The Secret

of the universal success of Brown's Iron Bitters is simply this: It is the best Iron preparation ever made; is compounded on thoroughly scientific, chemical and nedicinal principles, and Joes just what is claimed for it-no more and no less.

By thorough and rapid assimilation with the blood, it reaches every part of the system, healing, purifying and strengthening. Commencing at the foundation it builds up and restores lost health-in no other way can lasting benefit be obtained.

> 79 Dearborn Ave., Chicago, Nov. 7. I have been a great sufferer from a very weak stomach, heartburn, and dyspepsia in its worst form. Nearly everything I ate gave me distress, and I could eat but little. I have tried everything recommended, have taken the prescriptions of a dozen physicians, but got no relief until I took Brown's Iron Bitters. I feel none of the old troubles, and am a new man. I am getting much stronger, and feel first-rate. I am a railroad engineer, and now make my trips regularly. I can not say too much in praise of your wonder-ful medicine. D. C. Mack.

Brown's Iron Bitters does not contain whiskey or alcohol, and will not blacken the teeth, or cause headache and constipation. It will cure dyspepsia, indigestion, heartburn, sleeplessness, dizziness, nervous debility, weakness, &c.

Use only Brown's Iron Bitters made by Brown Chemical Co., Baltimore, Crossed red lines and trade-mark on wrapper.

-An Iowa editor who was asked by a correspondent "Do hogs pay?' has looked over his subscription list and declares that they do not.

-Another weather profit has arisen-Mr. Alpheus Fletcher, of Pocahontas, Tennessee-who makes the discreet prediction that March will be a very windy

-Senator Edmunds is suffering with weak eyes. Thursday all the gas jets in the vestibules around the Senate chamber and in some of the corridors were extinguished because the reflection of the light pained the Senator's eyes.

-The Boston Traveler likeps a contemporary, who remarked that the Hayes administration was the cleanest since Lincoln's, to the inebriated Scotsman who, finding himself prone in the gutter, with his nose over a sewer, exclaimed rapturously: "Ah! sweet Edinburgh, I smell thee noo.'

-Lost: A revolution incubator by the name of Herr Most. He will probably be found loafing around some saloon discussing the labor question and some beer. He can be identified by the abnormal development of his chin, and the broad expanse of his ears. He is saspected of having a valise full of revolutions with him.

-The Rev. Dr. Scovel, a Presbyterian clergyman of Pittsburg, discussed the immorality of the ballet in a recent sermon. He says practically that the ballet is not fit for respectable eyes to gaze upon; and rebuked members of his flock who went to hear Patti and applauded when Cavalazzi kicked her highest and floated about on tiptoe.

The progress of the star route trial is so tedious that the lawyers drop occasionally into poetry. Here is a specimen:

"See the Pagan Pope Try to draw the rope Under the witness' chin 1 venture to say, If he had his way He'd make a new hell, Red hot for Rerdell; He'd shorten the line, Expedite the time And quick ram him in.

-Mrs. Jones wished her boy to be named John Frederick, while the father signified a preference for Edward Gordon. Determined to have her way, she clandestinely procured the baptism of the child under the name she had selected. Jones procured the revocation and anulment of the christening through the bishop of the diocese, and Edward Gordon was officially made the name. Notwithstanding this, the mother persists in calling him John Frederick, and thereby causes a Chicago suit for divorce.

-In the star route trial Wednesday there occurred a sharp colloquy between Messrs. Merrick and Ingersoll, opposing counsel. The former said he never gave his regard to puppies and the latter retorted: "You are a dirty dog." The court advised the counsel to put a hydraulic press on their temper, and urged that an armed neutrality might be had in future. The dignified counsellors then retracted their obnoxious words, and gentle peace again descended on the court room.

-The Department of State has received information that the Malagassy envoys sailed for this country on the 20th ultimo in the national steamer Spain. The gentleman at the head of the embassy is Ravonimahitriniarivo 15 vtra, O. D. P., Minister for Foreign Affairs. This Slavonic name may startle one at first glance, but after it has been committed to memory it is found to be peculiarly rythmical. Mr. R. will become a lion in Washington

-The pointed cuirass bodice with paniers will still be the height of fashion for spring costumes. This style of dress is very generally becoming to ladies, young and old, tall and short, slender and stout. Some of the newly imported dresses show a deep apron overskirt applied to a pointed bodice by little flat pleats, which extend all the way around from front to back. This style of fastening the tunic to the bodice is newer than shirring or pleats set outside the edge of the bodice. Panier draperies and scarfs are arranged in a great variety of ways. They frequently have the two sides differently disposed. The same method holds good in the adjusting of the folds of the apron overskirt or of the polonaise, one side of which may be as long and as plain as a panel while the other is arranged as a panier or a scarf caught up in many folds.

