S. A. ASHE, EDITOR.

DURING the year 1881 North Carolina produced \$115,000 worth of gold, Virginia \$10,000 and Georgia \$125,000.

SOME reports were in circulation here yesterday that the President had been decidedly chastised by the husband of a lady in cabinet circles.

In a few days Bradlaugh, the English free-thinker, will be permitted to affirm and take his seat in the House of Commons.

NEW ORLEANS is rapidly assuming its proper position as one of the greatest marts of the Union. A new steamship line is soon to be established between that city and Liverpool, which has for its special object the transportation of the grain of the Mississippi Valley.

DOMESTIC infelicity drove a New York civil engineer named Henrietta a few days ago from the pursuit of his profession, which yielded him \$200 to \$300 per month.

It transpires that the thieves of Washington have been in league with the officers who were paid to detect them. The game worked very well until a weak-kneed knave gave it away.

CONSIDERABLE opposition is evolved to the proposed reciprocity treaty with Mexico, with what reason exactly it does not appear, since most of the important exports of that country are already on the free list.

THE Wise-Massey affair, in Richmond, puts the former in the attitude of a bully, and one who ought to be suppressed by a cane. His course toward Massey was brutal and insolent, as well as cowardly.

THE passage of the bill to sell the Cape Fear and Yadkin Valley Railroad, through the House, with some amendments, carries it back to the Senate for concurrence.

THE General Assembly of North Carolina do enact: That in order that the public school system of Raleigh township, Wake county, may be more efficiently and conveniently conducted, the following shall be the law for the government of the public school interest in said township:

Sec. 1. That the school committee of said township shall consist of nine members, instead of three, as now required by the general school law of the State.

Sec. 2. That the committee provided for in the foregoing section shall have entire and exclusive control of the public school interest in said township; shall prescribe laws, rules and regulations for their own government, not inconsistent with the provisions of this act; shall employ and fix the compensation of officers and teachers of the public schools, and do all other acts which may be just and lawful to conduct the public school interest in said township.

Sec. 3. That the moneys which shall from time to time be appropriated under the general school law for the State to Raleigh township, or any money by which said township may be entitled by reason of any special tax, gift, grant or appropriation, shall be paid over to the treasurer of Wake county, who shall be treasurer ex officio of the aforesaid school committee of Raleigh township, and the said moneys shall be held by the said treasurer as a separate fund, which fund shall be disposed of alone under the direction of the aforesaid school committee as provided for in this act.

"This report, although nominally the report of the trustees, is the work of our able and efficient Secretary of State. He has for four years devoted such time as he was able to spare from the duties of his office, to the patriotic work of collecting the colonial records of the State, and them in places of security and to them for perpetuation in an

enduring form. The work with him has been a labor of love, and I am sure no man could have done it more intelligently or more earnestly.

"The time has come when longer delay in this patriotic work will be fatal. A few thousand dollars expended now will perpetuate the records that in coming years hundreds of thousands could not purchase. I respectfully suggest that these communications be printed and referred to a joint select committee, and that this committee be instructed to have an interview with Col. Saunders and make a personal inspection of the matters referred to. After the committee has obtained the necessary information, it will propose, I trust, the needed legislation, including an appropriation of such sums from the public Treasury as may be needed to supplement the funds at the disposal of the trustees of the library to complete the work."

The Secretary says that in their work of examination the trustees began with the adoption of the constitution and proceeded back as far as 1711, making themselves familiar with the public records to that date.

They state in substance that no great expectation is entertained of now obtaining any further records on this side the water, and that the papers in the public offices of London furnish the last resource of supplying our deficiencies. The documents especially needed are the Journals of the Council of State prior to 1711; the Journals of the Legislature, and the dispatches of the various Governors. These, it is confidently expected, can be obtained in London.

In view of all these facts, the trustees determined to print nothing until an appeal was made to the Legislature for authority and assistance to procure from London the lacking documents. That they will be gotten sooner or later we doubt not, but we earnestly hope that authority will be given to the trustees to have it done at once.

"For over fifty years the General Assembly has been authorizing this thing to be done. Let it now be done, done well and done for all time."

