As stated yesterday, the snow storm begau on Friday at noon, and continued, with a brief intermission, until midnight. At that bour Tuesday night it took a fresh start, and by daybreak yesterday four or five inches lay on the ground. The fall continued until 10 o'clock yesterday morning, when it ceased, the clouds broke away somewhat, and the sun shone out, for the first time in just a week. The snow storm was general, it appears, in the Atlantic States, as iar south as Georgis. Reports from the western part of the State say that it is very deep there, much of it falling on the old snow, of week before last, of which considerable remained. Trains were nearly all delayed, the fast freight on the R. & G. B. R., not reaching here until near noon. The mud on the streets was covered from sight, and vehicles had to plow their way through a regular bog. streets were quite full of people during the day, and nearly every body appeared to enjoy the snow. But it is rough on the poor people, many cases of destitution existing. The Young Men's Christian Associstion needs liberal aid, which it is hoped will be extended.

Bill touching injunction orders. SPECIAL ORDER. The hour for the consideration of the substitute of the committee for the resolutions relative to the internal revenue having arrived, which was the special order for this hour the House proceeded to consider

the following resolution came up on ais second reading:
Be it resolved by the General Assembly of North Carolina: 1st. That the internal revenue taxes of the United States ought to be repealed at

once, with such provision by rebate of taxes or otherwise, as will be just to those who hold for sale articles on which such taxes have been paid. 2d. That the collection from imports, unaided by internal taxation, of the large sum now necessary for the administration of the Federal government, would give incidental

protection to home manufactures amply sufficient for their healthy development. 3d. That though Congress has power to lay and collect duties, yet to lay duties higher than the per cent. at which they would raise the greatest revenue is, as to the excess above that per cent., to lay duties so as to prevent their collection, and is therefore without warrant in the constitu-

tion, and that it is unjust and oppressive. 4th. That within that per cent. Congress may in its discretion select and determine the articles on which duties are laid, and the rates of the duties on them.

5th. That this discretion ought to be exercised so as to raise a revenue not greater than is sufficient for the strictly economical administration of the Federal government, and the gradual reduction of the Federal debt; and so as to distribute the burdens of the tariff, and the incidental protection given by it, as justly and equally as possible to every part of the country and to all classes of the people.

6th. That these resolutions are not intended to interfere with the application of the principle that it is just and wise to tax articles that are intended to be consumed as luxuries higher than the necessaries of life, and the materials, implements and machinery consumed or used in producing, manufacturing and transportation.
7th. That the tariff of the United States ought to be reformed, so as to make it con-

form to the principles set forth in the foregoing resolutions. 8th. That the Secretary of State is instructed to transmit copies of these resoitions to the Senators in Congress from North Carolina, as an expression of the voice of the State on the issues to which they relate, and to the Representatives in Congress from North Carolina for their re-

spectful consideration.

Mr. Bower offered the following amend-If Congress should deem it impracticable to modify the present tariff, and at the same time abolish the internal revenue taxes, as the less of the two evils we prefer the retention of the former, and the abolition of the latter, which was adopted. Mr. Powers, of Cumberland, offered the

following substitute: Resolved by the House of Representatives, the Senate concurring, that our Sena-tors in Congress be instructed and our Representatives be requested to vote to abolish the internal revenue system, but in case that

is impracticable, then to modify and reduce the same; and in case neither is attainable to vote for the distribution of the internal revenue derived from distilled spirits among the States according to illiteracy for educational purposes.

Mr. Peebles offered the following amend ment to Mr. Powers' substitute, which was accepted by Mr. Powers: Provided, that the State authorities have

exclusive control and management of said

There was much discussion on this measure, participated in by Messrs. Powers, of Cumberland, Bailey of Mecklenburg, Sher-rill, Bowen, Bledsoe, Harris of Wake, McLoud, McCotter and others. Mr. Peeples