The impression among Congressmen is now decided that the tariff bill will fail, and that all that can be passed will be an internal revenue bill, with, possibly, steel rails and sugar omitted. The House having raised the constitutional question of the right of the Senate to originate a tariff bill, it cannot now gracefully recede. Unless it does the deadlock in the conference committee is bound to continue, because no Democrat in the Senate will serve on the conference. It is conceded, too, that if a bill should be agreed upon, owing to the near end of the session that it is in the power of a small minority to defeat any bill. There is a report that

Mr. Carnsle inten is to withdraw from the -The world has long wanted an easy rule for distinguishing the useful members of society from the uscless and an easy method of gesting rid of the drones. This want is supplied by M. Raoult, a bold follower of Mademoiselle Louise Michel. In he said, "constitute a tribunal which shall say to all citizens, 'Show your hands,' and then let all those whose hands shall not be hard with toil be condemned to death." The proposition was received with loud applause by the horny-handed patriots of the cabaret It certainly has the merit of simplicity and promptness, and yet is much better than the plan of blowing up everybody indiscriminately. It ought to be stipulated, however, that the tribunal should examine the hands with just discrimination. Appearances alone are sometimes deceptive, and M. Raoult's proposition somehow recalls Charles Lamb's remark to his neighbor at whist: "If dirt were trumps, what a hand you would

WASHINGTON, March 1-House .-The House resumed in committee of the whole the consideration of the river and harbor bill.

Mr. Van Voorhis, of New York, moved to strike out the item for the improvement of the Sacramento river. He claimed that if the chairman of the committee had not been from California no such item would have been put in it. It is so outrageous, he continued, so damnable, that nobody but a gambler and cut-throat would think of tacking such a thing as that to such a bill as this.

Mr. Horr, of Michigan, demanded that the words should be taken down. Mr. Page-Oh! I hope not.

Mr. McLane, of Maryland-It is an insult to the House. The words were read at the clerk's desk

and reported to the House. Mr. McLane immediately offered a reso-

lution of expulsion. Messrs. Hiscock, McCook, Miller, Robinson, of Massachusetts, and others, asked that an opportunity be first given Mr. Van Voorhis to withdraw his offensive words and make the fullest and amplest apology. None of these gentlemen admitted that there was any extenuating

circumstance connected with the insult offered alike to the House and to Mr. Page, but they were willing to give Mr. Van Voorhis an opportunity to purge himself. Mr. Robinson, of Massachusetts, in concluding said : "If he declines : if he wavers; if he attempts to justify himself-then I will go to the other extreme.' [Applause.]

After a number of speeches utterly condemning Mr. Van Voorhis, the latter was given the floor. He proceeded to disavow any intention of personal aliusion in his remarks to Mr. Page, and apologized in a clumsy and halting fashion to the House, winding up with the statement that he very much regretted that any exception should be taken or that he was under the necessity of withdrawing those words. [Laughter.]

Mr. McLane then withdrew his resolution, but Mr. Herbert then offered another resolution consuring Mr. Yan Voorhis and advocated its adoption, claiming that a retraction did not wipe out the offense. Gentlemen should not say on the floor what they would not say outside, and convert the House of Representatives into a mad-house.

Mr. Page asked that the resolution be withdrawn, in the interest of business, but Mr. Herbert declined to do so. WASHINGTON, March 2-SENATE -

Mr. Plumb presented the conference report on the District of Columbia appropriation bill. Mr. Jonas, from the committee on epi

demic diseases, reported favorably the bill

to establish a floating hospital in the port of New Orleans. Mr. Plumb, from the committee on conference on the postoffice appropriation bill, reported that the conferees tailed to agree. The report was accepted and a

new conference ordered, Messrs. Plumb, Allison and Beck as the Senate conferees. The Republican members of the Senate held a caucus this morning and selected Mr. Edmunds as their candidate for president pro tem. to succeed Mr. Davis. There was no opposition.

Before adjourning, at 1:15 this morning, Senate confirmed the following nominations: Messrs. Dorman B. Eaton, John M. Gregory and Leroy D. Thomas, to be civil service commissioners; Mr. J. E. De Correy Carte, Consul at Corunna; Mr. Wm. G. Sahone, collector of customs at Petersburg, Va.

SENATE -The river and harbor bill w.s referred to the commerce committee. A resolution was adopted to elect a President pro tem, at noon to morrow, when Mr. Davis resigns.

