They were placed in position, and at the word fell upon each other with all the fierceness born of madness. They pummeled each other soundly for about five minutes, when the North Carolinian was knocked to the ground, but got up and resumed the fight. They fought for exactly sixteen minutes by the watch, when both gladiators, bloody and bruised, fell to the ground. The seconds rushed to the side of each of the fallen "slugs" and endeavored to raise them for a renewal of the contest, but without success. Both were finished, and each one, unmindful of the celebrated Macduff's invocation, cried, "enough." The seconds insisted on the fight proceeding, but each combatant declared himself satisfied. They

Western North Carolina Insane Asy-

[Charlotte Journal-Observer.]

We learn that the Insane Asylum at Morganton is now under way and working smoothly. Dr. Murphy, the superintendent, and Dr. Hilliard, the assistant physician, are rather young men, but they are good managers and discharge their duties faitafully, promptly and energetically, just like good working men can do when they try. The way patients crowd around Dr. Murphy and Dr. Hilliard when they enter the wards of the asslum shows that the treatment has been kind and sympathizing and that the unfortunate men and women appreciate it.

Only six months ago the asylum build ng was not completed, many of the doors not even having locks on them and the windows without proper guards; but now there are about 125 patients within its walls, receiving kind and tender treatment and all their wants properly attended to. The board of directors, the physicians and other officers of the institution have worked steadily and earnestly to get it under way and afford as much accommodation to the unfortunates of the State as possible, and all concerned claim that they have done everything they could to discharge their duties and meet public ex pectation.
