FRIDAY, NOVEMBER 24.

NOTES AND OPINIONS.

New York city has twenty-nine medical dispensaries.

In six counties of Georgia Hayes did not poll a single vote.

Patent book-binding to stand 600 degrees of heat is a recent invention.

People are now announcing themselves as candidates for southern legislative offices.

Fourteen persons have been killed so far in the course of building the east river bridge.

Three colored men have been ordained preachers in the Lutheran church in North Carolina.

In sixteen out of the fifty-six parishes in Louisiana the republicans made no nominations at all.

Hon. Herschel V. Johnson, of Georgia, is urged for the United States senate by several of the leading papers of his state.

The Boston Post fulfils its duty as an organ by insisting on the election of Mr. Dean in the third congressional district.

A man in Onslow county, North Carolina, 85 years old, cast his maiden vote this year, and it went for Tilden and Vance.

A royal seraglio in the White House would be the only result of Mr. Tilden's marrying all the ladies the press has promised him to.

The Salt River steamer never waited so long before. Perhaps it might as well start with the passengers it has got and return for another load.

The democrats had handsome majorities in Fremont, Ohio, Mr. Hayes' home, as also in Malone, New York, Mr. Wheeler's home, at the late election.

The Maryland building, on the centennial grounds, will be removed and reconstructed in Druid Hill Park, Baltimore, where it will be used as a museum.

They are now mentioning candidates for the mayoralty in Boston, and ex-Governor Gaston is spoken of. If he should consent to stand he would not have any opposition.

Dr. Hayes failed in his efforts to reach the North Pole, and it would seem as if Governor Hayes is experiencing quite as many obstacles in reaching the south poll.

The Utica Observer observes that the deadest man of them all appears to be Morgan and inquires what has become of him. As if he had any interest in the doubtful states!

Angry democratic conundrum: Shall 40,000,000 people tamely and breathlessly await the action of a few dozen scoundrels in Washington and New Orleans to settle whether we have a country or not.

The prohibitionists of Massachusetts, according to their executive committee, "are now organized, not for a campaign, but for the war," and they are only $1,800 in debt for the expenses of the campaign. Do they reflect that war is costly?

The Washington Republican considers the question substantially settled in favor of Hayes and suggests that democratic newspapers might as well hide their game-cocks and roosters and keep them hid for at least twenty years to come.

The New Hampshire constitutional convention will contain 205 republicans and 164 democrats, among them fifty lawyers and a half dozen ministers, though the majority are business men and farmers. Eleven constituencies did not elect.

While waiting for the verdict the Augusta Constitutionalist wants us to try to soothe ourselves with the thought that, if George Washington had to stand out in the wet two or three hours before he got a chance to vote, he wouldn't have accumulated so much reputation for piety as he did at Valley Forge.

NORTH CAROLINA.

Weddings threaten Durham.

Reams' Durham warehouse a success.

Cleaveland claims the democratic banner on her 1250 majority.

It requires 5,000 bales of cotton to pay for the imported farm supplies of Edgecome.

J. R. Lawrence of Durham has invented a smoking tobacco packer which will pack 1200 packages an hour of any desired size and shape.

The Mount Airy Watchman wants Billy Smith to know that he did not do his work well in Surry. He scattered the greenbacks freely but to no purpose except to make votes against him.

"The melancholy days have come, the saddest of the year," because of the great increase of suffering induced by colds, coughs, asthma, etc., all of which Dr. Bull's Cough Syrup will promptly relieve and cure.

For nearly twelve years now, the Sentinel has guarded the people's liberties and defended their rights. Price of the Daily six dollars Weekly two dollars a year.

The Sentinel is delivered any where in the city for sixty cents a month, or fifteen cents a week.

News Summary.

Quicksilver is being largely exported from California.

James F. Milton, a well-known citizen of Berryville, Va., is dead.

One thousand tons of grapes have been consumed in New York this year.

The Amsterdam north sea channel admits vessels of eighteen feet draught.

In the Berlin theatres next year there will be a great festival in honor of Mozart.

San Diego, California, expects to produce six hundred tons of honey this season.

James Delmon Grace, a well-known actor, died in Providence, R. I., on Wednesday.

There has been opened in London a class for teaching ladies drawing and engraving on wood.

Talking of dress reform the Worcester corset company produces forty thousand dozens of sewed corsets a year.

Williston, S. C., boasts a stalk of cotton fifteen feet high, which resembles a three-year-old pear tree in size and form.

In Cincinnati several mean proprietors of retail dry goods stores have the lady clerks searched before they leave for the day.

The wine crop of France this year is unusually large, being a third larger than the vine promised at the outset of the season.

The vegetable and mineral exhibits in the special displays of West Virginia and Oregon have been presented to the city of Philadelphia.

The Greek lectures of Prof. Blackie before the seniors of Edinburgh University were broken up recently by the uproar of disorderly students.