Au act to exclude public lands in Alabama from the operations of laws relative to n ineral lands, was taken up. At 2:30 the Senate went into executive

The doors were reopened at 5:45 Messrs Allison, Hall and Beck were appointed conferees on the sundry civil bill. The conference report on the army approprintion bill was agreed to (item limiting compensation to be paid to subsidized railreads for army transportation is stricken from the bill.)

In speaking on the pending business, the bill excluding public lands in Alabama from the operation of the laws relating to mineral lands, Mr. Van Wyck criticised the large compensation allowed attorneys engaged in the star route cases, and the Department of Justice in allowing such large amounts. He had hoped that the stories which were told at street corners as to the extravagances of the Department were not true. Taking up the vouchers of George Bliss, he ridiculed the charges made therein, quoting such item as "fifty cents for sleeping car porter," and "five cents for stamps." The vouchers showed that he was allowed \$150 per day and expensos. Merrick, another lawyer, received even larger per diem, but as he lived in Washington the vouchers did not show that he charged for board. It was perfectly plain now why these suits continued as long as they drd-a six months trial in an ordinary case-it was an inducement to these men to continue suits for six months and also a temptation to them to hang the jury-it it was true, they did. He did not say that they did. That courts for the administration of justice in the District of Columbia should be occupied for six | cent. per pound (or \$6.72 per ton, the menths in a common case was an outrage | rate proposed by the tariff commission.) which ought not to be tolerated. No In the glass and earthenware schedule the greater disgrace had ever been connected | committee propose a specific duty of one a recent harangue in Paris M. Raoult | with the jurisprudence of any country | cent per pound on glass bottles and made this sweeping proposition: "Lot us," | than that which had been exhibited in the | crockery, and transfer printed and painted treatment of cases in the District of Columbia. Mr. Van Wyck continued for some time to criticise generally the management of the Department of Justice, but was brought up by Messrs. Logan and Cameron of Pennsylvania. In reply to questions from these Schators Mr. Van Wyck explained that the papers quoted from were copies of the documents called

for by the Senate, and his purpose was to ask to have them referred to the committee. Messrs. Cameron and Van Wyck were on the verge of a quarrel when the former checked himself with a sentence half spoken, which apparently would have applied an epithet to Mr. Van. Wyck. Mr. Logan accused Mr. Van Wyck of

taking advantage of the opportunity of

making a general attack on the Attorney General's department without any reference to any report or anything whatever except to get this harangue before the country. Mr. Logan said the course of the Schator from Nebraska was so undignified and so wide a departure from the usual method of proceeding in the Senate, that without desiring to enter into the merits of the case he felt justified in saying that if such a speech were made by any man out doors while a trial of men charged with robbing the government was going on, the country would understand that the speaker was an attorney for the

defendants. Mr. Van Wyck said there was no need to await a report from any committee; the documents spoke for themselves. The country is being robbed. What has been saved through the energy of former postmaster generals is being spent now by a combination of lawyers, getting \$150 a day. I want this extravagance to stop. I move that these papers be printed and referred to the judiciary committee. The motion was agreed to. The Senate then (or the half dezen who were present), took a recess for an hour, till 8:15.

House.- Under the operation of the "Pound" rule, the following proceedings occurred:

Mr. Herbert, of Alabama, under the instructions from the committee on public buildings and grounds, called up the bill for the erection of a public building at San Antonio, Texas. Objected to. At the conclusion of the hour, the Sen-

ate amendments to the sundry civil appropriation bill was non concurred in. House.-The conference report on the postoffice appropriation bill was submitted. It stated the continued disagreements on the items providing for special

mail facilities, and limiting compensation to be paid to subsidized railroads. Mr. Robinson, of Massachusetts, moved that the House recede from its disagreement to these amendments and agree to the same. The motion was agreed to-

yeas 125, nays 117. The effect of this vote is to pass the bill retaining the appropriation of \$185,-000 for special man facilities, and without the clause limiting compensation to be paid to subsidized railroads for mail transpor-

The House then took up the Missis sippi contested election case of Buchanan vs. Manning. The resolution which grants the contestant leave to withdraw papers without prejudice was adopted. This confirms the right of Mr. Manning

Mr. Butterworth moved to suspend the rules, and pass the bill to authorize the Southern Pacific and other railroad companies to unite and consolidate, so as to form a continuous line of railroad from the tidal waters of the Pacific Ocean to the Gulf of Mexico.

Mr. Butterworth explained that the bill simply authorized the consolidation of nine roads to form a continuous line from the Pacific to the Gulf of Mexico.