We have received from Messrs. A. Williams & Co., a very neat volume—"The Woods and Timbers of North Carolina," by P. M. Hale. The work is very valuable, and furnishes much information in regard to the forests and woods of the State. It has attracted very considerable attention and has invariably received favorable comment.

"The publication of such facts in a shape that makes them accessible is the very best service that the public-spirited men in the South can do their States. It has a twofold good effect: It not only advertises resources that await development—resources, too, far which there is a demand—but it also rouses the Southern people themselves to an appreciation of their great industrial and manufacturing opportunities. A very large proportion of the wood-working machinery in the Eastern States ought to be running in North Carolina. If this were so, the vast possible wealth that now stands in trees would soon flow in industrial channels, and will be kept at home to enrich the people and to build up all other industries."

And this induces a correspondent to suggest that it would be well for the Legislature to order the distribution abroad of a large edition of the book—a large edition, say ten thousand, could be had at remarkably cheap prices—and that such a course would do much good in bringing North Carolina prominently before the world.

RALEIGH GRADED SCHOOLS. A BILL TO BE ENTITLED AN ACT IN REFERENCE TO PUBLIC SCHOOLS IN RALEIGH TOWNSHIP, WAKE COUNTY.

The General Assembly of North Carolina do enact: That in order that the public school system of Raleigh township, Wake county, may be more efficiently and conveniently conducted, the following shall be the law for the government of the public school interest in said township:

Sec. 1. That the school committee of said township shall consist of nine members, instead of three, as now required by the general school law of the State, to be elected by the Board of Aldermen of the city of Raleigh, and the said school committee shall be divided, by ballot, by the said Board of Aldermen, into three classes, of three each. The term of office of the first class shall expire at the end of the two years from a period to be fixed by the said board, and the term of office of the second class shall expire at the end of four years from said period, and the term of the third class at the end of six years from said period, and whenever the term of office of any class shall expire as above provided, an election shall be held by the said board of Aldermen to fill the vacancy occasioned by the expiration of said term, and the term for which those chosen to fill vacancies shall be elected shall be a term of six years, so that the said school committee shall always consist of nine members, and only nine. And whenever a vacancy occurs in any of the classes, otherwise than by expiration of a term, the said vacancy shall be filled by the Board of Aldermen of the city of Raleigh as soon as may be convenient.

Sec. 2. That the committee provided for in the foregoing section shall have entire and exclusive control of the public school interest in said township; shall prescribe laws, rules and regulations for their own government, not inconsistent with the provisions of this act; shall employ and fix the compensation of officers and teachers of the public schools, and do all other acts which may be just and lawful to conduct the public school interest in said township.

Sec. 3. That the moneys which shall from time to time be appropriated under the general school law for the State to Raleigh township, or any money by which said township may be entitled by reason of any special tax, gift, grant or appropriation, shall be paid over to the treasurer of Wake county, who shall be treasurer ex officio of the aforesaid school committee of Raleigh township, and the said moneys shall be held by the said treasurer as a separate fund, which fund shall be disposed of alone under the direction of the aforesaid school committee as provided for in this act. The general bond, now required by law, of the aforesaid treasurer to protect public funds in his hands shall be an amount sufficient to include double the amount received to the credit of Raleigh township, on account of public schools, independent of the amount to secure other funds which may come into his hands from other sources. The said treasurer of the school committee of Raleigh

township shall receive for his services as treasurer the compensation now allowed by law for the receipt and disbursement of public school funds.

Sec. 4. The school committee provided for in this act shall apportion the money raised or received for educational purposes in Raleigh township, as shall be just to the white and colored races, due regard being paid to the cost of keeping up the public schools for both races.

Sec. 5. That the members of the said school committee shall, before entering upon the discharge of the duties of their office take an oath before the Mayor of the city of Raleigh, or some justice of the peace for Raleigh township, for the faithful discharge of their duties in said office.

Sec. 6. That the said committee shall make or cause to be made to the Board of Aldermen of the city of Raleigh an annual report of the work done and money expended under their direction in Raleigh township on account of public schools, the beginning and end of said school year to be fixed by said board, and the clerk of said board shall forward a copy of said report to the office of the Superintendent of Public Instruction of North Carolina.