Louis Brauer, the founder and proprietor of the California Demokrat, the leading German paper of San Francisco, died in that city on the 6th instant.

Great preparations are being made to proclaim Queen Victoria empress of India. The cost is to be $1,250,000, instead of $2,500,000, as first arranged.

Frank Johnson, the pedestrian, has just completed as claimed, the feat of walking 1,300 miles in 1,300 consecutive hours, at the Phœnix Hill Park, Louisville.

The French minister of justice has just issued a circular directing the law authorities of the republic to prosecute all journalists guilty of abusing the army.

Mr. Samuel T. Maddox, a prominent republican politician of Brooklyn, New York, died on Thursday. He was formerly a member of the assembly and an officer in the customs.

Another war has been begun against the theatre ticket speculators, a single bold manager having assumed the offensive with the determination to "squelch every ticket speculator in New York within thirty days."

The structures that are to remain on the centennial grounds are the main building, machinery hall, memorial hall, horticultural hall, St. George's building, the German pavilion, the Japanese building, and the Ohio state building.

It leaked out in Wall street Thursday afternoon that one of the employees of the stock firm of H. L. Horton & Co. had recently appropriated $5,000 to promote a private speculation of his own. He has been arrested, however, and the firm expect to recover the cash.

Some idea may be formed of the vast number of stock in Texas and the cash value there a head, from a purchase made lately in the southwestern part of the State of 40,000 head of cattle and 2,000 horses for $140,000 in silver, being $3 50 a head all round for cattle and horses.

TO CONSUMPTIVES.

The advertiser, an old physician, retired from active practice, having had placed in his hand by an East India Missionary the formula of a simple Vegetable Remedy, for the speedy and permanent Cure of Consumption, Bronchitis, Catarrh, Asthma, and all Throat and Lung Affections, also a Positive and Radical Cure for Nervous Debility and all Nervous Complaints, after having thoroughly tested its wonderful curative powers in thousands of cases, feels it his duty to make it known to his suffering fellows. Actuated by this motive, and a conscientious desire to relieve human suffering, he will send (free of charge), to all who desire it, this recipe, with full directions for preparing and successfully using. HILLSBORO RECORDER.

ESTABLISHED 1820.

THE OLDEST PAPER IN NORTH CAROLINA.

The RECORDER, apart from its political merits, offers superior inducements to the merchants of Raleigh as a medium of advertising. It has a large and increasing circulation in the counties of Orange, Alamance, Person and Caswell, and especially in those sections of Orange and Alamance, most closely connected by the interests of trade with the city of Raleigh. The merchants of Raleigh will find it vastly to their advantage through this medium to build up a metropolitan wholesale trade, and center upon Raleigh the business that goes to other states.

Manufacturers will also profit by the growing spirit of agricultural improvement, and the tendency to the adoption of labor-saving machinery, to reach the ears and eyes of a large and intelligent class of readers through the medium of the Recorder.

For particulars address,

THE SENTINEL.

ESTABLISHED AUGUST 5th, 1865.

The Sentinel.

OLDEST PAPER AT THE CAPITOL.

The Sentinel

The public so far as we can read their wishes, desire a vehicle of thought at the metropolis for the masses—not simply for those who follow in the same wake or utter the "shibboleth" of a class, but a medium of inter-communication, with sufficient verge and space for the liberal, conservative, loyal sentiment of all shades to find vent.

* * * * * * * * *

The SENTINEL will be loyal and ingenuous to both Federal and State governments. It will sustain the military authorities in the preservation of quiet and order, and in enforcing the orders of the government. Not a disloyal or unkind word against the government of the Union of these States shall pass our lips, but it will be true without sycophancy, honest without flattery, nor will it lie to shield its own throat.

It shall advocate sound principles and support good men. Its motto is not 'principles, not men,' but principles and men. A bad man can find no quarters with the SENTINEL. A good man—a man of truth, of high toned integrity—a gentleman in the true sense, honest and capable, if we are not deceived, can alone claim our support.

After eleven long years of trial, adversity and changes of fortune to our people, stands to-day upon the same platform on which its venerable founder erected it.

For more than eleven years the SENTINEL has stood guard for the rights and liberties of the people, and to-day, when the State has emerged from the darkness of radical rule, and the future is as full of hope and promise as the past was dark and gloomy, it repledges itself to the high service of the good people of the great State of North Carolina.

THE SENTINEL

Appreciating the wants, conditions and necessities of the people, fixes the following rates of subscription:

DAILY.

One year,	$6.00
Six months,	3.00
One month,	.50

WEEKLY.

One year,	$2.00

TO ADVERTISERS.

The age and standing of the SENTINEL gives it a circulation, both daily and weekly editions, which readers it, as an advertising medium, the best in the State. Merchants and others who desire to sustain an old institution by their advertising patronage will find our rates very reasonable.
