

ROYAL BAKING POWDER
Absolutely Pure.
This powder never varies. A marvel of purity, strength and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the multitude of low cost, short weight, alum or phosphate powders.
Sold only in cans. ROYAL BAKING POWDER CO., 106 Wall St., New York.

No Whiskey!
BROWN'S IRON BITTERS is one of the very few tonic medicines that are not composed mostly of alcohol or whiskey, thus becoming a fruitful source of intemperance by promoting a desire for rum.

BROWN'S IRON BITTERS is guaranteed to be a non-intoxicating stimulant, and it will, in nearly every case, take the place of all liquor, and at the same time absolutely kill the desire for whiskey and other intoxicating beverages.

Rev. G. W. Rice, editor of the American Christian Review, says of Brown's Iron Bitters:
Cin., O., Nov. 16, 1881.
Gents:—The foolish wasting of vital force in business, pleasure, and vicious indulgence of our people, makes your preparation a necessity, and if applied, will save hundreds who resort to saloons for temporary recuperation.

BROWN'S IRON BITTERS has been thoroughly tested for dyspepsia, indigestion, biliousness, weakness, debility, overwork, rheumatism, neuralgia, consumption, liver complaints, kidney troubles, &c., and it never fails to render speedy and permanent relief.

NEWS OBSERVATIONS.
—Senator Logan is dangerously ill at St. Louis.
—Easter Sunday this year fell on the 17th anniversary of the surrender of the Confederate army at Appomattox.
—The atrocities in Russia upon the Jewish inhabitants continue. Last week a town in which they were numerous was sacked.
—John H. Smythe, colored, a former resident of Wilmington, and recently appointed Minister to Liberia, is seriously ill in Washington City.
—Daniel Betts, the lion tamer of Coup's circus, while about to enter the lion's cage for a street procession, at Augusta, Ga., Saturday, fell dead of heart disease.
—Grain prospects for Georgia and South Carolina are better than ever known before. But they do not equal the prospect in North Carolina.
—The bill to promote civil service reform in Canada has not caused much of a stir. The Canadian civil service, like ours, is used for politicians and not for the country.
—The Southern Methodists hold their General Conference at Nashville, Tennessee, in May next. It meets every four years, and the session lasts generally for one month.
—A dispatch from St. Petersburg says that because of the activity of the nihilists of Moscow the question of holding the coronation of the Czar elsewhere is being seriously discussed.
—The Oregon Democrats go for tariff reform and free ships, denounce the Republican spoil system which led to the assassination of Garfield, ask for river and harbor appropriations, and condemn the veto message as a public misfortune.
—Mlle. Sarah Bernhardt's marriage is very generally looked upon abroad as merely a new device for keeping her name before a somewhat listless public prior to her English season, which begins next month. She seems to have feared that she was dropping out of sight.
—The German press, commenting on the intervention of President Arthur in the case of Dr. Lamson, regards it as unjustifiable and meddling interference; particularly as it comes from the country which upholds the Monroe doctrine.
—A St. Louis dispatch says that reports which have been circulated there and abroad to the effect that Gov. Crittenden had been assassinated by Frank Jones, or some other member of the Jones gang, are entirely unfounded.
—Great strikes are in progress up North in the factory towns. The striking mill operatives at Lawrence, Mass., have determined not to return to work under the reduction of wages imposed. Notwithstanding this the mills will start up Monday, and it is believed that at least half of the strikers will return to work.
—A Chicago firm has made a contract with Sergeant Mason by which he is bound to enter their employment for one year beginning within thirty days after his release from prison, and they are bound to pay him \$1,500 for his services, whenever the term of one year may begin.
—The movement of German emigrants to this country promises this year to exceed even the unparalleled exodus of last year. At Hamburg and Bremen the departures for the first ten weeks of the season largely outnumbered those of the same period in the preceding year.
—Mr. Smythe, a Westminister, London, landlord, while returning from church last Sunday with some ladies, was fired at, but who escaped, while one of the ladies was killed. He writes a letter to Mr. Gladstone, in which he says: "Your practical adherence to the principles that force is no remedy in the case of Jewish savagery, has culminated in making it easy for a Land League assassin to murder my sister-in-law in noon day. I lay the guilt of that deed of blood at your door, in the face of the whole country."
—Three skeletons were found by a schooner on an island near South Australia, and by them a loaded revolver and a loaded gun. A diary found near showed that they were the remains of a woman, her babe and a Chinaman, who had been driven from their fishery on a neighboring island by the Queensland savages. Her husband was absent, but she and the faithful Chinaman defended themselves as bravely as possible, finally escaping in an iron tank and landing on a distant group, where, unable to obtain any water, they died of thirst.
—A double murder was committed in Surry county, Va., on Saturday, by the administration of poison in coffee. Mrs. Gray, her husband, and Mr. Jones, all living on the same farm in the above county, ate breakfast together. Mrs. Gray and Mr. Jones drank coffee, while Mr. Gray took milk. A few hours after breakfast both Mrs. Gray and Mr. Jones were suddenly exhibiting signs of poisoning, and after intense suffering, both died within a short time of each other. The supposition is that arsenic was placed in the coffee by a servant girl employed by the family.
—In the United States Circuit Court at Charleston, on Saturday, Judge Bond presiding, the court overruled the motion to quash the information filed by the District Attorney in the election cases, holding that the offenses with which the parties are charged are most infamous, and consequently not to be proceeded against by indictment only. The District Attorney then moved to be allowed to amend the information filed in the Richland cases by adding the charge of conspiracy, under Section 5,440 of the United States Revised Statutes. The court overruled this motion. The District Attorney then stated that he would announce on Monday whether or not he would proceed with the trial of the Richland cases on criminal information, or ask leave to file a new one.