Sec. 7. That the Governor and his counsel are hereby directed to sell in fee or lease for a term of ninety-nine years, to the school committee of Raleigh township, at a price not exceeding one hundred dollars per acre, a public square, in the city of Raleigh, known as Moore square, the property of the State, and the said school committee are hereby empowered to contract for the erection thereon of suitable public school buildings for the white race. And the said school committee shall have power to issue bonds in such amount, form and denomination, as may seem best to them to secure the erection of the aforesaid school buildings. The principal and interest of said bonds to be paid out of moneys coming into the hands of said committee other than the moneys raised under and by virtue of the general school law of the State.

Sec. 8. The school committee above provided for shall be a body corporate by the name and style of "The School Committee of Raleigh Township, Wake County," and they shall have the right of receiving gifts and grants, of purchasing and holding real and personal property, and of selling, mortgaging and transferring the same for school purposes, and of prosecuting and defending suits for or against the corporation. Conveyances to said school committee shall be to them and their successors in office.

Sec. 9. Nothing in this act contained shall be construed to prevent the levying and collecting the special tax of one eighth of one per cent, now levied and collected for public school purposes in Raleigh township.

Sec. 10. This act shall be in force from and after its ratification.

Bought a Railroad.

Mr. William Richards, of Brevard, was here on a visit to relatives this week. Mr. Richards enjoys the distinction of being the only citizen of Gaston county who ever bought a railroad. Some months ago a cow belonging to Wm. Skidmore of this county was killed by a train on the Carolina Central Railroad. The authorities of the road refused to pay for the cow and Skidmore brought suit against them in the Superior Court and secured judgment. That part of the Carolina Central (about fourteen miles) lying in Gaston county was accordingly levied on and sold by the sheriff. Mr. Richards became the purchaser, at a cost of \$20,000, at one dollar and fifty cents per mile. This is the cheapest fair deal ever bought in the United States.

Mr. R. D. Whitson, 23 Howard Street, Springfield, Mass., writes: My wife and I have suffered for years with neuralgia, toothache, and nothing ever relieved them. They used Perry Davis' Pain Killer, and it worked like a charm.

Western hemp growers think it is beginning to pay on June.

Freshly extracted cod liver oil and Dr. Ross's Cod Liver Oil and Cod Liver Pills will, when used together, cure any case of nervousness, sick headache, or indigestion. They will also cure the nervous system, 1,000 physical prescribes them.

Orange trees are being shipped to South Florida.

On the 20th December last, Mr. A. V. Kessler, of this city, sent \$10 to Mr. A. Dauphin, President of the Louisiana State Lottery Company at New Orleans, La., with request that he send a ticket to him. It was No. 150,000, which he received, Nov. 10, 1882, and which he found following the January drawing to be a winning ticket, and he received \$10,000. He forwarded the ticket for payment, it is subject to the usual conditions. Mr. K. is thirty-eight years of age and unmarried. He was born in K. O. and is a farmer, a farmer, is very upright, and with a very charitable mind; no one in his way ever gave away four him without a word. Obit. N. O. Gazette to Mo. Herald, January 23rd, 1882.

Industry must prosper even when protracted by a broken China.

Lillian Norton, the American prima donna, is progressing. She has taken a husband to support.

J. W. Gray, Esq., Stateville, N. C., says: "I can recommend Dr. Williams' Pink Pills. I have felt it with gratifying results."

The New York "Sun" thinks the country needs a new counterpane. Might as well as for a new dog design.

Mrs. Winslow's Soothing Syrup is the only thing that mothers can rely upon for their children. It cures all kinds of colic, stomach, and wind colic, regains the bowels and gives rest, health and comfort to mother and child. During the process of colic, it is the only remedy that will soothe the gums, reduce inflammation and always all pain, thereby giving rest to the child and comfort to the mother. Twenty cents a bottle.

Riches have wings, but they never fly toward a just design.

A Card.—To all who are suffering from the errors and infirmities of youth, nervous weakness, early decay, loss of memory, indigestion, etc., we send a recipe that will cure you, free of charge. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to Rev. Joseph T. Inman, Station D, New York City.
