under its present able management shows a decided improvement. Edited with marked ability its general make up and typographical appearance is excellent. * * We wish the new management every success.

[From the Salem Press j
The Raleigh Sentinel, under the new management has been much improved in manner and matter. We have been in regular receipt of the Daily Sentinel for a week or more, and hope its daily visits will continue. Specimen numbers can be seen at this office Price of the Daily 48 per annum.

[From the Fayetteville Wide-Awake,]
The Sentinel, the name of which has been a terror to radicalism since Holden pledged "the last dollar and the last man" to the support of the confederate States government, has passed into new hands, and is assuming an attitude from which it will hard many a destructive canister into radical

[Greensboro Masonic Journal.]

The Releigh Sentinel came to us last Wed, nesday as a morning daily and decidedly improved. The new managers and editor promise to do better in the future, and present a better paper than the initial number. They may perhaps do it, but we can't see much chance for improvement. Gentiemen, we wish you success.

[Robesonian.]

The Raleigh Sentinel, under the present management, is ver generally improved. It contains as much reading matter as heretofore, and is one of the very best daily papers in this state. In common with a great many people of this state we revere the name of the Bestimat, seat will stoops learn of its prosperity with pride and pleasure. They have reduced the rates for the campaign, as will be seen in another column.

[Vicksburg (Miss.) Herald.

The Raleigh Sentinel needs no eulogy from us. Every one that reads it knows how it stands on all important topics of the day, and although some may differ with it, yet all ean say that it is sincere in its course, and is working for the lest interest of the peopl of North Carolina.

[Murphy Herald.]

The Sentinel is a living exponent of democracy, seeking, by the force of polished argument, to prove the necessity of restoring both state and national go erament to the guidance of the democratic party. Under its present able management it takes an envisible position among the best journals in the land, increasing the former prominence of its name, by maintaining the highest degree of efficiency. Every democrat in the mountains should take it, and avery republican who does not desire an addition wrinkle to his brow, should shun it, for its persuasive arguments entail thought. With better mail facilities, Murphy would contribute to the support of the Daily Sentinel, and this assertion is based on the extensive circulation enjoyed by the Herald's copy.

TUESDAY, NOVEMBER 7.

THE BATTLE GROUND.

[New York Herald. We published yesterday the estimates of the certain and doubtful states as made up at the republican and democratic headquarters the previous night. An analysis of the figures is somewhat interesting, as it shows that each party new virtually concedes that the electo-ral vote of New York is necessary to

its success as follows: REPUBLICAN ESTIMATE. Certain Republican States. 6 Novada, 3 Now Ham 21 New York, 11 Ohlo, 5 Possisylvania, 7 Rhede Island, 13 South Carolia 11 Vermont, 5 Wisconsin,

Doubtful States . 6 New Jersey, 4 North Carolina 8 Oregon,

The democratic estimate is as fellows:

Certain Democratic States. Alabama 10 Missouri, Arkaness 6 New Jersey, 6 New York, 3 North Carolina, Connecticut, Delaware, 4 Oregon, 11 South Carolins, Georgia Indiana, 15 Tennessee, 12 Texas, Kentucky, 8 Virginia, 8 West Virginia, Maryland, Total,

Doubtful States. California, 6 Wisconsin, Pennsylvania, Total,

The republicans thus claim for their side California, Pennsylvania and Wis-consin, which are classified by the other side as "doubtful," and New York and South Carolina, which are claimed out-right by the democrats.

The democrats on the other hand, besides placing South Carolina and New York on their certain list, claim also all the states classified by the republicans as "doubtiul"—namely, Connecticut, Florida, Louislana, New Jersey, North Carolina and Oregon.

Ret. giving each side all it claims as

But, giving each side all it claims accertain, the thirty-five vetes of New York deducted from either would defeat the ticket. The republication was aboving. with only one hundred and seventy electoral votes and a very faint prespect of making up the deficiency out of such states as Connecticut, Florida, Louisiana, New Jersey, North Carolina and Oregon, in almost all of which the chances seem to favor the opposition. The democrats, with all their liberal claims, would have only one hundred and seventy-one electoral votes without New York, and could scarcely hope to make up the necessary fourteen out of California, Pennsylvania and Wiscensin. So that both sides show that the decisive battle must be fought in the mpire state.

He takes the ground that the public service cannot be purified in any other way, and that the hard times are largely attributable to an extravagant and corrupt system. He will vote for Tilden not as a democrat, but as an independent voter who would see a peaceful and a prosperous country. He has a large following in his section of the state,

ve print a singene sidd, and foun Cities fall, empires come to nothing, and kingdoms fade away as smoke. Where are Numa, Mines, Lycurgus? Where are their books? and what has become of their laws? But that this become of their laws? But that this book no tyrant should have been able to consume, no tradition to check, no heretic maliciously to corrupt; that it should stand unto this day amid the wreck of all that was human, without the alteration of one sentence so as to change the doctrine taught therein—surely this is a very singular providence, claiming our attention in a very remarkable manner.

A prominent citizen rushed into one of our large dry goods stores and stopped at the button counter; he had a of our large dry goods stores and stop ped at the button counter; he had a small sample of brown silk in his hand, and he siked the smiling clerk if he had any buttons to match that "Plenty, sir," was the answer; "will you have them by the gross?" "No, sir," roared the citizen; "I want them by the bushel—eart-lead—ten! I want them sent up in wagons and backed into my cellar, till it is full and running over. I'm sick of hearing, 'J-o-h-n, did you match those buttens?" I am not going to spend the rest of my days running round trying to match impossible celers! There's my check, but I tell you I won't feel like myself till I've laid in my winter supply of buttons."

Ward, the son-in law of Jud. e Erskine, of this city, is running a ferre manganese mine, which is the only one of the kind in the United States. On one side of his furnace is the iron ore; en the other a bed of manganese, it e richest and longest and purest, as Dr. Little says, that can be found on this continent. Were he to mine the iron ore alone, it would pay him \$20 per ton. He adds sixty per cent. of the manganese to it, and sells all that he can make at \$160 a ton in gold. The combination of manganese with iron, gives the metal used in Beassoner steel, and is exceedingly valuable. It has been made heretofore almost exclusively in France, where it readily commanded \$400 per ton. Manganese is exceedingly rare, usually, but in Bartow county it is found in profuseness, and in remarkable purity. Mr. Miles Dobbins, of this city, has an apparently exhaustless bed of it. There is a net profit of over \$100 per ton on every ten of it that is made. Dr. Little informs us that there is enough manganese and iron in Bartow Dr. Little informs us that there is enough manganese and iron in Bartow county to manufacture fifty tons par day of this precious ferro manganese for fifty years. As it pays \$100 per ton profit, fifty tons per day would give \$5,000 a day prefit. This would be one million and a half dellars of profit in one year, or over ninety millions in all that lies buried as clear profit in the one article of manganese in Bartow county. Mr. Ward is making only about one ton per day at present, but he will enlarge his facilities soon, and the manufacture of this rare and precious metal may be expected to grow very rapidly as soon as its existence has become wislely known.

New let me tell your readers how to make the nicest corned beef. The following will be found a very superior way of preparing it. Meat to corn or pickle should always be of the best quality. It is poor economy to pickle poor beef. To one gallon of water take one and a half pounds of salt, half a pound of sugar, half an ounce of saltpetre and half an ounce of potash. In this ratio the pickle to be increased to any quantity desired. Let these be boiled together till all impurities rise from the sugar and are skimmed off; then peur into a tub to cool.