Congressional Proceedings.
WASHINGTON, April 10.—SENATE.—Messrs. Dawes, Allison and Beck were appointed conferees on the Indian appropriation bill.
Mr. Garland, for Mr. Lamar, who was absent, presented a memorial from the Mississippi Legislature, asking for a revival of the land grant of 1856, to aid the Gulf and Ship Island Railroad.
Mr. Jones presented a memorial from the commercial exchanges of New Orleans in favor of the levee bills and a liberal appropriation to carry out the plans of the Mississippi river commission.
Mr. Bayard, from the judiciary committee, reported a bill amending the anti-polypomy law, fixing the salaries of election commissioners under that law at \$5,000 per annum, in accordance with the recent recommendation of the President. Passed.
SENATE.—A bill was introduced by Mr. Morgan, by request, granting the right of way over the public lands in Alabama and Florida, to the St. Louis, Montgomery and Florida Railroad and Navigation Company, and to allow the company to purchase public lands in said State.
Mr. Lamar, upon application of Mr. Garland, was granted a two weeks leave of absence.
Mr. Hawley presented a memorial of the Cherokee, Creek and Seminole Indians, petitioning for the maintenance of their treaty relations as bearing upon the pending Indian Territory Railroad bill.
Senate bill authorizing the Secretary of War to adjust and settle the accounts for arms between the State of South Carolina and the United States, was passed.
On motion of Mr. Davis, of West Virginia, Senate bill reported by him to repeal stated laws providing permanent or indefinite appropriations was passed. The exceptions are the laws for the payment of the principal and interest on the public debt of the District of Columbia and the Pacific Railroad guaranteed bonds; for the support of the marine hospital service, Smithsonian Institution and Soldiers' Home; for the payment of interest on the Indian trust and navy pension funds; for the repayment to importers the excess of deposits; and for the payment of debentures or drawbacks and bounties, etc., under the customs revenue laws.
The bill also provides that all appropriations hereafter to be made shall remain available for two years for the payment of expenditures properly incurred within the time for which they are appropriated, except as to appropriations for the construction of public buildings, rivers and harbors, lighthouses and like structures for five years, at the expiration of which periods all balances for said periods shall be carried to a surplus fund.
Mr. Saunders introduced a bill for the relief of the Wichita and other affiliated bands of Indians. It appropriates \$20,000,000, the same to be invested in United States bonds and held in trust for the Indians named, and the interest to be paid to them semi-annually, in consideration of the relinquishment by the Wichitas of their right to about 40,000,000 acres of land comprised within the tract within the Indian Territory and Kansas, and conceded to have been their original home. Referred to the committee on Indian affairs.
Upon the announcement of the death of Representative Allen, and the appointment of a committee to escort the remains, the Senate at 2:05 o'clock, as a mark of respect for the deceased, adjourned.
HOUSE.—Mr. Thompson, of Iowa, submitted the majority report of the committee on elections in the contested election case of Mackey against O'Connor, from the second Congressional district of South Carolina, accompanied by a resolution declaring that the contestant Mackey was entitled to the seat. Printed and laid over for future action.
HOUSE.—Under a call of States, bills were introduced and referred as follows:
By Mr. McLane—For the abrogation of the fifth and sixth articles of the Burlingame treaty with China.
Mr. Richardson, of New York, introduced a concurrent resolution directing the Senate and House committee on public buildings to inquire into the advisability and cost of purchasing a suitable site for a residence for the President of the United States. Referred.
The Baptist Conference in New York.
NEW YORK, April 10.—At a meeting of the Baptist conference to-day the opinion generally expressed that they should have a true translation of the Bible in all the known tongues, that it should be circulated, and that they should organize a society to do this great work. The conference was generally agreed that the formation of a new society would be in a better way than to attempt to resuscitate an old one.
Jesse James Reported Not Dead.
CHICAGO, April 10.—The Times, which has had a special correspondent in Missouri to investigate the particulars of the Jesse James shooting, publishes a letter this morning containing interviews with a number of Missourians who knew James, and who all persist in the belief that it was not Jesse James who was killed.
Another Train Robbery.
LITTLE ROCK, April 10.—A Dallas special says: The north bound train on the Gulf, Colorado and Santa Fe Railroad was stopped and robbed Friday night at a water station called Blum by six masked men, who entered the train with cocked revolvers and forced the passengers to give up their money and valuables. No resistance was offered and the robbers escaped with \$500 to \$1,300.