Messrs. Dun of Arkansas, Gibson of Louisiana, Culverson of Texas, Robinson of Massachusetts, and Holman, opposed the bill as being too important to be passed at this late day of the session. The motion was lost-yeas 87, navs 128.

The Senate amendments to the bill increasing the pensions of one-armed and one-legged soldiers were concurred in. Recess till 7:30.

At the evening session the Frost-Sessnghouse contested election case, from Missouri, was taken up. Sessinghouse was given flie seat, and was sworn in, taking the iron-clad oath.

genment of the Committee on the 'ax and

Tariff Bill. WASHINGTON, March 2 .- The conference committee on the tax and tariff bill reached a complete agreement about 12:30 this afternoon, and forthwith sent their report to the government printing office in order to be able to present it to both houses of Congress in printed form before the adjournment to day. The report will recommend the adoption of the Senate bill, with very few changes of general importance in the metal schedule, in which the committee reccommend some increase of rates, especially in regard to steel. The committee makes no change from the rates proposed by the Senate bill for cotton ties, wire rods, or for any other important articles which have been subjects of controversy in the metal schedule. The conference committee recommended one change in the sugar schedule, viz: an increase to 21 cents per pound on sugars. graded above No. 13 and not above No. 16, Dutch standard. [The Senate fixed this duty at 24 cents per pound. 7 Some minor changes of classifications are made in the cotton schedule, but none of the rates. The only change in the woolen schedule is to impose a duty of 45 cents perr pound and 40 cents per pound ad valorem upon women's cloaks. The changes agreed upon under the

heading of steel fix rates; as follows: On steel, valued at four cents per pound, or less, 45 per eent. ad valorem; on steel, valued above four cents and not above seven cents per pound, a specific duty of two cents per pound; on steel, valued at not less than seven cents and not more than eleven cents per pound, a specific duty of 24 cents per pound. On steel rails the conference committee recommend a duty of seventeen dollars per ton; on iron ore 75 cents per ton (instead of 50 cents); and on pig iron three-tenths of one per crockery to the china clause, thereby increasing the duty from 50 per cent. ad valorem to 60 per cent.

The conference committee recommend that the provisions of the bill reducing internal revenue taxes on snuff, tobacco and eigars shall go into effect May 1st, instead of July 1st, as provided in the Senate bill.

\$15,000.

Is the Value of Ticket No. 57,012 in the Louisiana State Lottery, Held by Charles Rigney, Jr., and Mrs. Jack Burns.

Last Thursday the air was actually alive with startling rumors of Louisana Lottery lightning. One could hear of its striking all around, but to find the damaged (? parties defied reportorial skill and perinacity for no little while. It was at length definitely ascertained that ticket No. 57,012, held equally between Charles Rigney and Mrs. Henrietta Burns, of Maysville, in this county, had drawn \$15,-000—Mrs. burns, the wife of Mr. Jack Burns, was a Miss Daniels, sister of Mrs. Perry L. Harrison and Maj. J. M. Daniels, and a most worthy lady; young Rigney is a sober, steady and a hard working boy, the son of Mr. Charles Rigney, a well

known citizen of this county.

Mr. Riguey, ignorant of his good fortune, was stopped the morning after the drawing, on the 13th inst., in front of the Huntsville Hotel by a friend, who said: "Charley, ticket No. 57,012 drew \$15,-

Rigney, without a trace of excitement, replied, "that's my number exactly (pulling out his ticket); yes, sir, that's my number. His friend congratulated him heartily, and suggested that it was the time of all dimes for champagne. But Charles, observing that such extragance was both foreign to his taste and beyond his means, proceeded quietly to the popular bank of W. R. Rison & Co., and deposited his ticket for collection.

Our reporter aw Mr. Rigney this morning. He informed him that the \$15,000 had been promptly paid and was now depo-sited in bank. He said this was his first lottery ticket; that he saw the Louisiana State Lot ery advertised and thought he would invest a little and try his luck. It has been generally rumored that in the same drawing a well known young awyer and politic an got the best of the lottery by, say \$1,000. We cannot tell, and give the report for what it is worth .-

What is Diphtheria?

The name is comparatively new, but the disease is as old as sin itself. It is a condition of the throat something like croup, only worse, because it attacks the sufferer with such rapidity and in such a way ss to stop the air passages. The throat is violently inflamed, and a tough membrane, like leather, is very rapidly formed. Perry Davis' Pain Killer has cured thousands of cases of diphtheria. It acts so promptly, and so efficiently, that no family can afford to be without it.
