Hickory 'ress: The tobacco crop in this section is looking fine and a great deal of it has already been topped. The increase of this crop in Catawba is thought to be about 100 per cent.

Gastonia Gazette: Some scoundrel fired and burned Mr. A. Farley's saw mill last week. The cotton gin and house were saved; also about \$500. There is a regular band of thieves, it seems, operating in this section. A store has been robbed and other houses entered in this place. It is thought the saw mill was fired in order to plunder the willage of Brevard.

Greensboro Patriot: The capital case of the State vs. Major Reid was called teday and continued until the regular term in September. The case was continued for the defendant upon the ground that a wrong witness had been summoned. The State interposed no objection, expressing the opinion that a further investigation of the matter was desirable. The case was continued, and Thursday of the first week of the term set for the trial.

Statesville Landmark: Prof. W. E. Hidden was in town yesterday. He states that he is now working 25 mcn and 4 horses at the Emerald and Hiddenite mine, and that he is progressing bravely. Within the past week he has made some valuable finds. He shows a magnificent specimen of smoky topaz, which was found some time ago, and which he has just received from New York, where he sent it to have it cut