The Floods.

NEW ORLEANS, April 10.—The Times-Democrat's Morgan City special says tonight's gauge stands forty inches above 1874. March 22, it stood forty inches below. Affairs in Berwick are similar to those in Morgan City; only six houses have floors above the water. An infant of Mrs. McAlleys was drowned Friday. A colored man with the small-pox was caught in the flood on the railroad three miles west of Berwick and drowned. John Lane and wife, an aged couple, were swept away in their house on Bayou Route on the 7th and drowned. The water from the Teche is sweeping over Centreville in a five mile current.
MEMPHIS, April 10.—For twenty-four hours ending noon to-day the river here declined ten inches. Old steamboat men say that by Saturday the river will be within its banks all the way between Cairo and Greenville, Mississippi.
New York Cotton Futures.
NEW YORK, April 10.—The Post's cotton report says: Future deliveries to-day have met with very little attention. At the first call only 5,300 bales were sold, buyers paying an advance of 3-100 to 4-100. At the second call sales were restricted to 200 bales. Later in the day more disposition was shown to meet the slight demand, and prices declined 2-100 to 3-100. At 1:30 p. m. the total transactions, including calls, did not exceed 18,700 bales. At the third call 12,000 bales were sold—July at 12.46; September 12.22; October 11.58; 12.08 was refused for April; 12.15 for May; 12.30 for June; 12.59 for August; 11.37 for November, and 11.39 for December.
New York Stock Market.
NEW YORK, April 10.—The stock market opened weak and fell percent lower than Saturday's closing prices. Indiana, Bloomington and Western, Western Union and Missouri Pacific being prominent in the decline. Omaha common, however, opened at 1. In the early dealings an advance of 1/16 percent took place, in which Lake Shore, New Jersey Central, Louisville and Nashville and Colorado Coal were most conspicuous. This was followed by a reaction of 1/16. Colorado Coal, Northern Pacific common, Omaha common, Wabash preferred and Lake Shore being prominent in the downward movement.
Died in the Pulpit.
SAN FRANCISCO, April 10.—Rev. H. L. Hamilton, pastor of the Independent church at Oakland, died suddenly yesterday morning in the pulpit, during his discourse. He paused in his sermon, and sinking down, expired almost instantly. The deceased was sixty years of age, and well known on the Pacific coast.
Fire at Hamilton, Ohio.
CINCINNATI, O., April 10.—A fire at Hamilton, Ohio, last night, destroyed the livery stables, Hull Agricultural Works with a number of steam engines owned by Nashville parties, the Obrien Wheel Works, Black & Clawson's warehouse, and the city building. Loss, about \$40,000.
Congressional Committee Work.
WASHINGTON, April 10.—The Senate naval committee to-day agreed to report favorably upon Chandler's nomination to be Secretary of the Navy; and the foreign relations committee also agreed to report favorably on Hunt's nomination to Russia.
The Star Route Indictments to Stand.
WASHINGTON, April 10.—In the Criminal Court to-day Judge Wylie decided that the star route indictments were good and sufficient. A motion to quash was overruled, and the indictments stand.
Remored Death of the Emperor of China.
HONG KONG, March 14.—A report was current in Shanghai on March 4th that the Emperor had died. The news was not confirmed, but serious intrigues have been discovered in the palace.
Parrell Released.
DUBLIN, April 10.—Parrell was released from prison this morning, and is on his way to England.
DUBLIN, April 10.—The release of Parrell is on parole for a week, in order to enable him to visit his sister in Paris, whose child has just died.
In the green room of a Parisian theatre, which is situate not a hundred miles from the Boulevards, during an *entr'acte* the other evening, the conversation turned upon the delicate subject of age. Presently a gentleman visitor ventured upon the indiscreet query, "Now, what age are you, my dear friend?" addressing his remarks to Mlle X., who certainly can no longer be considered in her first youth. "What a question, indeed!" said the lady; "how can that possibly interest you?" "Simply curiosity," responded the visitor. "Well, then, I will be frank with you. Really I do not know. One counts one's money, one's jewels and one's deeds of value, because it may happen that they could be lost or stolen, but as I am absolutely certain that nobody will take a year from my age, and that I shall never lose one why, what is the need of counting?" And Mlle X. has not generally been considered witty.

Incidents of the James Shooting.

The newspaper accounts of the assassination of Jesse James, the Missouri cut-throat, and of "the subsequent proceedings," throw a curious light on contemporary morals. The grateful sheriff who had employed Ford to kill James gave the scoundrel a "five hundred dollar casket" to be buried in. Mrs. Samuels, mother of the James boys, apparently has views as to who would be the proper assassin of her sons, and says: "If Timberlake or Craig had killed my poor boy I would not say one word; but oh! God, the treachery of Dick Little and those boys. Bob stayed with him and shot him with a pistol that my poor dead boy Jesse gave him. Oh! I can't bear it—I can't bear it." It does not surprise us to read that "Mrs. Samuels and Mrs. James are all worn out"—just as if they had been to a fine wedding or a ball. There has been effort to get Gov. Crittenden to admit that he promised immunity to the Ford boys who shot James, but he refuses to indicate what he shall do. He thinks a man who had shot as many people as James had had no cause to complain that he died in his boots, and says, "I have no fault to find with the boys who shot him down," adding with charming consistency for the benefit of Frank James: "The law must be supreme, even if whole regiments of men go down before it. I do not promise a cessation of hostilities until the last bandit and law-breaker submits and acknowledges the supremacy of the law."
The London Standard, in an editorial, says: "The number of emigrants to the United States has been increasing steadily, and it is to be desired that those who quit England should remain within the limits of the British empire and not become lost to the mother country, but remain her customers, and both directly and indirectly strengthen the bonds of imperial unity." It is stated that the Duke of Manchester and Mr. Tennant, chairman and vice chairman respectively of the Northwest Land Corporation, will visit Manitoba about the end of May to examine and purchase lands for that corporation.
—The Mississippi River at New Orleans is falling, and is now sixteen inches below the flood of 1874, and nine inches below the highest point this season.
The American palace hotel, to be built on the Thames embankment, London, will be nine stories high, accommodate 1,300 guests, and will be constructed strictly after the American fashion. An expedition will soon start for America in search of a suitable diamond for the clerk's breast-pin.
"You have a distinguished company here," remarked Old MacShoddeigh, who was the first to make his appearance at the select supper given by his city friend. "Distinguished the deuce!" said the host; "they are the waiters. Very few of the guests have yet arrived." It was a mistake that might be made at almost any select supper on the English plan.
Last week an Ohio man on his travels found a shell on the Gettysburg battlefield. He took it home and put it in the stove to see if it was real. It was genuine. But the stove is the most glaring imitation you ever looked at.—*Hankey.*
"No woman is worth looking at after thirty," said young Mrs. A., a bride, with all the youthful arrogance of twenty one summers. "Quite true, my dear," answered Lady D., a very pretty woman some ten or fifteen years older, "nor worth listening to before."—*Waif.*
A Georgia planter hires negroes who play the banjo. He says that a negro riding the plow while playing will do more work with two mules than three men who do not play, but have three mules. Probably the mules hurry along in the hops of getting away from the noise.—*Boston Post.*
